Dear Ms Martin:

This letter is to respectfully protest the proposed of the Forest Service to allow a huge logging operation (406 square miles), the building of 600 miles of access roads and the opening of Sleep Mountain to timber roads and logging in our Medicine Bow National Forest.

This project seems like over-kill for fire protection for private structures within or bordering the Forest and many healthy trees would be cut, to say nothing of tremendous cost to taxpayers.

Please do not take this proposed action.

Sincerely
Donna R. Marburger
