Route Verification Information

1. a. ☐ Road or trail exists on the map, but **not on the ground** (mark this box and circle on map).
   b. ☐ Road or trail exists on the ground, but **not on the map** (mark this box and draw route on map).
   c. ☒ Road or trail is **on both** map & ground, but **is NOT shown accurately,** for example, road continues further than is shown (mark this box and draw changes on map, for this example, please also estimate length of extension).
   Not Discribed Accurately / Properly

2. Typical tread width: ☐ Single Track (motorcycle) ☐ Quad ☐ 4WD (over 50 inches) ☒ Other (please specify): Cars / Pick ups Logging Trucks

3. Existing use by wheeled vehicles (if observed or known) ☒ Motorized ☐ Non-motorized (mountain bikes)

4. **Optional** GPS data:

You can include a hard copy print out of a route that has been GPSed on a 7.5 min. topographical quadrangle and attach it to this form. If you choose to do this, please make sure the location is clear, including a prominent place will help. You can also include the corresponding quarter quad map from the web site to make sure the location is clear.

OR

You can provide beginning and ending coordinates below using WGS84 lat/long GPS data (the default setting on most Garmin units).

Beginning lat/long_____

Ending lat/long_____

5. **Optional** attach hard copies of photos showing the full width of the route to illustrate the existing condition (grown over or used regularly by vehicles over 50 inches wide). If attaching photos, please:

- Note photo location with an **X** on an attached map.
- Note direction photographer is facing with an ↑.

Name of Reviewer: [redacted] Phone Number: [redacted] Email Address:_____

Use the back of this form to provide additional clarifying information if needed.

Mail information to: Shasta-Trinity N. F. TM Route Inventory, 3644 Avtech Parkway, Redding, CA 96002 Attn: Brenda Tracy.
