For the Is Old Growth and Future Old Growth columns, 0=Not Old Growth, 1=Is Old Growth, 2=Cannot Assess. Future Old Growth years indicated are added to the current tree age, no growth or mortality included. Numeric values under the OG Zone column represent data issues and are annotated the following way: 1) R1 Post-Load Processor has not been run on this exam data. R1 Old Growth Report will not run. 2) Cannot Assess: No habitat type recorded for this stand. 3) Old growth cannot be assessed, habitat type code (PV_Code) does not indicate it is a forested habitat type. 4) No trees 9 inches and larger, Not Old Growth. 5) Cannot Assess: Not enough ages measured. 6) Cannot Assess Old Growth.

For the Is Old Growth and Future Old Growth columns, 0=Not Old Growth, 1=Is Old Growth, 2=Cannot Assess. Future Old Growth years indicated are added to the current tree age, no growth or mortality included. Numeric values under the OG Zone column represent data issues and are annotated the following way: 1) R1 Post-Load Processor has not been run on this exam data. R1 Old Growth Report will not run. 2) Cannot Assess: No habitat type recorded for this stand. 3) Old growth cannot be assessed, habitat type code (PV_Code) does not indicate it is a forested habitat type. 4) No trees 9 inches and larger, Not Old Growth. 5) Cannot Assess: Not enough ages measured. 6) Cannot Assess Old Growth.

For the Is Old Growth and Future Old Growth columns, 0=Not Old Growth, 1=Is Old Growth, 2=Cannot Assess. Future Old Growth years indicated are added to the current tree age, no growth or mortality included. Numeric values under the OG Zone column represent data issues and are annotated the following way: 1) R1 Post-Load Processor has not been run on this exam data. R1 Old Growth Report will not run. 2) Cannot Assess: No habitat type recorded for this stand. 3) Old growth cannot be assessed, habitat type code (PV_Code) does not indicate it is a forested habitat type. 4) No trees 9 inches and larger, Not Old Growth. 5) Cannot Assess: Not enough ages measured. 6) Cannot Assess Old Growth.

For the Is Old Growth and Future Old Growth columns, 0=Not Old Growth, 1=Is Old Growth, 2=Cannot Assess. Future Old Growth years indicated are added to the current tree age, no growth or mortality included. Numeric values under the OG Zone column represent data issues and are annotated the following way: 1) R1 Post-Load Processor has not been run on this exam data. R1 Old Growth Report will not run. 2) Cannot Assess: No habitat type recorded for this stand. 3) Old growth cannot be assessed, habitat type code (PV_Code) does not indicate it is a forested habitat type. 4) No trees 9 inches and larger, Not Old Growth. 5) Cannot Assess: Not enough ages measured. 6) Cannot Assess Old Growth.

For the Is Old Growth and Future Old Growth columns, 0=Not Old Growth, 1=Is Old Growth, 2=Cannot Assess. Future Old Growth years indicated are added to the current tree age, no growth or mortality included. Numeric values under the OG Zone column represent data issues and are annotated the following way: 1) R1 Post-Load Processor has not been run on this exam data. R1 Old Growth Report will not run. 2) Cannot Assess: No habitat type recorded for this stand. 3) Old growth cannot be assessed, habitat type code (PV_Code) does not indicate it is a forested habitat type. 4) No trees 9 inches and larger, Not Old Growth. 5) Cannot Assess: Not enough ages measured. 6) Cannot Assess Old Growth.

For the Is Old Growth and Future Old Growth columns, 0=Not Old Growth, 1=Is Old Growth, 2=Cannot Assess. Future Old Growth years indicated are added to the current tree age, no growth or mortality included. Numeric values under the OG Zone column represent data issues and are annotated the following way: 1) R1 Post-Load Processor has not been run on this exam data. R1 Old Growth Report will not run. 2) Cannot Assess: No habitat type recorded for this stand. 3) Old growth cannot be assessed, habitat type code (PV_Code) does not indicate it is a forested habitat type. 4) No trees 9 inches and larger, Not Old Growth. 5) Cannot Assess: Not enough ages measured. 6) Cannot Assess Old Growth.

Future Old Growth years indicated are added to the current tree age, no growth or mortality included. Numeric values under the OG Zone column represent data issues and are annotated the following way: 1) R1 Post-Load Processor has not been run on this exam data. R1 Old Growth Report will not run. 2) Cannot Assess: No habitat type recorded for this stand. 3) Old growth cannot be assessed, habitat type code (PV_Code) does not indicate it is a forested habitat type. 4) No trees 9 inches and larger, Not Old Growth. 5) Cannot Assess: Not enough ages measured. 6) Cannot Assess Old Growth.
