NON-Use

As per FSM 2231.61 (Gila Supp #23), I am informing you that you have incurred 2 years of Personal Convenience Non-Use. In order to maintain full permitted numbers you are required to stock up to 90% of the permitted numbers by the 4th year (2007). If you do not stock to within 90% of the permitted numbers at some time during the 2006 or 2007 grazing season, the permit will be reduced to the high number stocked in the previous 3 years (2004-2006). If you foresee that fully stocking in 2006 or 2007 will not be possible due to resource concerns, I would encourage you to visit with John on alternatives such as a Memorandum of Understanding allowing for long term Non-Use.

Range developments:

All assigned range developments identified in the Term Grazing Permit must be maintained to a functional status.

In addition, we discussed the following specific improvement maintenance schedule:

Year	Improvement	Comments
2005	Gallito fence - #4173	This fence is to be reconstructed
2006	Maintenance/partial reconstruction on remaining assigned perimeter fences: # 4174, #4007, #4278	Permittee will do maintenance/reconstruction necessary to restore these fences to functional status
2007	Rebuild Gallo/Gap pasture boundary fence #4382	This fence is to be reconstructed

Please follow this schedule. If you foresee that completing this schedule will not be possible for any reason, please contact Collin or John.

In addition: Gene Baca has requested to drill the Jewett Gap Well. The drilling permit expired in July 2004, please contact the district when Gene is near ready to drill so that the district can reapply for the permit.

If you have any questions or comments concerning the Annual Operating Instructions, please call John Pierson or Collin Ewing at (505) 773-4678.
