STOP AQUATIC HITCHHIKERS!™

CLEAN

Clean plants, animals and mud from all equipment.

DRAIN

Drain water from all equipment before leaving. Do not dump bait or plants into the lake.

DRY

Dry your boat, trailer and all equipment completely.

Non-native plants and animals are invading our lakes and streams. These aquatic hitchhikers:

- Ruin boat engines and jam equipment;
- Harm game fish and native species;
- Raise operating costs of water & power plants.

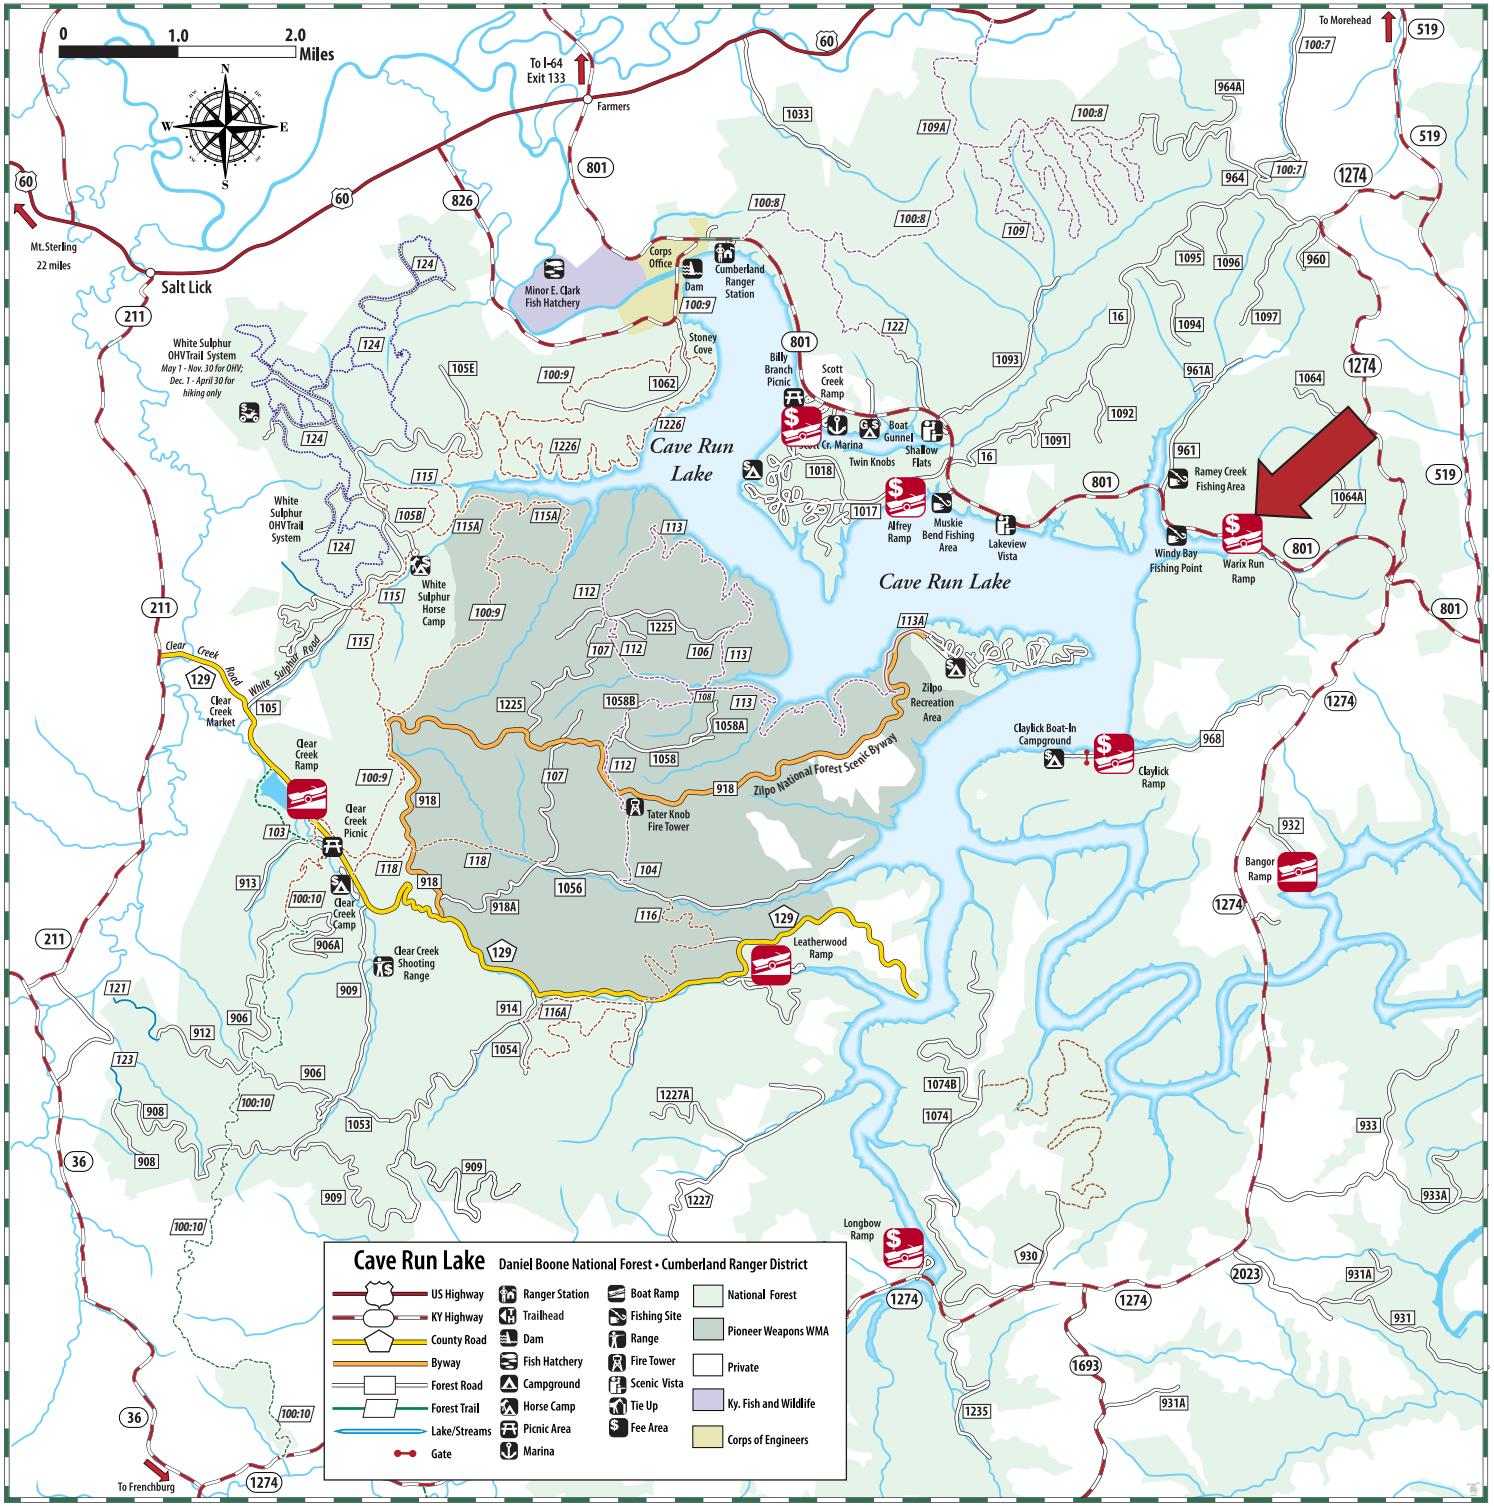
Cave Run Lake

Welcome to Cave Run Lake, an 8,270-acre lake nestled in the beautiful mountains of eastern Kentucky. Built for flood protection by the U.S. Army Corps of Engineers, this lake provides flood protection to the lower Licking River valley. In addition to flood control, Cave Run Lake supplies water to area communities, improves water flow conditions on the Licking River, and offers habitat for many species of fish and wildlife.


Cave Run Lake is located within the scenic Eastern Highlands region of Kentucky in Bath, Rowan, Morgan, and Menifee counties.
