What ever happened to "This land is your land. This land is my land." I have to say the heavy hand of government is at work again. It sounds like this land is GOVERNMENT land is the way things have gone. Give the people back their say. Loosen up on the Chatoooga... and Devil's Courthouse (on the Blue Ridge Parkway), too while you are at it. These lands are, according to the charter, to be allowed and encouraged to be used by the American people AND for recreation, too.

THanks. David Trufant
