Subject: BTNF Plan Monitoring Modification (Grand Teton National Park Staff Comments)

Hello,

I am writing to provide feedback on the "BTNF Plan monitoring modification" on behalf of the Grand Teton National Park staff that reviewed and provided input on the monitoring tables.

I received one set of comments from our Dave Gustine, our Branch Chief of Wildlife and Fisheries:

- **Gray wolf monitoring question (page 2):** Change "proposed gray wolf" to "experimental non-essential population of gray wolf."
- **Wolverine indicators (page 3):** Recommend changing "Amount of snowpack" to "Amount and ablation phenology of snowpack."

These are the only comments I received from our staff here at Grand Teton National Park. If you have any questions, please feel free to contact me.

Thank you.
