USDA Forest Service Fee Areas
All persons entering a USDA Forest Service facility operated and maintained by RRM of A are subject to paying use fees. All vehicles and or persons associated with these use areas must provide the proper documentation that a fee has been paid for the use of the campground or day use areas. Failure to do so may result in legal law enforcement action. Federal statutes and State guidelines regarding "Inn Keeper" Laws cover RRM of A. Enforcement of these provisions lie with the US Forest Service & the respective County Sheriff's Department.

Campground Design Capacities
The standard design capacity for US Forest Service campgrounds is 8 PAOT (persons at one time) with a 2 vehicle per site limit. There may be individual campsite designs that are capable of accommodating additional vehicles or camp units. Also there may be site designs that will only accommodate 1 camp unit. Individual circumstances will be addressed with the appropriate fee applied.

Picnic Day Use Policy
Appropriate picnic or day use fees will be paid prior to 2pm. After 2pm the full campground use fee shall apply. Any amount previously paid prior to 2pm will be deducted from the campground fee. Refunds generally will not be given towards picnic or day use unless it is reasonably determined that insufficient time has elapsed to participate in a picnic or other activity. Golden Age or Golden Access passes may be used for picnics or day use. Some campgrounds may be subjected to picnic restrictions during peak camping seasons. Host discretion may apply in certain circumstances.

Extra Vehicle Fees
An additional camp unit will be allowed to occupy the same site of a camp unit if site design can accommodate. An additional camp unit will be charged the full campground fee. This fee is not subject to Interagency Pass discount unless that visitor is a holder of that pass. This fee is subject to surcharges for electric, sewer or other services in certain areas. The additional camp unit is not collected by the NRRS reservation company and is to be paid at the campground. This additional camp unit must be occupying the same camp -site as the 1st. No more than two vehicles will occupy the same site unless design and proper authorization are obtained. Interagency Senior Pass or Golden Age / Golden Access cardholders will be charged one half rate of the camp fee. Interagency Senior Pass or Golden Age / Access discounts do not apply to surcharge fees on electric and sewer firewood or other services.

Group Sites
Group sites will be placed on the National Reservation System as identified. Group sites are not subjected to Golden Age or Golden Access discounts. Group sites will have a 2-night min. on weekends and a 3-night min. on holiday weekends thru reservation system.

Interagency / Senior Pass
Interagency / Senior Pass 50% discounts apply to camp unit campsite fees only. Discounts will not be given for other services; day use, electrical or full hook up charges, sewage dumping, and firewood purchases etc. Interagency / Senior Pass discounts are applied to only the cardholder. Cardholders may only rent the site they are assigned to and not multiple sites. Cardholders may not use their cards to rent sites for noncardholders.

Reservations
Reservations are made for specific sites in campgrounds listed on the National Recreation Reservation System. RRMofA is required to hold any reserved site for a minimum of 24 hours. Reserved sites will be posted with the parties name and date of arrival. Reservation listed sites can be rented to 1st come – 1st serve parties between reservations. All reservation problems will be referred to Area Managers and then onto the Lakeside Office. RRMofA is not responsible for reservation discrepancies caused by the National Recreation Reservation System. Host will refer any NRRS discrepancies to the reservation company or the USFS.

Refunds
Full refunds for campsites will be given up to 2pm regardless of reason for departure. After 2pm refunds will be issued on remaining length of stay after deduction of that nights fee. Reservation refunds will be processed by Area Managers and sent to the Lakeside Office. Reservation refunds under contractual agreement must be processed through the National Reservation System and not RRM. No refunds will be issued for firewood.
