Woodsy's ABCs

Dear Parents, Teachers, Librarians, and Youth Leaders:

This book is meant for you to read to young children. I hope it guides you in increasing your children's awareness of the world around them.

Each page offers a letter, music, rhyming verse, and action prompt.

You may choose to read all or parts of each page.

As your children become familiar with the letters, words, and pictures, there are many related concepts for them to discover.

For ideas on how you can expand on the information in this book, please visit me on the World Wide Web at www.woodsyowl.gov.

Together we can "Lend a hand, care for the land."

Have fun!

Your friend,

Woodsy

Woodsy Owl

P.S. This book shows many different kinds of wildlife. In nature, however, you may not see so many kinds of wildlife at once.
