

## Annual Operating Instructions (AOI)

**Allotment:** Long Canyon  
**Permittee:** Jill D'Olive  
**Permit Number:** 61227

**Authorization:** Authorized to graze the following in 2006:

Authorized	From	To	Allotment
112 cow/calf	3/1	2/28	Long Canyon

### 1. Management:

Long Canyon 2006 Pasture Rotation:

Pasture	Time Frame
South	3/01-7/15 (all cattle)
East	7/16-8/15 (branding)
West	8/16-2/28 (all cattle)
East	10/1-10/31 for shipping

As discussed in the meeting 1/17/06, please haul water and use supplement to distribute livestock in the South pasture. When using the West pasture, please distribute livestock away from the northeast portion of the pasture to avoid exceeding the allowable use level.

Please notify us of cattle movements onto and off of the allotment, as well as refinements that may be needed to enhance the management system. If you identify the need to differ from this management system by more than 15 days, please contact this office at least two weeks in advance so that the district has time to conduct monitoring and assess your request.

### 2. Utilization Standards and Monitoring:

The maximum allowable use level set for the Long Canyon Allotment is **35%** during the growing season and **50%** during the dormant season; in addition growing season stubble heights should not be less than an average 3 inches on blue and hairy grama. Stubble heights should not be less than 5 inches on sideoats grama, and no less than 6 inches on mountain muhly. Use of browse is not to exceed the **50%** level. Key areas and restricted areas (PAC's) will be visited to determine actual grazing use / seasonal use by livestock and wildlife. If utilization / seasonal utilization levels are approaching allowable use levels, livestock will be required to be removed to areas within the pasture that are not approaching allowable use levels and/or management changes will be made to the rotation schedule the following year. In the event that areas not approaching allowable use levels are not available, livestock will be removed from the allotment. In the event of over utilization, changes will be made to the

following year's AOI to prevent recurring instances of over utilization. The following dates have been tentatively scheduled for monitoring on the allotment. You are highly encouraged to participate in monitoring with district personnel and/or on your own.

Pasture	Monitoring date
South	06/08/06
West	08/09/06 (range readiness inspection)
East	10/25/06

**3. Forage Growth and Water Availability:**

If forage growth and water availability are not adequate during all or portions of the 2006, total or partial livestock removal from the allotments may be necessary. Part 2, clause 8(c) of the grazing permit provides this option.

**4. Grazing Restriction:**

The Long Canyon allotment includes Mexican Spotted Owl Protected Activity Center's (PAC). In these PAC's the following activities are restricted during the breeding season of the Owl (March 1-August 31): livestock concentrations or trailing, fence construction, and livestock salting; routine maintenance is allowed.

**5. Range Improvements:**

All assigned range developments identified in the Term Grazing Permits must be maintained to a functional status.

In addition, specific maintenance discussed included:

1. The permittee proposes to work the fences between the East pasture and the South and West pastures (#6535 and #6257), please contact Collin or Jerry for materials and permit modification.
2. The permittee proposes to replace the windmill at Long Canyon Well, please contact Collin or Jerry for a permit modification and to check on availability of materials.

**6. The Annual Operating Instructions** are a part of the Term Grazing Permit as provided for in Part 3, Section 8. They comply with the standards and guidelines found in the Forest Plan. They also comply with the Endangered Species Act on-going grazing consultation for the Leggett allotment. Any additional information collected during the year may be incorporated into the annual operating instructions.

This decision is subject to administrative review, pursuant to 36 CFR 251; and any appeal of this decision must be fully consistent with 36 CFR 251.90 (see enclosed copy of 36 CFR 251 regulations). In accordance with 36 CFR 251.84, if you file an appeal, I am willing to meet with you to discuss any concerns you may have with my decision. If you file an appeal, you

may request an oral presentation in the appeal or at any time prior to closing of the appeal record (36 CFR 251.97). Additionally, if you file an appeal, you may request a stay of my decision in the appeal or at any time prior to closing of the appeal record (36 CFR 251.91).

A notice of appeal must be filed with Marcia R. Andre, Forest Supervisor, Gila National Forest, 3005 E. Camino del Bosque, Silver City, New Mexico, 88061-7863, within 45 days of the date of this decision. A copy of the notice of appeal must be filed simultaneously with Rogers M. Steed, District Ranger, Reserve Ranger District, at P.O. Box 170, Reserve, NM 87830.

Feel free to contact Collin Ewing or myself at (505) 533-6231 if you have any questions or problems concerning this document.
