

Annual Operating Instructions (AOI)

Allotment: Deadman
Permittee: Jim and Sherri Haught
Permit Number: 61251

Authorization: Authorized to graze the following in 2007:

Authorized	From	To	Allotment
112 cow/calf and 2 horses	3/1/07	2/28/08	Deadman

1. Management:

Deadman 2007 Pasture Rotation:

Pasture	Time Frame
Eagle Peak/ Barrel	3/01-5/31
Holding 1/Collins Park	6/1-6/30
Telephone/Barrel	7/1-10/1
Holding 1/Collins Park	10/1-10/31
Eagle Peak/ Barrel	11/1-2/28

Please notify us of cattle movements onto and off of the allotment, as well as refinements that may be needed to enhance the management system. If you identify the need to differ from this management system by more than 15 days, please contact this office at least two weeks in advance so that the district has time to conduct monitoring and assess your request.

2. Utilization Standards and Monitoring:

The maximum allowable use level set for the Deadman Allotment is **35% (Conservative use approx. 30-40%)**. Use of browse is not to exceed the **50%** level. Key areas and restricted areas (PAC's) will be visited to determine actual grazing use / seasonal use by livestock and wildlife. If utilization / seasonal utilization levels are approaching allowable use levels, livestock will be required to be removed to areas within the pasture that are not approaching allowable use levels and/or management changes will be made to the rotation schedule the following year. In the event that areas not approaching allowable use levels are not available, livestock will be removed from the allotment. In the event of over utilization, changes will be made to the following year's AOI to prevent recurring instances of over utilization. The following dates have been tentatively scheduled for monitoring on the

allotment. You are highly encouraged to participate in monitoring with district personnel and/or on your own.

Pasture	Monitoring date
Eagle Peak/ Barrel	6/6/2007
Holding 1/Collins Park	6/6/2007
Telephone/Barrel	10/3/2007
Holding 1/Collins Park	10/24/2007

3. Forage Growth and Water Availability:

If forage growth and water availability are not adequate during all or portions of the 2007, total or partial livestock removal from the allotments may be necessary. Part 2, clause 8(c) of the grazing permit provides this option.

4. Salt and Supplement Policy

Supplemental feeding of livestock is allowed (to strategically manage livestock distribution and forage use) as follows:

- a) Place supplements on previously disturbed areas (i.e., borrow pits) or natural bedrock outcrops when possible (supplement sites).
- b) Locate supplement sites 0.25 mile or more from waters and key areas except where prior written permission has been obtained from District Ranger.
- c) Locate supplement sites where forage is abundant and utilized less than average.
- d) Limit supplement types to non energy feeds such as salt, protein and mineral blocks.
- e) Use products that prevent the spread of noxious weeds (no feeding of hay on National Forest System Lands).

5. Grazing Restriction:

The Deadman allotment includes Mexican Spotted Owl Protected Activity Center's (PAC). In these PAC's the following activities are restricted during the breeding season of the Owl (March 1-August 31): livestock concentrations or trailing, fence construction, and livestock salting; routine maintenance is allowed.

6. Range Improvements:

All assigned range developments identified in the Term Grazing Permits must be maintained to a functional status.

In addition, specific maintenance discussed included:

1. The permittee partially reconstruct the Cox Canyon/Deadman fence #6233 at Collins Park last year.
 2. The permittee proposes to partially reconstruct the Yeguas/Deadman fence #6294 and continue working on the Cox Canyon/Deadman fence #6233 toward Eagle Peak, please contact Collin or Jerry for materials and permit modification.
7. **The Annual Operating Instructions** are a part of the Term Grazing Permit as provided for in Part 3, Section 8. They comply with the standards and guidelines found in the Forest Plan. They also comply with the Endangered Species Act on-going grazing consultation for the allotment. Any additional information collected during the year may be incorporated into the annual operating instructions.

This decision is subject to administrative review, pursuant to 36 CFR 251; and any appeal of this decision must be fully consistent with 36 CFR 251.90 (see enclosed copy of 36 CFR 251 regulations). In accordance with 36 CFR 251.84, if you file an appeal, I am willing to meet with you to discuss any concerns you may have with my decision. If you file an appeal, you may request an oral presentation in the appeal or at any time prior to closing of the appeal record (36 CFR 251.97). Additionally, if you file an appeal, you may request a stay of my decision in the appeal or at any time prior to closing of the appeal record (36 CFR 251.91).

A notice of appeal must be filed with Marcia R. Andre, Forest Supervisor, Gila National Forest, 3005 E. Camino del Bosque, Silver City, New Mexico, 88061-7863, within 45 days of the date of this decision. A copy of the notice of appeal must be filed simultaneously with Rogers M. Steed, District Ranger, Reserve Ranger District, at P.O. Box 170, Reserve, NM 87830.

Feel free to contact Collin Ewing or myself at (505) 533-6231 if you have any questions or problems concerning this document.
