Nantahala and Pisgah National Forests
Land and Resource Management Plan

Amendment #3

September 1989

Add the following Activity and General Direction for the designation and management of Scenic Byways.

Page III-8 : Add "Scenic Byway Management" under Activities.

Page III-8 : Adjacent to "Scenic Byway Management", add the following under General Direction.

"Manage the following travel corridors as Scenic Byways. On National Forest lands adjacent to the Scenic Byway, emphasize management of roadside vegetation to enhance its scenic values and to provide interpretive opportunities relating to forestry practices and items of historical interest.

The Forest Heritage National Scenic Byway is designated as follows:

Highway 276 beginning at the intersection of Highway 64 and Highway 276 proceeding northwest to the intersection of Highway 276 and Highway 215.

Highway 215 beginning at the intersection of Highway 276 and Highway 215 and proceeding south to Highway 64 at Rosman.

Highway 64 beginning at the intersection of Highway 215 and Highway 64 at Rosman and proceeding northeast to the intersection of Highway 64 and Highway 276."

The following changes for activities regarding Gathering Forest Products are made as follows.

Page III-19: Under General Direction for Gathering Forest Products, change the direction as follows:

1. Require a permit for collection of Forest products for commercial or personal use including moss, plants, shrubs, trees, firewood and other wood products consistent with Management Area direction and National Forest Policy.

2. Allow recreational gathering of fruits, nuts, ramps, cones and berries consistent with Management Area direction and National Forest Policy.

Page III-19: Under Standards for Gathering Forest Products, delete the following standards:

"a. Charge a fee for commercial collection". (DELETE)

"b. Provide for free collection of dead and down firewood for home use; require a permit." (DELETE)
