Appendix 3:

Inventory of Government-Furnished Property

This appendix documents our most recent inventory of property on the sites in this prospectus. The list is deemed reliable, but may contain inaccuracies. As better inventories are obtained, this information is updated.

The following sections contain listings by individual site by Ranger District.

1. Grand Valley Ranger District…….…….2
2. Norwood Ranger District…….…….……... 29
3. Ouray Ranger District…….…….…….……39
4. Gunnison Ranger District…….…….…...49
5. Paonia Ranger District…….…….…… 100

The following sections list buildings in tabular format. Toilets are separated from other types of buildings. The values shown here include estimated total replacement cost and estimated cost of replacement of the building itself, not including associated features (sidewalks, etc), contract preparation, award or administration costs. These structures are to be covered by the required property insurance.

1. Buildings – Toilets
2. Buildings - Other 105
