Legal Notice for Scoping Period
Salmon August Reforestation Project

The Forest Service is using a categorical exclusion (CE) for the proposed Salmon August Reforestation Project, and we are asking you to provide comments. The proposed action may be categorically excluded from further analysis and documentation under 36 CFR 220.6 (e)(5).

The Salmon August Reforestation Project was developed to facilitate reforestation and reduce fuel loading in National Forest System lands burned during the Wallow Fire (part of the Salmon August Complex of 2017). Within the areas proposed for treatment, remaining live conifers are present at stocking densities less than desirable for the area to naturally regenerate. The proposed treatments include about 155 acres of planting (94 acres with site preparation prior to planting) to aid the establishment of native conifer diversity and forest cover within the project area. Proposal information is also available on the Klamath National Forest's project webpage at: https://www.fs.usda.gov/project/?project=52871.

Comments received by Monday, January 22nd are assured consideration in the next phase of project planning.

Submit electronic comments to the Klamath National Forest's project webpage: https://www.fs.usda.gov/project/?project=52871 by selecting the "Comment on Project" link in the "Get Connected" group at the right hand side of the project webpage. Put the project name in the subject line; attachments may be in the following formats: plain text (.txt), rich text format (.rtf), Word (.doc, .docx), or portable document format (.pdf).

Written comments can be submitted via fax (530)468-1290 or mailed to Ruth D'Amico, ATTN: Danika Carlson, 11263 N. Hwy 3, Fort Jones, CA 96032, or hand-delivered during normal business hours (8am to 4:30pm Monday-Friday, excluding holidays).
