

File Code: 1920**Date:** March 21, 2022**Route To:****Subject:** Kootenai National Forest 2015 Land Management Plan; Appendix D – Table 28
Designated Communication Sites on the Kootenai National Forest**To:** Project Files

The **Kootenai National Forest** is making an administrative change to **Appendix D – Table 28 Designated Communication Sites on the KNF (page 169-170)** of the **2015 Kootenai National Forest Land Management Plan**. The purpose for the change is to remove the ‘Designated For’ and ‘Restrictions’ columns in Table 28. The designations and restrictions of sites in the table are in direct conflict with Communication Site Plans for the sites listed. Each Communication Site has a site plan that defines the principles and technical standards adopted in site designation and delineates the types of uses that are appropriate at the site. The site plan provides for effective administration of the communication site and provides direction for day-to-day operations. The table is also being updated to reflect NEPA decisions that have been completed to establish new communication sites on the forest. The correction to Appendix D - Table 28 will align the plan content to the existing Communication Site Plans. The revised Table 28 Designated Communication Sites on the KNF is attached.

I am therefore making an administrative change to the Kootenai National Forest 2015 Forest Plan under 36 CFR 219.13(c). The administrative change does not change desired conditions, goals, objectives, standards, guidelines, or suitability determinations in the forest plan or where such direction applies. The administrative change does not change the monitoring plan.

The administrative change is attached to this letter and will be effective on April 30, 2022.
