Date: November 30, 2023

Dear Interested Party:

Thank you for your interest in projects occurring on the Lolo National Forest (LNF). The LNF is transitioning to an electronic notification system, GovDelivery, that will replace the postal mailing of National Environmental Policy Act (NEPA) project information. This change allows us to provide better and more timely communication about the status of NEPA projects with interested parties, such as milestones in environmental analysis process under NEPA.

GovDelivery allows subscribers to manage which LNF NEPA projects they would like to receive communications about and gain immediate access to project information via the website.

If you are interested in subscribing, please visit the LNF project webpage at:

<https://www.fs.usda.gov/projects/lolo/landmanagement/projects> or by scanning the QR code in the enclosure.

Navigate to the "Email Updates" box, provide your email address, and follow the prompts. The enclosure also includes a detailed illustration of these instructions. After providing your email address, you can self-subscribe to additional electronic mailing lists by selecting the "Mailing Lists" link. Once your email subscription is established, a confirmation email will be sent to the email address provided. You can unsubscribe and delete your account at any time; log back in by entering your email address in the "Email Updates" box and choose "Subscriptions."

This change will go into effect on March 1, 2024, replacing our previous mailing notification method with this electronic system for all notifications of NEPA project milestones, including opportunities to comment on projects. We are making this change to improve efficiencies, reduce costs, and better comply with the Paperwork Reduction Act.

If you would prefer to continue receiving project notifications via postal mail or have any questions about receiving project notifications, please contact Allen Byrd, Lolo Forest Environmental Coordinator, at: Lolo National Forest 24 Fort Missoula Road Missoula, MT 59804 or lawrence.byrd@usda.gov.

Thank you for your continued interest in the Lolo National Forest.

Sincerely,

CAROLYN
UPTON
