Release No.: FY161926

Allegheny National Forest's Longhouse Scenic Drive (FR 262) Planning Lane Closure

Warren, Pa. (April 11, 2016) – The Allegheny National Forest announced that a section of the Longhouse Scenic Drive (FR 262) between the Elijah Boat Launch and Kiasutha Campground will be down to one lane starting April 18, 2016. The lane closure is due to a damaged culvert.

The damaged culvert will be replaced as part of the Longhouse Scenic Drive culvert replacement and paving project, funded through the Federal Lands Transportation Program (FLTP). Design work will begin in 2016, with culvert replacements and paving to start in 2017.

For additional information, please contact Dan Salm, Forest Engineer at 814.728.6269 or dsalm@fs.fed.us.

###

The U.S. Forest Service is an agency of the U.S. Department of Agriculture, with a mission of sustaining the health, diversity and productivity of the nation's forests and grasslands to meet the needs of present and future generations. The Forest Service's Eastern Region has 17 national forests and one national tallgrass prairie located throughout 20 Midwestern and Eastern states. We're spread from Maine to Minnesota and from Maryland to Missouri. For more information, visit www.fs.usda.gov/R9.

The U.S. Forest Service manages 193 million acres of public land, provides assistance to state and private landowners, and maintains the largest forestry research organization in the world. The public lands that the Forest Service manages, contribute more than \$13 billion to the economy each year through visitor spending alone. Those same lands provide 20 percent of the nation's clean water supply, a value estimated at \$7.2 billion per year. The agency has either a direct or indirect role in stewardship of about 80 percent of the 850 million forested acres within the U.S. and includes 100 million acres that are urban forests where most Americans live. For more information, visit www.fs.usda.gov/.
