
APPENDIX G

TRANSITION PROJECTS

All alternatives analyzed in detail in Chapter 3 considered ongoing resource management projects, permits, contracts, and other instruments for the use and occupancy as pre-existing actions. These “pre-existing actions” were considered part of the baseline in developing each alternative and were further included in analyzing effects in this FEIS and also as baseline for the Biological Assessment. The projected effects of these actions are part of the cumulative effects analyses documented in the FEIS and Biological Assessment for the Revised Forest Plan. Continued implementation of these pre-existing actions will not foreclose the ability to adopt any of the alternatives analyzed in detail in Chapter 3.

Table G-1 lists, by Forest and District, the projects on the OSFNFs which have NEPA decisions but have not yet been completed.

Table G-1: Transition Projects

Transition Projects
St. Francis National Forest
Jack’s Patch Prescribed Burn
Horn Tower
St. Francis Automated Weather Station
Mississippi River State Park
Kudzu Removal with Herbicide
Sugar Creek Prescribed Burn
St. Francis Pre-Commercial Thinning
St. Francis Seed Production Area
South End
Ozark National Forest
Bayou RD
Woodland Ecosystem Project
Divide Mountain
Adams Mountain
Campbell Hollow
Regeneration Project
Three Knob Thin & Burn
2005 Hardwood Release
All Season Fire Use
Broomfield TPL Site Prep & Reforestation Project

Table G-1: Transition Projects (Continued).

Bayou RD (Continued)
Roller Chopper Regeneration Project
Poe Creek Project
First Thinning
Middle Fork
Hagarville Pine
Indian-Moccasin
Page Pine
New Burn
Prescribed Fire Effects on Oak Regeneration
Campbell Hollow Hazardous Fuels Reduction Prescribed Burning Project
Buffalo RD
Big Point Prescribed Burning & Wildlife Projects
Big Point East
Round Hill #2 Prescribed Burning
Shuler's Point/Daniel Mountain
Slusher Prescribed Burning
Cooper's Bluff Wildlife Improvements & Prescribed Burning
Edgemon Prescribed Burning & Wildlife Stand Improvements
Hideout Hollow Prescribed Burning & Wildlife Projects
Parker Ridge Prescribed Burning
Robinson Road Prescribed Burning
Robinson Road Addition Wildlife Improvements & Prescribed Burning
County Line Wildlife Improvements & Prescribed Burning
Stack Rock Prescribed Burning & Wildlife Projects
District Wildlife Openings #1
District Wildlife Openings #2
Devil's Knob #1 Prescribed Burning
Devil's Knob #2 Prescribed Burning, WSI & Wildlife Projects
District Prescribed Burning for: Round Hill, Dixon Ridge, Parker Ridge, Buck Ridge, Middle Ridge, & Gobblers Knob
District Wildlife Stand Improvement (Basinger)
Sassafras Wildlife Improvements & Prescribed Burning
Non-Commercial Thinning and Release (CE FY03)
Highway 123 thin and burn (CE10)
Noxious Weed Removal Project & Native Grass Restoration
Hefley Range Allotment
Gee Range Allotment #21
Sam's Throne
Meeks Hollow
Cow Creek
Ratford
Boss Hollow
Edgmon Creek

Table G-1: Transition Projects (Continued).

Buffalo RD (Continued)
Devil's Knob
Sassafras Knob
Stone Mountain
Magazine RD
Harkey Valley
Corley
North Bluff Fuels Reduction
Wildlife Opening Restoration
Brock Ridge
Mt. Magazine Fuels Reduction
East End Fuels Reduction
Crow Mountain
Sheppard Ridge
Pleasant Hill RD
Chalybeate Spur Prescribed Burn
North Woods Mountain Project
Bee Ridge
Barnes
Batson
Sie Hollow
West Morgan
Grassy Ridge
Chalybeate Spur
Rifle Hazardous Fuel Reduction (DM)
Spoke Plant (DN)
Thompson Knob-Seven Devils (DN)
Sylamore RD
Kudzu Eradication
Clifty Canyon Ecosystem Burn
Cap Fork Prescribed Burn Project
Sylamore Experimental Forest Prescribed Burn Project
The Fifty Six Prescribed Burn Project
Green Mountain
Grassy Thinning
Highway 87 Thinning
Compartments 7, 12, 13 and 14
Berry Ridge Pre-Commercial Thinning
Pre-Commercial Thinning 05
PCT 04
Martin Springs
Advance
Sylamore Removal
Sylamore Mountain Bike Trail

Table G-1: Transition Projects (Continued).

Sylamore RD (Continued)
Sylamore Wildlife Habitat and Pond Improvement
Sylamore Hiking Trail Expansion
Sylamore District Office Project
Down Dead Salvage
Road and Trail Safety Hazard Reduction (thru 2006)
Boston Mountain RD
Elmo
Keets
Fly Gap
Wedington Boat Ramp

*This list may not be complete, but any decision signed prior to Sept. 23, 2005 which was in compliance with the requirements of the old plan and the 1982 regulations and is still valid under the transition language of the revised plan.
