Due to the small size of some 8.1 and 7.1 Management Areas, they will be difficult to see at this map scale. The label indicates the general location. Please see the implementation map set or the GIS layer to determine exact location.
The USDA Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. Using GIS products for purposes other than those for which they were intended may yield inaccurate or misleading results. The USDA Forest Service reserves the right to correct, update, modify, or replace GIS products without notification.
