Subject FW: calculations for Azurite Mine

Rod, attached are the geotechnical calculations that you requested. I spoke with Dave and Teresa about the safety factor, they indicated that 1.5 was used during the analysis.

Let me know if you need additional support information.

Dustin

Subject: calculations for Azuite

Hi Dustin,

Attached are copies of the calculations for evaluation of the stability of the cover for Azurite. Please feel free to call or email with any questions.

Dave
