10. Duration

Two years

11. Termination

Unless considered and approved for renewal, the Committee's charter will expire at the end of its 2-year duration.

12. Membership and Designation

12a. This committee will be fairly balanced in its membership in terms of the points of view represented and the functions to be performed. Steps will be taken to encourage fresh points of view, such as establishing staggered membership terms and limiting the number of renewed memberships.

12b. Equal opportunity practices in accordance with USDA policies will be followed in all appointments to the Committee. To ensure that the recommendations of the Committee have taken into account the needs of the diverse groups served by USDA, membership shall include to the extent possible, individuals with demonstrated ability to represent minorities, women and persons with disabilities.

12c. The USDA prohibits discrimination in all of its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program.

The Committee will consist of not more than 21 members who provide balanced and broad representation of public interests such as, but not limited to industry and user groups; environmental organizations; conservation organizations; recreation interests; members of the scientific community; other public interests; nationally, regionally, and locally recognized associations; State, county, or local elected officials (or designee); Tribal representatives; and other federal representatives. Nominees will be sought through an open and public process that includes, but is not limited to, nominees submitted by tribal governments, county and state governments, organizations, and individuals who represent the interests of the public on National Forest System lands.

12d. Of these members, one will become the chairperson who is recognized for their ability to lead a group in a fair and focused manner and who has been briefed on the mission of this Committee. A co-chairperson may be assigned, especially to facilitate their transition to become the chairperson in the future.

12e. Ethics Statement

To maintain the highest levels of honesty, integrity and ethical conduct, no Committee or subcommittee member shall participate in any "specific party matters" (i.e., matters are narrowly focused and typically involve specific transactions between identified parties) such as a lease, license, permit, contract, claim, grant, agreement, or related litigation with the Department in which the member has a direct or indirect financial interest. This includes the requirement for Committee or Subcommittee members to immediately disclose to the DFO (for discussion with USDA's Office of Ethics) any specific party matter in which the member's immediate family, relatives, business partners or employer would be directly seeking to financially benefit from the Committee's recommendations. Members of the Committee shall be required to disclose their direct or indirect interest in leases, licenses, permits, contracts, or claims that

involve lands or resources administered by the Forest Service, or in any litigation related thereto.

All members will receive ethics training to identify and avoid any actions that would cause the public to question the integrity of the Committee's advice and recommendations. Members who are appointed as "Representatives" are not subject to Federal ethics laws because such appointment allows them to represent the point(s) of view of a particular group, business sector or segment of the public.

Members appointed as "Special Government Employees" (SGEs) are considered to be intermittent Federal employees and are thus subject to Federal ethics laws. SGE's are appointed due to their personal knowledge, academic scholarship, background or expertise. No SGE may participate in any activity in which the member has a prohibited financial interest. Appointees who are SGEs are required to complete and submit a Confidential Financial Disclosure Report (OGE-450 form) and, upon request, USDA will assist SGEs in preparing these financial reports. To ensure the highest level of compliance with applicable ethical standards USDA will provide ethics training to SGEs on an annual basis. The provisions of these paragraphs are not meant to exhaustively cover all Federal ethics laws and do not affect any other statutory or regulatory obligations to which advisory committee members are subject.

13. Subcommittees

The committee may create and operate subcommittees as deemed necessary by a simple majority of the committee members and approved by the Designated Federal Officer. Subcommittees may only conduct preliminary staff work to inform the deliberations of the full committee; decisions and recommendations may be made only by the parent committee. Subcommittees must report back to the parent committee, and must not provide advice, recommendations or work products directly to the Forest Service. Subcommittee activities, advice and work products must be reported in the minutes or other public records of the full committee.

14. Recordkeeping

The records of this Committee, formally and informally established subcommittees, or other subgroups of the committee, shall be handled in accordance with General Records Schedule 26, Item 2 or other approved agency records disposition schedule. These records shall be available for public inspection and copying, subject to the Freedom of Information Act, 5 U.S.C. 552. Information about this Committee is available online at:
