Dear Uinta National Forest Shareholder:

As another summer comes to a close, it's good to see the work that has been accomplished this season on the Uinta National Forest. On the Heber Ranger District, projects to improve beaver and sage grouse habitat were completed. Hikers and other recreationists have benefited from work on the Pleasant Grove Ranger District to reconstruct and complete a portion of the Bonneville Shoreline Trail, and visitors to Cascade Springs have already been able to use the newly-replaced boardwalk. An endangered plant species in Utah County will get a boost with the decision to introduce additional populations onto the Spanish Fork Ranger District.

We appreciate your comments and the involvement you have shown in activities occurring on your National Forest. To receive more information on any of the projects listed in this edition of the Schedule of Proposed Actions, please contact the individual listed as the "Project Contact."

Sincerely,

PETER W. KARP  
Forest Supervisor
