

## Table of Contents

<b>Chapter 1. Purpose and Need For Action.....</b>	<b>1</b>
Document Structure .....	1
Changes from the Draft to Final EIS for this Chapter .....	1
Purpose of and Need for Action.....	2
Project Objectives:.....	3
Background .....	4
Fire Suppression Activities, Completed Fire Rehabilitation, and Ongoing Fire Recovery Project	4
Severity of Burn .....	5
Existing Condition .....	6
Forest Vegetation/Structure.....	6
Wildlife Habitat .....	6
Fisheries and Watershed.....	7
Soils .....	8
Fuel Models .....	9
Economics/Social .....	10
Roads/Access.....	10
Roadless Areas .....	11
Scenery .....	12
Rangeland Resources.....	12
Heritage Resources .....	12
Culturally Important Plants .....	13
Sensitive Plant Species .....	13
Invasive Species/Noxious Weeds .....	14
Recreation and Recreation Opportunity Spectrum (ROS).....	14
Management Areas and Objectives.....	15
Relationship to the Forest Plan.....	15
Desired Condition .....	18
Short-term Desired Conditions.....	18
Long-term Desired Conditions .....	21
Proposed Action .....	24
Purpose and Design .....	24
Dead and Dying Tree Determination.....	24
Forest Vegetation/Structure.....	25
Wildlife Habitat .....	25
Fuel Condition .....	27
Roads/Access.....	27
Forest Plan Amendments.....	28
Actions Outside of this EIS to Address Recovery Needs.....	28
Decision Framework .....	29
Public Involvement .....	29
Initial Scoping .....	29
DEIS Comments and Responses .....	30
Coordination with Other Governments and Agencies .....	30
Issues .....	30
Other Analysis Issues and Concerns .....	33
Forest Vegetation/Structure.....	33
Wildlife Habitat .....	34

Water Quality and Fisheries .....	34
Soils .....	35
Fuels.....	35
Roads/Access.....	35
Scenery .....	35
Rangeland .....	35
Heritage.....	36
Culturally Important Plants and Sensitive Plant Species .....	36
Invasive Species.....	36
Recreation and Recreation Opportunity Spectrum (ROS).....	36
Roadless/Unroaded .....	36
<b>Laws and Regulations .....</b>	<b>36</b>
The Preservation of American Antiquities Act of 1906: .....	36
The National Historic Preservation Act:.....	36
The Endangered Species Act of 1973, as amended: .....	37
The Migratory Bird Treaty Act of 1918: .....	37
The National Environmental Policy Act (NEPA) of 1969, as amended:.....	37
The National Forest Management Act (NFMA) of 1976: .....	37
The Clean Water Act, as amended in 1977 and 1982:.....	38
The Clean Air Act, as amended in 1990:.....	38
Multiple-Use Sustained-Yield Act of 1960 .....	38
Treaty with the Walla Walla, Cayuse, and Umatilla Tribes, June 9, 1855, and Treaty with the Tribes of Middle Oregon, June 25,1855: .....	38
Public law 92-488:.....	38
Migratory Bird E. O. 13186:.....	38
Natural or Depletable Resource Requirements and Conservation Potential: .....	39
Environmental Justice:.....	39
Prime Farmland, Rangeland, and Forestland:.....	39
Floodplains and Wetlands.....	39
Forest and Rangeland Renewable Resources Planning Act (RPA) of 1974 (as amended) .....	39
Executive Order 12962 (aquatic systems and recreational fisheries) .....	40
Executive Order 13112 (invasive species).....	40
Consumers, Civil Rights, Minorities, and Women:.....	40
Project Record.....	40
<b>Chapter 2. Alternatives, Including the proposed action.....</b>	<b>41</b>
Introduction.....	41
Changes from the Draft to Final EIS for this Chapter .....	41
Alternative Development Process.....	42
Alternatives Considered but Eliminated from Detailed Study .....	43
Harvest of Live Trees (Considered initially in Alternative 2) .....	43
Designate new Dedicated Old Growth (DOG) areas and retain old DOGS as MA-13 .....	43
Harvest within Riparian Habitat Conservation Areas (RHCA) .....	44
Alternatives Considered in Detail .....	44
Alternative 1 - No Action .....	44
Alternative 2 - Proposed Action .....	45
Alternative 3 – Preferred Alternative.....	49
Alternative 4 .....	53
Alternative 5 .....	57
Implementation Schedule for the Alternatives .....	60
Management Requirements, Constraints, and Mitigation Measures .....	60
Monitoring Plans.....	68

Vegetation Monitoring (Silviculturist) .....	68
Soil Monitoring (Soils Specialist) .....	68
Watershed and Fisheries (District Hydrologist and Fisheries Biologist) .....	68
Grazing (Team) .....	69
Noxious Weed Monitoring and Treatment (Range Conservationist) .....	69
Comparison of Alternatives .....	70
<b>Chapter 3. Existing Condition and Environmental Consequences .....</b>	<b>73</b>
Specialist Reports.....	73
Changes from the Draft to Final EIS for this Chapter .....	73
Past, Present and Foreseeable Activities .....	75
Forest Vegetation & Structure .....	77
Introduction .....	77
Regulatory Framework .....	77
Analysis Methods .....	78
General Existing Condition .....	80
Existing Condition - Living Trees .....	84
Environmental Consequences - Live Trees .....	89
Existing Condition - Shade and Microclimate .....	92
Environmental Consequences - Shade and Microclimate .....	92
Existing Condition - Reforestation of Burned Forestland .....	93
Environmental Consequences - Reforestation of Burned Forestland .....	94
Competing Vegetation.....	98
Animal Damage.....	100
Existing Condition - Future Stand Resiliency .....	101
Environmental Consequences- Future Stand Resiliency .....	102
Existing Condition - Stand Structural Stages .....	105
Environmental Consequences - Stand Structural Stages .....	106
Consistency with Direction and Regulations.....	109
Irreversible and Irretrievable Commitments of Resources .....	110
Terrestrial Wildlife.....	111
Introduction .....	111
Regulatory Framework .....	111
Analysis Method.....	112
Existing Condition - Old-Growth .....	115
Environmental Consequences - Old Growth .....	118
Existing Condition - Big Game Habitat .....	123
Environmental Consequences - Big Game Habitat .....	126
Existing Condition - Primary Excavator Species .....	132
Regulatory Framework for Dead Wood Habitats .....	134
Environmental Consequences - Primary Cavity Excavators .....	143
Existing Condition - Northern Goshawk .....	165
Environmental Consequences - Northern Goshawk .....	166
Existing Condition - Blue Grouse .....	168
Environmental Consequences - Blue Grouse .....	168
Existing Condition - Threatened or Endangered Species – Bald Eagle .....	169
Environmental Consequences - Threatened or Endangered Species – Bald Eagle .....	170
Existing Condition - Threatened or Endangered Species – Gray Wolf .....	170
Environmental Consequences - Threatened or Endangered Species – Gray Wolf.....	170
Existing Condition - Threatened or Endangered Species – Canada Lynx.....	171
Environmental Consequences - Threatened or Endangered Species – Canada Lynx .....	171
Existing Condition - Sensitive Species - Wolverine .....	172

Environmental Consequences - Sensitive Species - Wolverine.....	173
Existing Condition - Sensitive Species - Pacific fisher .....	176
Environmental Consequences- Sensitive Species - Pacific fisher .....	178
Existing Condition - Sensitive Species - Columbia Spotted Frog .....	180
Environmental Consequences - Sensitive Species - Columbia Spotted Frog.....	181
Existing Condition - Landbirds Including Neotropical Migratory Birds (NTMB).....	185
Environmental Consequences - Landbirds Including Neotropical Migratory Birds .....	190
Summary of Landbirds Including Neotropical Migratory Birds .....	194
Consistency with Direction and Regulations.....	194
Irreversible/ Irretrievable Commitments of Resources.....	197
<b>Fish and Water Quality .....</b>	<b>198</b>
Introduction.....	198
Regulatory Framework .....	198
Analysis Methods .....	203
Existing Condition .....	206
Fish Species .....	239
Fire Effects on the Watersheds and Water Quality.....	255
Environmental Consequences-Water Quality .....	256
Environmental Consequences - Water Quantity.....	275
Environmental Consequences - Federally Listed and Sensitive Species .....	282
Consistency with Direction and Regulations.....	286
Irreversible and Irretrievable Commitments of Resources .....	288
<b>Soil .....</b>	<b>289</b>
Introduction.....	289
Regulatory Framework .....	289
Analysis Methods .....	290
Existing Conditions .....	291
Environmental Consequences.....	304
Consistency with Direction and Regulation .....	324
Irreversible/Irretrievable Consequences .....	325
<b>Fuels .....</b>	<b>326</b>
Introduction.....	326
Regulatory Framework .....	328
Analysis Methods .....	330
Existing Condition .....	331
Environmental Consequences.....	337
Public and Fire Fighter Health and Safety.....	346
Air Quality.....	346
Consistency with Direction and Regulations/ Clean Air .....	348
Irreversible and Irretrievable Commitments.....	349
<b>Economics/Social.....</b>	<b>350</b>
Regulatory Framework .....	350
Analysis Method.....	351
Existing Conditions .....	352
Environmental Consequences.....	355
Consistency with Direction and Regulations.....	362
Irreversible and Irretrievable Commitments.....	362
<b>Roads &amp; Access .....</b>	<b>363</b>
Introduction.....	363
Regulatory Framework .....	363
Existing Condition .....	363

Environmental Consequences.....	366
Consistency with Direction and Regulations.....	367
Irreversible and Irretrievable Consequences .....	368
Scenery .....	369
Introduction .....	369
Regulatory Framework .....	369
Existing Condition.....	369
Environmental Consequences.....	370
Consistency with Direction and Regulations.....	371
Irreversible and Irretrievable Commitments.....	371
Rangeland Resources .....	372
Regulatory Framework .....	372
Analysis Methods .....	372
Existing Condition.....	372
Environmental Consequences.....	374
Consistency With Direction and Regulations.....	379
Irreversible and Irretrievable Effects .....	379
Heritage Resources .....	380
Introduction .....	380
Regulatory Framework .....	380
Analysis Methods .....	381
Existing Condition.....	383
Environmental Consequences.....	384
Consistency with Direction and Regulations.....	385
Irreversible/Irretrievable Commitments .....	386
Botanical Resources .....	387
Introduction .....	387
Regulatory Framework .....	387
Analysis Methods .....	387
Existing Condition/ Invasive Species – Noxious Weeds.....	388
Environmental Consequences/ Invasive Species – Noxious Weeds .....	389
Existing Condition/ Culturally Important Plants .....	391
Environmental Consequences/ Culturally Important Plants.....	391
Existing Condition/ Sensitive Plant Species.....	391
Environmental Consequences/ Sensitive Plants .....	392
Determination of Effects for Sensitive Species .....	395
Consistency with Direction and Regulations.....	397
Irreversible and Irretrievable Commitments.....	397
Recreation & Recreation Opportunity Spectrum (ROS).....	398
Introduction .....	398
Regulatory Framework .....	398
Analysis Methods .....	398
Existing Condition.....	398
Environmental Consequences.....	399
Consistency with Direction and Regulations.....	402
Short-term Uses and Long-term Productivity .....	403
Unavoidable/ Irretrievable Consequences.....	404
Irreversible/Irretrievable Commitments of Resources .....	404
Summary of Cumulative Effects .....	404
Other Disclosures .....	407
Issues Relating to the Beschta Report (1995).....	407

Unloaded.....	414
<b>Chapter 4. Consultation and Coordination.....</b>	<b>425</b>
Changes from the Draft to Final EIS .....	425
Preparers and Contributors .....	425
Interdisciplinary Team Members (IDT).....	425
Extended Team Members, Management, or Reviewers .....	426
Contributors .....	427
Federal, State, and Local Agencies:.....	427
Tribes: .....	427
Public Involvement Summary.....	427
Distribution of the Final Environmental Impact Statement.....	428
Individuals .....	428
Organizations, Industry, and Local Agencies .....	429
Oregon State Agencies.....	429
Tribal Contacts.....	429
Federal Agencies .....	430
Federal, State, and Local Officials.....	430

<b>Index .....</b>	<b>462</b>

## List of Tables

Table 1-2: Fire Suppression Lines for the Easy Fire .....	4
Table 2-1: Wildlife Mitigation Measures .....	61
Table 2-2: Summary of Raptor Timing Restriction, Alternatives 2, 3, and 4.....	62
Table 2-3a: Soils Mitigation .....	62
Table 2-3b: Watershed and Fisheries Mitigation.....	64
Table 2-3b: Watershed and Fisheries Mitigation - Continued.....	65
Table 2-4: Range Mitigation.....	66
Table 2-5: Noxious Weeds Mitigation.....	66
Table 2-5: Noxious Weeds Mitigation - Continued.....	67
Table 2-6: Sensitive Plants .....	67
Table 2-7a: Heritage Resources .....	67
Table 2-7b: Public Safety .....	67
Table 2-8: Comparison of Alternatives by Activity .....	70
Table 2-9: Comparison of Alternatives by Issue and Measurement - Continued.....	72
Table FV-1: Percent of Project Area by Potential Vegetation Group and Plant Association Group.....	80
Table FV-2: Burn Severity Acres within Project Area by Plant Association Group.....	81
Table FV-3: Subwatershed (SWS) Acres Burned .....	85
Table FV-4. Planned Reforestation by Year – Alternatives 2, 3, 4 .....	96
Table FV-5. Planned Reforestation by Year – Alternative 5 .....	98
Table FV-6: Historical Range of Variability .....	106
Table FV-7: Stand Structural Stages, Easy Fire Project Area .....	106
Table FV-8 Future Structural Stages for No Action .....	107
Table FV-9 Future Structural Stages for Alternatives 2, 3, 4, and 5 .....	108
Table TW-1: Dedicated and Replacement Old Growth Areas Burned.....	117
Table TW-2: Dedicated and Replacement Old Growth Areas Burned.....	120
Table TW-3: Existing HEI Values, Cover Percentages and Open Road Densities by Subwatershed.....	124

Table TW-4: Open Road Density, Habitat Effectiveness for Open Roads (HEr) and Total HEI (Habitat Effectiveness Index) .....	130
Table TW-5. Post-fire snag densities by density group (Snags/Acre) for Ponderosa Pine/Douglas-fir and Blue Mountain Mixed Conifer wildlife habitat types. ....	138
Table TW-6. Post-fire snag densities by density group (Snags/Acre) for Lodgepole Pine wildlife habitat type. ....	139
Table TW-7. Existing tolerance level for cavity nesting species within the fire area .....	141
Table TW-8. Snag Distribution by Alternative. Wildlife habitat type = Ponderosa Pine/Douglas-fir; Structural condition = larger trees .....	145
Table TW-9. Snag Distribution by Alternative. Wildlife habitat type = Blue Mountain mixed conifer; structural condition = larger trees .....	146
Table TW-10. Snag Distribution by Alternative. Wildlife habitat type = Lodgepole Pine wildlife habitat type (interpolated from DecAID). ....	147
Table TW-11. Black-Backed Woodpecker. – Wildlife tolerance levels .....	148
Table TW-12. Hairy Woodpecker – Wildlife tolerance levels .....	148
Table TW-13. Lewis' Woodpecker – Wildlife tolerance levels.....	148
Table TW-14. Northern Flicker – Wildlife tolerance levels.....	149
Table TW-15. White-Headed Woodpecker – Wildlife tolerance levels.....	149
Table TW-17: History of Large Fires.....	162
Table TW-18: Snag Densities, Cavity Excavator Use, and Snag Retention Areas .....	163
Table WL-19: Open Road Densities .....	174
Table TW-20: Neotropical Migratory Birds – Focal Species found in the Project Area by Habitat Type Including Fire Effects and Resource which Identified Focal Species .....	186
Table TW-21. List of species of BCR 10, Northern Rockies Region, species status as present or absent from the Project Area, and how each species is addressed in this report. ....	187
Table FW-1: PACFISH RHCA buffer widths.....	202
Table FW-2: Ownership Distribution for the Watersheds.....	207
Table FW-3: Stream Miles within Easy Fire Recovery Project Area Boundary by Subwatershed and Stream Category. ....	209
Table FW-4: Burned Acres by Subwatershed. ....	211
Table FW-5: RHCA Acres Burned in Easy Fire Recovery Project Area.....	214
Table FW-6: Burned Stream Channels and Runout Lengths .....	215
Table FW-7: Stream Temperatures .....	216
Table FW-23: Soil Burn Severity in Ephemeral Draws Conditions – Clear Creek Subwatershed (estimated lengths).....	220
Table FW-8: Water Yield Classes .....	221
Table FW-9: Stream Flow for Clear Creek .....	222
Table FW-10: Peak Flow for Bridge Creek.....	223
Table FW-11: Vegetation Burn Severity by Subwatershed .....	224
Table FW-12: Pre- and Post-Fire Created Hydrological Openings by Subwatershed.....	225
Table FW-13: Acres of BAER Burn Severity in the Clear Creek RHCA within the Easy Fire Recovery Project Area.....	226
Table FW-14: Summary of Channel Habitat Conditions in Lunch Creek and Clear Creek.....	230
Table FW-15: Large wood/mile for surveyed streams in Easy Fire Recovery Project area.....	232
Table FW-16: Large wood/mile for Category 2 and 4 streams within the Easy Fire Recovery Project Area. ....	233
Table FW-17: Pools/Mile for surveyed streams in the Easy Fire Recovery Project area.....	235
Table FW-18: Substrate of Surveyed Streams in Easy Fire Recovery Project Area.....	236
Table FW-19: Wolman Pebble Count Data- Clear Creek Survey 2002 .....	238
Table FW-20: Stream bank stability for surveyed streams in Easy Fire Recovery Project area. ....	239

Table FW-21: Distribution and miles of habitat of Federally Listed and Region 6 Sensitive species in the Upper Middle Fork John Day River Watershed and the Upper John Day River Watershed.....	241
Table FW-22: Estimated spawning escapement of spring chinook salmon and steelhead to the John Day Basin.....	242
Table FW – 24: Existing Condition of Subwatershed Road Densities .....	250
Table FW – 25: Future Condition of Subwatershed Road Densities.....	250
Table FW – 26a: Site Conditions for WEPP Analysis Areas .....	257
Table FW – 26b: Sediment Analysis .....	258
Table FW – 26c: Units with High & Moderate BAER Severity Close to Stream Courses .....	259
Table FW-27: Proposed Harvest Acres by Subwatersheds .....	263
Table FW-28: Harvest Acres by Logging Systems .....	263
Table FW-29: Harvest on Various BAER Burn Severities. ....	264
Table FW-30: Mean Flow Distance from Harvest Units to Category 1 Streams. ....	265
Table FW-31: Haul Road Crossings of Streams by Stream Category.....	267
Table FW-32: Haul Road Stream Crossings by Stream Categories and Road Surface Material .....	267
Table FW-33: Haul Road Miles Within RHCAs by Road Surface Material and Stream Category .....	267
Table FW-34: Haul Road Miles within RHCAs by Road Surface Material.....	268
Table FW-35: Pre- and Post-Fire Created Hydrological Openings by Subwatershed*.....	276
Table FW-36: Sensitive Species Biological Evaluation Summary.....	283
Table S-1: Burned Acres by Subwatershed. ....	292
Table S-2: Soil Management Ratings .....	293
Table S-3: Moderate and High Burn Severity Acres by Slope Category and Soil Group .....	294
Table S-4: Water Repellent Soils in Easy Fire Area (figures are in acres):.....	295
Table S-5: Soil Erosion Hazard Rating in Easy Fire Area (figures are in acres):.....	295
Table S-6: Minimum Percent Effective Ground Cover After Management Activities .....	297
Table S-7: Summary of Soil Burn Severity in Ephemeral Draws/ Conditions – Clear Creek Subwatershed (estimated lengths) .....	300
Table S-8: Detrimental Soil Impact Categories .....	304
Table S-9a: Site Conditions for WEPP Analysis Areas.....	310
Table S-9b: Table of Sediment Analysis .....	311
Table S-9c: Units with High & Moderate BAER Severity Close to Stream Courses.....	312
Table S-9d: Harvest Acres by Logging System and BAER Burn Severity .....	316
Table S-10: Tractor Harvest Acres by BAER Burn Severity and Slope Category .....	317
Table S-11: Expected Soil Conditions after Management Activities – Ground Based Activities .....	321
Table S-11: Expected Soil Conditions after Management Activities – Ground Based Activities - Continued.....	322
Table S-12: Threshold Units in Alternatives 2, 3 and 4: Proposed Harvest Units that Approach or Reach the Limit on Percent of Detrimental Soil Impacts .....	322
Table FF-1: Input Elements for FVS Fire Behavior Outputs.....	330
Table FF-2: Grouped Units.....	331
Table FF-3: Past Large Fires .....	331
Table FF-4: Percentage calculations.....	332
Table FF-5: Vegetation Burn Severity (acres).....	333
Table FF-6: Existing Crown Fire Potential Acreages.....	334
Table FF-7: Fire Regimes within affected sub watersheds (acres).....	335
Table FF-8: Current Surface Fuel Model Acres .....	336
Table FF-8b: Surface Fuel Load from Fall Down of Small Diameter Trees – Year 2012 .....	338
Table FF-9: Crown Fire/Surface Fuel Model Summary, 2022.....	338

Table FF-10: Comparison of Alternatives: Fuel Loading and Smoke Emissions .....	344
Table FF-11: Expected Fuel Model/Flame Lengths - 10 years .....	345
Table SE-1: Malheur National Forest Timber Offer by Fiscal Year 1991 to 2002 .....	356
Table SE-2: Present net benefit, present net costs, and present net value. ....	359
Table R-1: Summary of Burned Acres by Unit.....	374
Table H-1: Easy Creek Fire Recovery Area Survey Coverage Design .....	382
Table B-1: Analysis by Alternative .....	389
Table B-2: Threatened, Endangered and Sensitive (TES) Plant Species Considered .....	396
Table UR – 1: Past Timber Sales in Unloaded Area 2.....	416
Table UR – 2: Past Timber Sales in Unloaded Area 3.....	417
Table UR – 3: Past Timber Sales in Unloaded Area 4.....	418

## List of Figures

Figure FV-1: Predicted Structural Stages – 50 years .....	108
Figure FV-2: Predicted Structural Stages – 100 years .....	109
Figure FV-3: Predicted Structural Stages – 150 years .....	109
Figure FW-1 Stream Category by BAER Burn Severity .....	213
Figure FW-2 Slope Range by BAER Burn Severity.....	218
Figure FW-3: Category 2 and 4 Stream Reaches.....	234
Figure FW-4: Clear Creek Reach Breaks & Wolman Pebble Count Sites 2002 .....	237
Figure FW-5: Stream Categories and Roads.....	254
Figure UR-1: Public Identified Unloaded Areas .....	423

## Map Section

The following maps are located at the end of FEIS, Vol.1 in the Map Section

<b>Figure #</b>	<b>Map Title</b>
01	Vicinity Map
02	Project Area Map
03	Subwatersheds, Watersheds , and Land Status
04	Management Areas
05	BAER Severity
06	Vegetation Severity
07	Firelines
08	Forest Type
09	Dedicated and Replacement Old Growth Existing and for Alternatives 2,3,4, and 5
10	Lynx Habitat
11	Soils
12	Armillaria Root Disease Centers
13	Stream Category and Bull Trout Presence
14	Stream Category and Summer Steelhead Presence
15	Stream Category and Redband Trout Presence
16	Stream Category and Spring Chinook Presence
17	Stream Category and Cutthroat Trout Presence
18	Proposed Logging System - Alternative 2
19	Proposed Logging System - Alternative 3
20	Proposed Logging System - Alternative 4
21	Fuel Treatments Alternative 2
22	Fuel Treatments Alternative 3
23	Fuel Treatments Alternative 4
24	Fuel Treatments Alternative 5
25	Predicted Fuel Model at 20 Years
26	303(d) Listed Streams
