Flagtail Fire Recovery Project EIS - Key Acronyms

BAER	Burned Area Emergency Rehabilitation
BMP	Best Management Practices
CEQ	Council on Environmental Quality
CWD	Coarse Woody Debris
DBH	Diameter at Breast Height
DOG	Dedicated Old Growth
EA	Environmental Assessment
EIS (DEIS or FEIS)	Environmental Impact Statement (Draft or Final)
HRV	Historical Range of Variability
IDT	Interdisciplinary Team
INFISH	Inland Native Fish Strategy
MA	Management Area
MIS	Management Indicator Species
MMBF	Million Board Feet
NEPA	National Environmental Policy Act of 1969
NFMA	National Forest Management Act of 1976
NFS	National Forest System
PAG	Plant Association Group
PETS	Proposed, Endangered, Threatened, or Sensitive species
PFA	Goshawk Post-fledgling Area
PVG	Potential Vegetation Group
RHCA	Riparian Habitat Conservation Area
ROG	Replacement Old Growth
ROS	Recreation Opportunity Spectrum
SHPO	State Historic Preservation Office
WEPP	Water Erosion Prediction Project [model]
WQRP	Water Quality Restoration Plan

Appendices

Appendix A – Unit Lists by Alternative

Appendix B – Flagtail Tree Marking Guide

Appendix C – Road Lists—Access Status and Definitions

Appendix D – Wildlife Biological Evaluation for Threatened, Endangered, and Sensitive (TES) Species

Appendix E – Soils

Appendix F – Best Management Practices Applied to the Flagtail Fire Recovery Project

Appendix G – Biological Evaluation for Threatened, Endangered, and Sensitive (TES) Fish Species

Appendix H – Post-Fire Grazing Guidelines

Appendix I – Botany/Weeds and Plant Biological Evaluation for Threatened, Endangered, and Sensitive (TES) Species

Appendix J – Cumulative Effects

Appendix K – Watershed Strategies for FS/EPA/ODEQ Non-Point Source Pollution Strategy, BMP Implementation, and TMDL/WQRP Requirements

Appendix L – Review of Water Quality Restoration Plan (WQRP) Components
