

Index

A	
Air quality	3.5-1, 3.5-2, 3.5-5, 3.5-6, 3.5-9, 3.5-10, 3.10-1
All terrain vehicles	1-12, 1-24, 1-32, 1-19, 1-25
Alternative A theme	2 -12
Alternative B Theme	2 -14
Alternative C theme	2 -17
Alternative D theme	2 -19
Alternative E theme	2 -22
Alternative F theme	2 -25
Alternative G theme	2 -28
Alternatives eliminated	2 -5
Alternatives, developing	2 -3
Alternatives, elements comment to all	2-6, 2-3
American woodcock	3.3.6-22
American woodcock, affected environment	3.3.6-23
American woodcock, analysis area	3.3.6-22
American woodcock, cumulative effects	3.3.6-27
American woodcock, direct and indirect effects	3.3.6-24
American woodcock, general effects common to all alternatives	3.3.6-24
Analysis process (see also Appendix B)	3.1-28
Analysis units, spatial and time scales	3.1-25
Aquatic management indicator habitats,	3.3.3-1
Aquatic management indicator habitats, affected environment	3.3.3-1
Aquatic management indicator habitats, analysis area	3.3.3-1
Aquatic management indicator habitats, cumulative effects	3.3.3-5
Aquatic management indicator habitats, direct and indirect effects	3.3.3-3
Aquatic management indicator habitats, effects common to alternatives	3.3.3-2
Aquatic management indicator habitats, general effects common to all alternatives	3.3.3-2
Available information and use of models (see also Appendix B)	3.1-25
B	
Bald eagle, affected environment	3.3.4-33
Bald eagle, background	3.3.4-33
Bald eagle, cumulative effects	3.3.4-47
Bald eagle, determination of effects	3.3.4-48
Bald eagle, direct and indirect effects	3.3.4-39
Bald eagle, effects common to all alternatives	3.3.4-38
Bald eagle, resource protection methods	3.3.4-37
Biodiversity	1-9, 1-15, 1-17, 1-24, 1-2, 1-6, 1-8, 1-10, 1-11, 1-27, 1-23, 1-16, 1-18
Boundary waters	1-4, 1-10, 1-18, 1-23, 1-24, 1-19
C	
Canada lynx	1-18, 1-19, 1-32, 3.3.4-1
Canada lynx, affected environment	3.3.4-1
Canada lynx, background	3.3.4-1, 3.3.4-10, 3.3.4-14
Canada lynx, cumulative effects	3.3.4-16
Canada lynx, determination of effects	3.3.4-18
Canada lynx, direct and indirect effects	3.3.4-9
Canada lynx, effects common to all alternatives	3.3.4-6
Canada lynx, resource protection methods	3.3.4-5
Changed conditions	1-5, 1-6
Changes between Draft and Final EIS	1-29
Civil rights, effects to	3.10-5

Coarse woody debris-watershed health	3.6-10, 3.6-14, 3.6-34, 3.6-43, 3.6-44, 3.6-45, 3.6-56
Coarse woody debris, riparian	3.6-44, 3.6-56
Community resilience	3.9-1, 3.0-11, 3.9-23
Consumers, effects to	3.10-5
Cooperative planning	1-1, 1-10, 1-13, 1-14
County diversity	3.9-5, 3.9-23, 3.9-24
County revenue via payments to States	3.9-4, 3.9-12, 3.9-13
D	
Decisions to be made	1-1
Desired conditions	1-33
E	
Ecological Land Types (ELTs) or Land Types (LTs)	3.6-2, 3.6-6, 3.6-14, 3.6-24, 3.6-30, 3.6-31, 3.6-32, 3.6-36
Economic and social sustainability and theme of alternatives	2-14, 2-16, 2-19, 2-22, 2-25, 2-27, 2-29
Economic impact area	3.9-1, 3.9-3, 3.9-16
Economic stability of local communities, analysis area	3.9-3
Economic stability of local communities, commercial wood products	3.9-8
Economic stability of local communities, cumulative economic impacts	3.9-1, 3.9-17, 3.9-18
Economic stability of local communities, cumulative effects	3.9-24
Economic stability of local communities, direct and indirect effects	3.9-11, 3.9-17
Economic stability of local communities, effects common to all alternatives	3.9-10
Economic sustainability	1-6, 1-13, 1-15, 1-27
Ecosystem management	1-2, 1-5, 1-6, 1-7, 1-9, 1-10, 1-11, 1-15, 1-16, 1-17, 1-20
Ecosystem management	3.1-21
Employment and income by forest service program area	3.9-1, 3.9-11
Employment and income by major industry	3.9-1, 3.9-16, 3.9-17
Energy requirements	3.10-4

Even-aged management	1-17, 1-19
Even-aged, even-aged with clearcutting, and uneven-aged management	3.4-1
Experimental Forest MA	2-7, 2-10, 2-13, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
F	
Farmland, effects to	3.10-4
Fire and air quality management and social sustainability	3.9-48
Fire and theme of alternatives	2-15, 2-17, 2-20, 2-23, 2-26, 2-28
Fire impacts, soil	3.6-7, 3.6-9, 3.6-14, 3.6-15, 3.6-30, 3.6-35, 3.6-36, 3.6-4, 3.6-31
Fire risk index	3.5-1, 3.5-4, 3.5-7
Fire	1-11, 1-15, 1-21, 1-22, 1-28, 1-32
Fire, affected environment	3.5-3
Fire, analysis area	3.5-2, 3.5-10
Fire, cumulative effects	3.5-2, 3.5-9, 3.5-10
Fire, effects common to all alternatives	3.5-6
Fire, hazard/risk index	3.5-1, 3.5-4, 3.5-7
Fire, use of management-ignited fire for ecological objectives	3.5-1, 3.5-4, 3.5-7, 3.5-8, 3.5-10
Fire, use of management-ignited fire for site preparation	3.5-1, 3.5-5, 3.5-8
Fish management	1-10, 1-11
Forest age	1-16, 1-17, 1-19, 1-20
Forest composition	1-16, 1-17, 1-18, 1-23, 1-31, 1-32, 1-7, 1-9, 1-10, 1-15
Forest health	1-15, 1-16
Forest land, effects to	3.10-4
Forest products, mix of	3.4-16
Forest settings	1-24, 1-6, 1-13
Forest Spatial patterns	1-2, 1-32, 1-15, 1-16, 1-17
Forest vegetation and theme of alternatives	2-14, 2-17, 2-20, 2-23, 2-25, 2-28, 2-8, 2-30, 2-12
Forest vegetation, amount of forest in age groups	3.2-2
Forest vegetation, amount of forest interior habitat	3.2-51, 3.2-64

Forest vegetation, amount of forest types	3.2-2, 3.2-3	Forest vegetation, management treatments of lowland conifers	3.2-31
Forest vegetation, analysis area	3.2-3, 3.2-52, 3.2-77, 3.2-82, 3.2-83	Forest vegetation, size and amount of large mature and older forest patches	3.2-56
Forest vegetation, areas capable of sustaining eastern spruce budworm epidemic	3.2-76, 3.2-79	Forest vegetation, size and amount of large young forest patches	3.2-51
Forest vegetation, Boundary Waters Canoe Area Wilderness	3.2-14, 3.2-39, 3.2-40, 3.2-41, 3.4-45, 3.2-47, 3.2-51, 3.2-52, 3.2-54, 3.2-55, 3.2-59, 3.2-60, 3.2-61, 3.2-63, 3.2-66, 3.2-71, 3.2-74, 3.2-76, 3.2-78, 3.2-79, 3.2-80	Forest vegetation, size, amount, and distribution of old-growth forest	3.2-2, 3.2-14, 3.2-38
Forest vegetation, cumulative effects	3.2-43, 3.2-52, 3.2-71, 3.2-74, 3.2-82, 3.2-83	Forest vegetation, use of management treatments that increase within-stand complexity	3.2-2, 3.2-13
Forest vegetation, definitions	3.2-4, 3.2-14, 3.2-15, 3.2-16, 3.2-19, 3.2-33, 3.2-35, 3.2-36, 3.2-44, 3.2-45, 3.2-57, 3.2-58, 3.2-65, 3.2-69, 3.2-72, 3.2-78	G	
Forest vegetation, disturbance in lowland conifer	3.2-55	General Forest MA	2-7, 2-8, 2-13, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Forest vegetation, ecological unit	3.2-1	Geomorphic effects	3.6-11
Forest vegetation, effects common to all alternatives	3.2-53, 3.2-55	Goals	1-2, 1-4, 1-7
Forest vegetation, forest succession	3.2-3, 3.2-13, 3.2-15, 3.2-16, 3.2-17, 3.2-33, 3.2-34, 3.2-53, 3.2-56, 3.2-61, 3.2-62, 3.2-67, 3.2-76	Gray wolf, affected environment	3.3.4-21
Forest vegetation, land ownership patterns	3.2-55	Gray wolf, background	3.3.4-21
Forest vegetation, landscape ecosystems	3.2-1, 3.2-4, 3.2-5, 3.2-6, 3.2-15, 3.2-16, 3.2-23, 3.2-25, 3.2-27, 3.2-34, 3.2-43, 3.2-47, 3.2-62, 3.2-71, 3.2-74, 3.2-75	Gray wolf, cumulative effects	3.3.4-32
Forest vegetation, management induced edge density	3.2-51, 3.2-68, 3.2-72, 3.2-81	Gray wolf, determination of effects	3.3.4-32
		Gray wolf, direct and indirect effects	3.3.4-24
		Gray wolf, effects common to all alternatives	3.3.4-23
		Gray wolf, resource protection methods	3.3.4-23
		Guidelines	1-4, 1-7, 1-12, 1-30
		H	
		Hazardous materials	3.10-2
		Herbicide application	3.9-52, 3.9-53
		Heritage resource management	3.9-35, 3.9-59
		Heritage resources	3.10-2, 3.10-3, 3.10-6
		Historical Setting	3.1-1
		Hydrologic process, effects	3.6-11
		Hydrologic unit code (HUC)	3.6-1
		I	
		Income and employment	3.10-2
		Indicators, for issues	1-15
		Individual and community social factors	3.10-2
		Insect and disease	3.10-1, 3.10-2
		Inventory of potential wilderness	3.7-1, 3.7-2, 3.7-7, 3.7-8, 3.7-11, 3.7-13
		Irreversible and irretrievable commitment of resources	3.10-3
		Issues	1-13, 1-14, 1-15

Issues not addressed	1-28
L	
Lake Superior Lakewide Management Plan	1-8
Land Type Associations (LTA)	3.6-2, 3.6-6
Laws and Regulations	2-6
Local communities	1-13, 1-20, 1-26, 1-27
Longer Rotation, General Forest MA	2-7, 2-8, , 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
M	
Management outcomes and activities, comparing alternatives	2-31, 2-32
Management-ignited fire	1-21, 1-28, 1-32, 1-33
Management-ignited fire for hazardous fuels reduction	3.5-1, 3.5-5
Mapping system overview	3.6-1
Mechanical treatment impacts, soil	3.6-9, 3.6-24
Minerals	1-29
Minerals management	3.9-49
Minimum Investment MA	2-6, 2-11, , 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Minimum Management Area MA	2-10, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Minnesota forest resources council	1-7, 1-14, 1-22
Minnesota sustainable forest resources act	1-7
Minority groups, effects to	3.10-5
Mix of forest products	1-20
Modeling rules for succession	3.2-56, 3.2-61
Models, use of	3.1-25
Monitoring	1-33, 1-2, 1-4, 1-6, 1-8
Motorized (new) trails for summer use	3.8-42, 3.8-48, 3.8-49
N	
Need for Change	1-5, 1-9, 1-14
Net present value	3.9-1, 3.9-2, 3.9-3, 3.9-11, 3.9-19, 3.9-20
New information	1-5, 1-6, 1-7, 1-8, 1-14
Non-native invasive species,	3.3.7-1
Non-native invasive species, affected environment	3.3.7-3
Non-native invasive species, analysis area	3.3.7-1
Non-native invasive species, cumulative effects	3.3.7-6

Non-native invasive species, direct and indirect effects	3.3.7-5
Non-native invasive species, effects common to all alternatives	3.3.7-4
Non-native invasive species, general effects to all alternatives	3.3.7-5
Non-native invasive species, miles of new maintenance level 1 roads and temporary roads	3.3.7-1
Non-native invasive species, water access	3.3.7-1
Northern goshawk	3.3.6-1
Northern goshawk, affected environment	3.3.6-1
Northern goshawk, cumulative effects	3.3.6-10
Northern goshawk, direct and indirect effects	3.3.6-3
Northern goshawk, effects common to all alternatives	3.3.6-3
Northern Minnesota Drift and Lake Plains Section	3.2-1, 3.2-3, 3.2-4, 3.2-5, 3.2-8, 3.2-9, 3.2-10, 3.2-14, 3.2-16, 3.2-17, 3.2-20, 3.2-22, 3.2-23, 3.2-25, 3.2-27, 3.2-29, 3.2-30, 3.2-43, 3.2-52, 3.2-62, 3.2-71
Northern Superior Uplands Section	3.2-1, 3.2-3, 3.2-6, 3.2-8, 3.2-11, 3.2-12, 3.2-13, 3.2-14, 3.2-16, 3.2-17, 3.2-20, 3.2-22, 3.2-25, 3.2-27, 3.2-29, 3.2-31, 3.2-43, 3.2-47, 3.2-52, 3.2-68, 3.2-71, 3.2-74, 3.2-81
Notice of Intent	1-2, 1-9, 1-13
Nutrient cycling impacts, soil	3.6-6
O	
Objectives	1-2, 1-4, 1-30, 1-33
Old growth	1-16, 1-17
Open land and young forest	3.6-5, 3.6-10, 3.6-34, 3.6-39, 3.6-40
Other species of management concern	3.3.6
P	

Physical and biological setting	3.1-15
Physical and biological setting, terrestrial and aquatic species	3.1-20
Physical and biological setting, topography and soils	3.1-15
Physical and biological setting, vegetation	3.1-20
Physical and biological setting, water	3.1-17
Plans, rights, and interests of others	3.9-46
Potential Candidate Wild, Scenic and recreational river MA	2 -9, 2-6, , 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Potential Research Natural Area MA	2-10, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Potential Research Natural Areas	1-4, 1-23, 1-30, 1-31
Primitive Wilderness MA	2-11, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Pristine Wilderness MA	2-11, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Proposed action	1-2, 1-5
Public demands	1-5, 1-6,
Public involvement	1-9, 1-13, 1-28, 1-29
Purpose and Need	1-5
R	
Range of natural variability	1-6
Range of Natural Variability (RNV)	3.1-22
Rangeland, effects to	3.10-4
RARE II	3.7-1, 3.7-2, 3.7-7
Recreation and theme of alternatives	2-13, 2-15, 2-21, 2-24, 2-29
Recreation and tourism and economic stability of local communities	3.9-6
Recreation impacts, soil	3.6-9, 3.6-15, 3.6-32, 3.6-36, 3.6-37, 3.6-5
Recreation impacts, watershed	3.6-5, 3.6-18
Recreation management and Economic stability of local communities	3.9-1, 3.9-2, 3.9-4, 3.9-6, 3.9-8, 3.9-10, 3.9-19, 3.9-23
Recreation motor vehicles (RMV) demand	3.8-42, 3.8-43, 3.8-44, 3.8-45, 3.8-47, 3.8-49, 3.8-50, 3.8-52
Recreation motor vehicles (RMV) registrations	3.8-44

Recreation motor vehicles (RMV) regulations	3.8-43, 3.8-46, 3.8-55, 3.8-57, 3.9-58, 3.8-60
Recreation opportunities	1-8, 1-13, 1-24
Recreation opportunity spectrum (ROS), analysis area	3.8-2
Recreation opportunity spectrum (ROS), direct and indirect effects	3.8-7, 3.8-8
Recreation opportunity spectrum (ROS), effects common to all alternatives	3.8-6
Recreation opportunity spectrum (ROS), inventory	3.8-1, 3.8-2, 3.8-3, 3.8-7, 3.8-8
Recreation opportunity spectrum (ROS), affected environment	3.8-2
Recreation opportunity spectrum class objectives	3.8-1, 3.8-2, 3.8-5, 3.8-6, 3.8-8, 3.8-9, 3.8-13, 3.8-14, 3.8-46
Recreation resources	1-12
Recreation Use in a Scenic Landscape MA	2-9, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Recreational opportunities	3.10-2
Recreational opportunities and forest settings, affected environment	3.8-2
Recreational opportunities and forest settings, analysis area	3.8-2
Recreational opportunities and forest settings, comparison of alternatives	3.8-8
Recreational opportunities and forest settings, consistency among public land agencies	3.8-43, 3.8-58
Recreational opportunities and forest settings, cumulative effects	3.8-12
Recreational opportunities and forest settings, current recreation use	3.8-3
Recreational opportunities and forest settings, demand	3.8-4, 3.8-12, 3.8-33, 3.8-42, 3.8-43, 3.8-44, 3.8-45, 3.8-47, 3.8-49, 3.8-52, 3.8-65, 3.8-67
Recreational opportunities and forest settings, direct and indirect effects	3.8-7, 3.8-8, 3.8-34, 3.8-48, 3.8-49, 3.8-52, 3.8-55, 3.8-56, 3.8-58, 3.8-61, 3.8-65

Recreational opportunities and forest settings, effects common to all alternatives	3.8-6, 3.8-33, 3.8-45, 3.8-47, 3.8-52, 3.8-56, 3.8-57, 3.8-58, 3.8-63, 3.8-64	Riparian management zones	3.6-43, 3.6-44, 3.6-56
Recreational opportunities and forest settings, resource protection methods	3.8-34, 3.8-45, 3.8-52, 3.8-56, 3.8-63	Riparian, cumulative effects	3.6-34, 3.6-60
Regional Forester sensitive species	3.3.5-1	Riparian, treatment acres	3.6-27, 3.6-28
Regional Forester sensitive species (description)	3.3.5-1	Road and trail impacts, soil	3.6-11, 3.6-25, 3.6-28
Regional Forester sensitive species, affected environment	3.3.5-11	Road impacts, watershed	3.6-3, 3.6-4, 3.6-19, 3.6-15, 3.6-21
Regional Forester sensitive species, cumulative effects	3.3.5-20	Road summary and social sustainability	3.9-43
Regional Forester sensitive species, determination of effect	3.3.5-17	Roadless and potential/proposed wilderness management and social sustainability	3.9-26, 3.9-30, 3.9-54
Regional Forester sensitive species, direct and indirect effects	3.3.5-12	Roads open for recreation motor vehicle (RMV) use	3.8-42, 3.8-45, 3.8-51, 3.8-52
Regional Forester sensitive species, effects common to all alternatives	3.3.5-12	Role of Disturbance in Ecosystems	3.1-22
Regional Forester sensitive species, historical, current and future outcomes for animals	3.3.5-5	Ruffed grouse, affected environment	3.3.6-35
Regional Forester sensitive species, historical, current and future outcomes for plants	3.3.5-8	Ruffed grouse, analysis area	3.3.6-35
Regional income	3.9-6	Ruffed grouse, cumulative effects	3.3.6-40
Regional landscape committees (northeast and north central)	3.9-47	Ruffed grouse, direct and indirect effects	3.3.6-37
Relationship to the plans of others and social sustainability	3.10-5	Rutting, soil	3.6-4, 3.6-12, 3.6-13, 3.6-15, 3.6-25
Research Natural Area (RNA) and social sustainability	3.9-54, 3.9-55	S	
Research Natural Area MA	2-10, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30	Scenery management and social sustainability	3.9-55
Research Natural Areas RNAs	3.7-14	Scenic character of alternatives	3.8-30, 3.8-32, 3.8-33, 3.8-37
Responsible official	1-5	Scenic integrity levels	3.8-30, 3.8-31, 3.8-32, 3.8-34, 3.8-35, 3.8-36
Revenue, values, and costs used in analysis	3.9-2	Scenic quality	1-25
Riparian Emphasis MA	2-10, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30	Scenic quality	3.10-2
Riparian function	3.6-43, 3.6-2	Scenic quality analysis area	3.8-33
Riparian interaction index	3.6-16, 3.6-18	Semi-primitive Motorized and Non-motorized MA	2-9, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Riparian management	1-22, 1-23, 1-30, 1-31, 1-7	Semi-primitive Motorized MA	2-9, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
		Semi-primitive Motorized Wilderness MA	2-11, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
		Semi-primitive Non-motorized MA	2-9, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
		Semi-primitive Non-motorized Wilderness MA	2-11, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
		Shoot blight	3.2-76, 3.2-77, 3.2-80, 3.2-81, 3.2-83

Short-term uses and long-term productivity	3.10-3	Spatial patterns, management indicator habitats	3.3.2-1
Snowmobiles	1-12, 1-32	Spatial patterns, management-induced edge density upland forest & lowland forest	3.3.2-1
Social and economic condition, Chippewa NF	3.1-10	Spatial patterns, size and amount of large forest patches mature/old	3.3.2-2
Social and economic condition, Superior NF	3.1-11	Special designations and theme of alternatives	2-13, 2-15, 2-21, 2-23, 2-26, 2-29
Social and economic setting	3.1-1	Special designations, affected environment	3.7-1, 3.7-14
Social assessments	3.9-3, 3.9-6, 3.9-8, 3.9-27, 3.9-30, 3.9-46	Special designations, analysis area	3.7-1, 3.7-14, 3.7-23, 3.7-24
Social sustainability	1-13, 1-15, 1-26, 1-27	Special designations, cumulative effects	3.7-12, 3.7-13, 3.7-14, 3.7-23, 3.7-24
Social sustainability, affected environment	3.9-28	Special designations, direct and indirect effects	3.7-7, 3.7-16
Social sustainability, analysis area	3.9-27	Special designations, effects common to all alternatives	3.7-7, 3.7-16
Social sustainability, changes in community social factors	3.9-27, 3.9-45	Special interest influences	3.9-56
Social sustainability, changes in forest access	3.9-27, 3.9-42	Special Management Complex (SMC) and social sustainability	3.9-54
Social sustainability, changes in key themes of characteristics of inventoried special places	3.9-26, 3.9-32	Special Management Complexes (SMC) MA	2-10, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30
Social sustainability, changes in traditional and culturally important areas	3.9-26, 3.9-34, 3.9-50	Special uses	1-29
Social sustainability, direct and indirect effects	3.9-32	Standards	1-30, 1-32, 1-4, 1-7, 1-12, 1-17
Social sustainability, effects common to all alternatives	3.9-31, 3.9-32	Stewardship level management	3.6-3, 3.6-6, 3.6-8, 3.6-24
Social sustainability, resource protection methods	3.9-31	Strategic plan 2004	1-8
Socio-economic considerations	1-13	Stream crossing density (roads)	3.6-3, 3.6-6, 3.6-8, 3.6-21
Soil compaction	3.6-12	Stream crossings effects	3.6-11, 3.6-12, 3.6-15
Soil displacement	3.6-9, 3.6-12, 3.6-14, 3.6-25, 3.6-47	Suitable land	1-12, 1-20
Soil erosion	3.6-11, 3.6-12, 3.6-14, 3.6-45	Summary of environmental effects, outcomes and outputs, comparing alternatives	2-31
Soil productivity	3.10-1	T	
Soil, cumulative effects	3.6-34, 3.6-35, 3.6-36, 3.6-37	Terrestrial ecological units, mapping	3.6-11
Spatial patterns, affected environment	3.3.2-2	Terrestrial wildlife management and social sustainability	3.9-51
Spatial patterns, amount of mature/old forest interior habitat	3.3.2-2	Threatened and endangered species	3.3.4-1
Spatial patterns, analysis area	3.3.2-2	Timber and theme of alternatives	2-15, 2-17, 2-20, 2-23, 2-26, 2-28
Spatial patterns, cumulative effects	3.3.2-6	Timber management and social sustainability	3.9-45, 3.9-50, 3.9-54
Spatial patterns, direct and indirect effects	3.3.2-3	Timber resources	1-11, 1-12, 1-16, 1-17, 1-19, 1-20
Spatial patterns, effects common to all alternatives	3.3.2-3		
Spatial patterns, forest Spatial patterns indicators overview	3.3.2-1		

Timber sell volume	3.4-6, 3.4-7, 3.4-8, 3.4-9, 3.4-11, 3.4-12, 3.4-13, 3.4-14
Timber supply	1-21, 1-26, 1-27, 1-29, 1-31
Timber, affected environment	3.4-1, 3.4-8, 3.4-16
Timber, amount of land identified as suitable for timber management	3.4-7, 3.4-10, 3.4-12, 3.4-15
Timber, analysis area	3.4-1, 3.4-7, 3.4-8, 3.4-15
Timber, average annual growth, mortality, and removals	3.4-9, 3.4-10
Timber, cumulative effects	3.4-1, 3.4-6, 3.4-8, 3.4-13, 3.4-21
Timber, definitions	3.4-1, 3.4-7, 3.4-10
Timber, direct and indirect effects	3.4-1, 3.4-3, 3.4-11, 3.4-16
Timber, effects common to all alternatives	3.4-2, 3.4-11
Tribal government to USDA Forest Service government relations	3.9-11, 3.9-28, 3.9-35, 3.9-46, 3.9-47, 3.9-48, 3.9-49, 3.9-52, 3.9-55, 3.9-56, 3.9-57
Tribal Rights and Interests	3.1-12
U	
Unique Biological, Geological, or Historical areas MA	2-10
Urban quality and historic and heritage resources	3.10-6
V	
Vegetation	3.10-1, 3.10-3
Vegetation age, impacts to riparian	3.6-43, 3.6-45, 3.6-52, 3.6-53, 3.6-54, 3.6-55
Vegetation composition, impacts to riparian	3.6-44, 3.6-47
Vegetation management	1-11, 1-21, 1-31
Vegetation management, composition, and health and social sustainability	3.9-49
W	
Water access	1-11, 1-13, 1-24, 1-26
Water access impacts, watershed	3.6-5, 3.6-9
Water access site facility level of development	3.8-61
Water access, affected environment	3.8-62
Water access, analysis area	3.8-61

Water access, cumulative effects	3.8-67
Water access, direct and indirect effects	3.8-65
Water access, effects common to all alternatives	3.8-63
Water access, resource protection methods	3.8-63
Water quality and aquatic communities and theme of alternatives	2-13, 2-15, 2-18, 2-20, 2-23, 2-26, 2-28
Water resources	1-12, 1-13, 1-19, 1-21, 1-22, 1-31
Water resources	3.10-1
Watershed health & Management	1-12, 1-15, 1-21, 1-22, 1-31, 1-32
Watershed health, affected environment	3.6-7
Watershed health, analysis area descriptions	3.6-6
Watershed health, ATV and snowmobile impacts (cross-country), watershed	3.6-5, 3.6-6, 3.6-9, 3.6-15, 3.6-38
Watershed health, ATV and snowmobile impacts (trails), watershed	3.6-5, 3.6-6, 3.6-9, 3.6-15, 3.6-32, 3.6-33, 3.6-37
Watershed health, riparian area management and fish habitat and social sustainability	3.9-48
Watershed, cumulative effects	3.6-5, 3.6-10, 3.6-35, 3.6-40
Watershed, direct and indirect effects	3.6-16, 3.6-47
Watershed, effects common to all alternatives	3.6-10, 3.6-11, 3.6-12, 3.6-15, 3.6-46
Watershed, resource protection methods	3.6-10, 3.6-46
Watersheds, mapping	3.6-1
Wetlands	3.6-27, 3.6-46, 3.6-2, 3.6-10, 3.6-15, 3.6-25, 3.6-45, 3.6-58
White pine	3.3.6-12
White pine, affected environment	3.3.6-16
White pine, analysis area	3.3.6-15
White pine, cumulative effects	3.3.6-21
White pine, direct and indirect effects	3.3.6-18
White pine, general effects common to all alternatives	3.3.6-17
White-tailed deer,	3.3.6-28
White-tailed deer, affected environment	3.3.6-28
White-tailed deer, affects common to all alternatives	3.3.6-29

White-tailed deer, analysis area	3.3.6-28	Wildlife habitat, red and White pine forest habitat acres and % in young and mature/old	3.3.1-12, 3.3.1-25
White-tailed deer, cumulative effects	3.3.6-30	Wildlife habitat, spruce-fir habitat acres and % in young and mature/old	3.3.1-11
White-tailed deer, direct and indirect effects	3.3.6-30	Wildlife habitat, upland conifer forest habitat acres and % in young and mature/old	3.3.1-10
Wild and Scenic River Recommendations	1-28, 1-29	Wildlife habitat, upland deciduous forest habitat acres & % in young & % in young and mature/old	3.3.1-6
Wild, scenic, and recreational rivers and social sustainability	3.9-55	Wildlife habitat, upland forest habitat acres and % young & mature/old	3.3.1-5
Wilderness defined	3.7-1	Wildlife habitat, upland northern hardwood forest habitat acres and % in young and mature/old	3.3.1-8
Wilderness Study Area MA	2-11, 2-16, 2-18, 2-21, 2-24, 2-27, 2-30	Wildlife habitat, upland young and mature/old riparian forest habitat acres and percent	3.3.1-15
Wilderness Study Areas	1-23, 1-30, 1-21	Wildlife impacts from recreation	3.3.8-1
Wildlife	3.10-1, 3.10-5	Wildlife impacts from recreation, analysis area	3.3.8-1
Wildlife and fish	1-17, 1-22, 1-10, 1-11	Wildlife impacts from recreation, cumulative effects	3.3.8-6
Wildlife habitat	1-17, 1-18, 1-19, 1-20, 1-22, 1-23	Wildlife impacts from recreation, effects of additional designated trails	3.3.8-4, 3.3.8-5, 3.3.8-7
Wildlife habitat and theme of alternatives	2-15, 2-17, 2-20, 2-23, 2-26, 2-28, 2-12	Wildlife impacts from recreation, effects of cross country use of ATVs and snowmobiles	3.3.8-5, 3.3.8-6, 3.3.8-7
Wildlife habitat, analysis area for forest type and age (MIH 1-10)	3.3.1-1	Wildlife impacts from recreation, effects of public access from roads	3.3.8-4, 3.3.8-5, 3.3.8-6
Wildlife habitat, aspen-birch forest habitat acres and % in young and mature/old	3.3.1-8	Wildlife impacts from recreation, effects of water access	3.3.8-5, 3.3.8-6, 3.3.8-8
Wildlife habitat, cumulative effects to MIH 1-10	3.3.1-45	Wildlife impacts from recreation, general effects common to all alternatives	3.3.8-1
Wildlife habitat, direct and indirect effects, mature/old forest	3.3.1-31	Women, effects to	3.10-5
Wildlife habitat, direct and indirect effects, young forest	3.3.1-19		
Wildlife habitat, effects common to all alternatives	3.3.1-16		
Wildlife habitat, forest type and age	3.3.1-1		
Wildlife habitat, forest type and age affected environment	3.3.1-5		
Wildlife habitat, forest type and age forest age group (explanation of)	3.3.1-3		
Wildlife habitat, forest type and age forest type (explanation of)	3.3.1-1		
Wildlife habitat, forest Type and age overview of indicators	3.3.1-1		
Wildlife habitat, jack pine forest habitat acres and % in young and mature/old	3.3.1-13		
Wildlife habitat, lowland black spruce-tamarack forest habitat acres and % in young and mature/old	3.3.1-14
