

Appendix J

Alternative 1 (Version 1.1)

Distribution of National Forest Acres by Management Prescription and T&E Opportunity Areas

Management Prescription/OA	Rounded Acres
Dolly Sods North (unassigned)	4500
2.0, Uneven-aged (shade tolerant)	14000
3.0, Large trees for forest products	137000
4.0, Softwood/motorized	400
5.0, Wilderness	79000
6.1, Remote habitat/mix of forest products	285000
6.2, Semi-primitive, Non-motorized recreation	127000
6.3, Indiana bat (IBAT) primary range	133000
7.0, High density developed recreation	1000
8.0, Special areas, excluding T&E species OA	12000
832, WV northern flying squirrel suitable habitat	112000
837, Virginia big-eared bat (VBEB) habitat	20
837-838, VBEB habitat that overlaps with IBAT	30
838, IBAT habitat (key areas)	2500

Legend

(areas shown are National Forest lands)

- Town limits
- Major highways
- Proclamation boundary
- Management Prescription/Opportunity Areas**
- Dolly Sods North (unassigned)
- 2.0, Uneven-aged (shade tolerant)
- 3.0, Large trees for forest products
- 4.0, Softwood/Motorized
- 5.0, Wilderness
- 6.1, Remote habitat/mix of forest products
- 6.2, Semi-primitive, non-motorized recreation
- 6.3, Indiana bat (IBAT) primary range
- 7.0, High density developed recreation
- 8.0, Special areas, excluding T&E species OA
- 832, WV northern flying squirrel suitable habitat

Suitable WVNFS Habitat:

This map represents all existing, verified capture sites of WV northern flying squirrel (WVNFS) locations and a representation of suitable habitat at the programmatic level. As new locations or populations are discovered and validated, additional information is obtained and reviewed by the Monongahela National Forest, U.S. Fish and Wildlife Service and WV Division of Natural Resources at the watershed and project level, this map will be updated (Appendix H, p. 234).

The following opportunity areas are too small to be visible at this map scale, please see the acres listed in the table:

- 837, Virginia big-eared bat (VBEB) habitat (area within 200 feet of cave entrances)
- 837-838, VBEB habitat (area within 200 feet of cave entrances)
- 838, IBAT key area habitat

Original data was compiled from multiple source data and may not meet the U.S. National Mapping Accuracy Standard of the Office of Management and Budget. This map has no warranty as to its contents or accuracy.
