p.'s IV 5.3-8	p.'s IV 5.3-8 cross out page IV 5.3-8 but keep IV 5.3-7	1

Digest:

The following page descriptions pertain to the sections of this amendment regarding standards and guidelines for the management of motorized use on Crooked, Devil's Head, and Big Bateau Lakes within the Sylvania Wilderness.

p IV 5.3-8

Page IV 5.3-8 was replaced to provide management standards and guidelines for motorized use on Crooked, Devil's Head, and Big Bateau Lakes within the Sylvania Wilderness.

Cultural Resources	Survey the entire wilderness for evidence of cultural resources. High impact areas and lakeshores will be first priority.
Search and Rescue	Develop a Search and Rescue plan for Sylvania detailing the conditions for the use of special equipment and resources.
Dogs and Other Domestic Pets	Dogs and other domestic animals must be on a 6 foot or shorter leash at all times, and must not be left unattended or otherwise out of control, (i.e. , barking).
Noise	Minimize or eliminate noise generated by Forest Service activities or facilities, both inside and outside of the wilderness. Seek noise reduction on a cooperative basis with adjacent landowners.
Washing and Bathing	Prohibit the use of soaps or other cleaning agents (when bathing, washing dishes, etc.) within 150 feet of any lake, pond, or wetland area. Facilities with running water and showers are provided in the Perimeter Area.
Over Flights	Recommend that aircraft be limited to 2,000 feet above the ground or higher. Submit recommendation to Federal Aviation Agency (FAA) for placement on aviation maps. Cooperate with local airports and Military to minimize conflicts over Sylvania airspace.
Cans, Bottles, and Styrofoam	Containers of fuel, insect repellent, medicines, personal toilet articles, and other items that are not foods or beverages are the only cans and bottles allowed in wilderness. Nonburnable disposable food and beverage containers are not allowed. Returnable beverage bottles are not permitted even though a deposit is charged. Only reuseable (those purchased empty and/or designed for reuse) containers, will be permitted. Promote pack-in/pack-out policy for all other items used by recreationists.
Motorized Use on Crooked, Devils Head, and Big Bateau Lakes	Beginning April 1, 1996, only electric motors with a maximum size of 24 volts or 48 pounds of thrust (4 horsepower equivalent) or less will be permitted on Big Bateau, Crooked, and Devil's Head Lakes within the Sylvania Wilderness. All watercraft on these lakes are restricted to a slow no-wake speed.
Watercraft	Prohibit storage or mooring on National Forest System Land of watercraft motors or other equipment not being used in connection with a current visit. Prohibit mooring, use, or transportation of aircraft, amphibious craft of any type, or watercraft designed for or used as floating living quarters on National Forest System land or on lakes within the wilderness.
