

**Powers High School Aquarium
Powers Ranger District
Siskiyou National Forest
USDA Forest Service, Pacific Northwest Region**

Objective/Purpose of Project: Provide Powers High School with a living laboratory consisting of native salmonids. Educate students with salmon identification, life histories and morphology.

Methods or Techniques Used: The Forest Service helped purchase a large aquarium to be used in the 9th - 12th grade science classroom.

Realized/Expected results: Help students become aware of life cycles and identification of local native fishes. Expect greater knowledge on preservation and restoration.

Contact Person and telephone number: Max Yager 541-439-6250

Agreement Type(s): Challenge Cost Share

Primary Partner List: Oregon Dept. of Fish and Wildlife , Coquille River S.T.E.P. , Coos River S.T.E.P. , Bay Area Sportsman Association B.A.S.A. , Coquille Watershed Association
