**Federal Identifier:** WAEC-01-006  
**Grant Name:** Seafood Business and Marketing Plan

**Project Start Date:** 09/30/2001  
**Project End Date:** 12/31/2002

**Applicant:** Quinault Indian Nation  
**Contact:** Michael Pence, 360-289-0414

**FS Award:** \$20,000  
**Leveraged Funds:** \$157,063  
**Total Project Funding:** \$177,063

**Description:**

Funding is for a comprehensive business and marketing plan that will identify available resources such as river and ocean harvests and people involved in river and ocean fisheries, identify current associated costs to process seafood products including new or remodeled plant facilities and availability of suitable equipment, and explore markets for fresh and processed seafood and potential expansion of charter and guide fishing opportunities. This project will provide a plan to increase the local infrastructure to harvest seafood more efficiently and increase profitability while maintaining or increasing employment opportunities for the community.

**Grant Name:** Lake Quinault Spirit Award

**Project Start Date:** 10/15/1996  
**Project End Date:** 10/15/1997

**Applicant:** Grays Harbor County  
**Contact:** Bob Paylor, 360-249-3731

**FS Award:** \$5,000  
**Leveraged Funds:** \$1,000  
**Total Project Funding:** \$6,000

**Description:**

This project will provide for construction of two Gateway/Entry-portal monuments and associated directional signing for the Quinault Rain Forest Loop Drive. It will also provide for the planning, design, and location for two information/interpretive kiosks that will be located on the Highway 101 approaches to the Quinault Rain Forest. These information kiosks and directional signing will help provide improved information on area services and recreation opportunities. It is anticipated that this will help promote the local area and the tourism industry. This project will also provide a means to continue to build on the working partnership between local leadership, the Quinault Indian Nation, and several government agencies.

**Project Start Date:** 12/18/2000  
**Project End Date:** 12/31/2002

**Applicant:** Grays Harbor Economic Development Council  
**Contact:** Michael Tracy, 360-532-7888

**FS Award:** \$33,423  
**Leveraged Funds:** \$14,700  
**Total Project Funding:** \$48,123

**Description:**

Funding for this grant will help to develop a master plan for the 45 acres of industrial property (IDD1) in Hoquiam, Washington. The plan will include a target industry marketing study, environmental evaluations, site development costs, final analysis, and completed written plan. The comprehensive master plan is necessary for future development of the site. Grays Harbor County is very limited in the quantity and quality of developable industrial land. Many of the currently zoned industrial properties are bordered by or have within their boundaries, wetlands. This project seeks to remedy these conditions by developing a master plan to determine the highest and best use for the property and create a ready to build site for the creation of new jobs. Hoquiam still has one of the highest unemployment rates in the state averaging over 10%.

**Federal Identifier:** WANW-95-015  
**Grant Name:** Friends Landing Recreation Sit

**Project Start Date:** 08/04/1995  
**Project End Date:** 08/01/1996

**Applicant:** Columbia Pacific RC&D  
**Contact:** Diane Ellison, 360-533-4648

**FS Award:** \$103,428  
**Leveraged Funds:** \$448,747  
**Total Project Funding:** \$552,175

**Description:**

Funds will be used to construct a recreational infrastructure in central Grays Harbor County. The facility will be open to all but is targeted for individuals with disabilities. The project is located on 152 acres with riverfront access and a 32-acre lake. Accessible facilities include: a pier, boat launch, two fishing enclosures, picnic shelter, asphalt trail, boardwalk, four lake fishing piers and lake beach. The Forest Service funding will construct an interpretive trail with boardwalk across wetlands, provide partial funding for an information kiosk and provide funding of the proportional share of the program audit. As a result of construction of these recreational facilities, tourism is expected to increase. This is Phase II of the project. Planned Phase III, which cannot be completed until Phase II is finished, includes the addition of an RV park. Once completed, the project will create up to 5 new direct jobs at the site along with an unknown amount of indirect service sector jobs in the Elma area. The project is a showcase for the Grays Harbor Area and will enable people with disabilities to fully experience the outdoors.

**Federal Identifier:** WANW-96-013  
**Grant Name:** Neilton Water System

**Project Start Date:** 03/15/1996  
**Project End Date:** 07/31/1998

**Applicant:** Grays Harbor County  
**Contact:** Bob Paylor, 360-249-3731

**FS Award:** \$36,500  
**Leveraged Funds:** \$20,000  
**Total Project Funding:** \$56,500

**Description:**

The comprehensive plan will survey and evaluate the two existing water systems and provide an engineering feasibility study to address long range needs of the Neilton community. This plan will provide the means to upgrade the water supply and delivery system to meet EPA standards and provide safe drinking water for the community. Neilton has been severely impacted by the loss of the timber industry and this plan will help provide for economic diversity by allowing for residential and light industrial expansion as identified in the 1994 Lake Quinault Economic Vitality Plan.

**Federal Identifier:** WANW-96-031  
**Grant Name:** Industrial Water Line  
**Applicant:** Grays Harbor Economic Development Council  
**Contact:** Tami L. Garrow, 360-532-7888

**Project Start Date:** 08/01/1996  
**Project End Date:** 09/30/1998  
**FS Award:** \$70,000  
**Leveraged Funds:** \$64,400  
**Total Project Funding:** \$134,400

**Description:**

Conduct an inspection and condition assessment of the industrial water line and prepare an engineering report. Identify the best long term ownership, O&M program for the line. Determine the feasibility of extending the line across the Hoquiam River to serve additional industrial property. Seek funding on behalf of the entity(ies) who will own and manage the line for the actual construction repair and possible extension of the line. This project will also include the analysis of the domestic water supply in the area and it will determine which of the small satellite water systems could be combined into a regional system. The line currently supports 1,000 basic manufacturing jobs in Grays Harbor County. The long-term viability of the industrial water line and related jobs are in serious jeopardy. This project is the vehicle by which the cities of Hoquiam, Aberdeen, Cosmopolis, the Grays Harbor Port District and unincorporated areas will form an Infrastructure Task Force to find solutions to this as well as several other infrastructure problems facing the harbor.

**Project Start Date:** 08/01/1997  
**Project End Date:** 07/30/1998

**Applicant:** Columbia-Pacific Development Council  
**Contact:** Jim Lowery, 360-942-3629

**FS Award:** \$100,000  
**Leveraged Funds:** \$100,000  
**Total Project Funding:** \$200,000

**Description:**

This project will provide for the construction of overnight camping facilities as part of phase III at the Friends Landing accessible recreation site. Facilities will consist of 18 RV hookups, 24 tent sites, access road, parking spurs, tables, stoves, and restrooms with showers. Friend's Landing will be the only public camping facility on the Chehalis River. The facility is currently a recreation hub for the Grays Harbor region and provides a full range of accessible recreation opportunities. The facility will attract significant numbers of tourists traveling through Grays Harbor county and this will help strengthen the economies of the nearby local communities. Overnight camping facilities will generate an estimated \$60,000 annually. This will provide a paid year-round caretaker and several seasonal jobs.

**Project Start Date:** 08/01/1998

**Project End Date:** 12/01/2000

**Applicant:** City of Westport

**Contact:** Fred Chapman, Jr., 360-268-0835

**FS Award:** \$170,000

**Leveraged Funds:** \$50,000

**Total Project Funding:** \$220,000

**Description:**

This project will provide the engineering and facility design for the repair and expansion of the existing Westport Water System in the South Wellfield area. It will consist of the site survey, detailed facility design, water rights applications, and the development of a wellhead protection program. The City of Westport's economic base heavily depends on tourism and seafood processing, both of which require a reliable and high quality water supply. This project will upgrade the existing water system to assure an adequate water source and supply to the area residents and business and provide for future residential and business growth in the South Beach area.

**USDA Forest Service  
Washington Grants Awarded by State and Private Forestry  
Pacific Northwest Region, Cooperative Programs  
1994-2004**

**County: Grays Harbor**

---

**Federal Identifier:** WANW-98-042  
**Grant Name:** Lake Quinault Land Use Plan

**Project Start Date:** 07/01/1998  
**Project End Date:** 12/31/2000

**Applicant:** Grays Harbor County  
**Contact:** Dick Dixon, 360-249-3731

**FS Award:** \$16,800  
**Leveraged Funds:** \$17,178  
**Total Project Funding:** \$33,978

**Description:**

This project will help the Lake Quinault community to identify needs and produce a sub-area zoning plan with subsequent development regulations. As a result of this project, future land use in the Lake Quinault community will be more predictable and this will provide a more stable climate for economic diversification and small business development.

**Federal Identifier:** WANW-99-017  
**Grant Name:** Wastewater Facility Plan

**Project Start Date:** 06/15/1999  
**Project End Date:** 12/31/2001

**Applicant:** City of McCleary  
**Contact:** Brian Shay, 360-495-3200

**FS Award:** \$50,000  
**Leveraged Funds:** \$98,157  
**Total Project Funding:** \$148,157

**Description:**

This project will help to achieve compliance with the NPDES permit deadline and DOE's order to complete a Wastewater Treatment Facility Report by June 30, 2000. DOE placed this mandate upon the City because in the last several years the City has had what DOE calls 'chronic violations' or NPDES permit. These violations have occurred because the Treatment Plant has reached flow capacity and exceeded limits for dissolved oxygen, fecal coliform, biochemical oxygen demand, total suspended solids, and ammonia. The City discharges into Wildcat Creek, a small salmon stream. The completed Wastewater Facility Plan, will identify all possible wastewater treatment options that will put the City back in compliance with DOE which will allow the City to locate new industrial customers wanting to locate in the McCleary Industrial Zone. The Plan will also provide for commercial and residential growth over the next 20 years.

**Federal Identifier:** WARD-95-001  
**Grant Name:** Chehalis Tribal Chinook Proj.

**Project Start Date:** 09/07/1995  
**Project End Date:** 11/07/1996

**Applicant:** Confederated Tribes of the Chehalis  
**Contact:** Melvin Youckton, 360-273-5911

**FS Award:** \$8,866  
**Leveraged Funds:** \$11,904  
**Total Project Funding:** \$20,770

**Description:**

This grant of \$13,150 will help the Confederated Tribes of Chehalis supplement wild Chinook salmon runs in the Chehalis River. Supplementation of wild Chinook salmon populations will strengthen Tribal, sport, and commercial salmon fishing enterprises.

**Federal Identifier:** WNFP-01-016  
**Grant Name:** Quinault Fuel Reduction Project

**Project Start Date:** 09/19/2001  
**Project End Date:** 12/31/2004

**Applicant:** Quinault Indian Nation  
**Contact:** Pearl Capoeman-Baller, 360-276-8211

**FS Award:** \$50,000  
**Leveraged Funds:** \$18,359  
**Total Project Funding:** \$68,359

**Description:**

Funding is for demonstrating the feasibility of converting tree waste and slash accumulations from logging operations on the reservation into fuel for biomass power plants. In addition, the project will complete a feasibility study on establishing a biomass energy plant on the reservation. This project should reduce fuel loads and fire risk in reservation forests adjacent
