Oregon Grants Awarded by State and Private Forestry  
Pacific Northwest Region, Cooperative Programs  
1994-2004**

**County: Baker**

**Federal Identifier:** ONFP-02-002  
**Grant Name:** Pine and Eagle Valley Interface Education

**Project Start Date:** 07/01/2002  
**Project End Date:** 12/31/2005

**Applicant:** United Community Partners  
**Contact:** Mike Higgins, 541-742-6241

**FS Award:** \$26,540  
**Leveraged Funds:** \$14,070  
**Total Project Funding:** \$40,610

**Description:**

Funding for this project will assess and treat fuels on private land in Pine and Eagle Valley in eastern Baker County. The private lands are interspersed with federally managed land. The project will provide landowner education through a series of workshops and meetings. Local contractors who have received training from a cooperative program presented by OSU Extension and ODF will complete the assessment and evaluation of private lands. The communities located in Pine and Eagle Valleys will benefit from a fire defensible interface and improved quality of life.

**Federal Identifier:** OREC-00-012  
**Grant Name:** Richland Water System Study

**Project Start Date:** 09/01/2000  
**Project End Date:** 12/31/2003

**Applicant:** City of Richland  
**Contact:** Fred Riggs, 541-893-6141

**FS Award:** \$20,000  
**Leveraged Funds:** \$12,697  
**Total Project Funding:** \$32,697

**Description:**

This project is to assist the City of Richland to pay the costs of remaining tests and engineering services necessary to evaluate the options outlined by the Oregon Health Division to come into compliance with the Surface Water Treatment Rule. The completed project will help the city decide the best option for compliance with the Surface Water Treatment Rule. The funding, with OECDD funding, allows the city to complete the testing and study without indebtedness at this time.

Wallowa-Whitman

**Federal Identifier:** OREC-02-001  
**Grant Name:** Granite Peaks Assisted Living Facility

**Project Start Date:** 10/01/2002  
**Project End Date:** 12/31/2003

**Applicant:** Pine Eagle Economic Development Corp  
**Contact:** Bill Shields, 541-742-6241

**FS Award:** \$24,000  
**Leveraged Funds:** \$6,000  
**Total Project Funding:** \$30,000

**Description:**

The grant funds made available to the Pine Eagle Economic Development Corporation will help complete project components needed to strengthen their position to secure future capital funding. The community will benefit from providing supported care for their aging residents and bolstering the local economy by providing 16 livable wage jobs.

**Federal Identifier:** OREC-03-002  
**Grant Name:** Granite Peaks Assisted Living Facility Final Plans  
**Applicant:** Pine Eagle Economic Development Corporation  
**Contact:** Bill Shields, 541-742-6030

**Project Start Date:** 05/01/2003  
**Project End Date:** 12/31/2004

**FS Award:** \$25,000  
**Leveraged Funds:** \$6,250  
**Total Project Funding:** \$31,250

**Description:**

The land has been acquired, preliminary plans and specifications are complete, and a loan application for construction funding has been submitted to USDA - RUS for Granite Peaks Assisted Living Facility. This grant will fill the gap in funding needed to complete final engineering plans and specifications for the facility. Completion of the final plans and specifications is the last piece required to access USDA - RUS loan funds for construction of the facility. The assisted living facility, located in Halfway, but serving an expanded community area, will provide an attractive home for an average of 31 seniors wishing to age in place and those choosing to relocate closer to families in the area. The project meets two important community needs: retaining an important community asset - our aging residents - by providing supported care; and bolstering the local economy by creating 13 livable wage jobs.

**Federal Identifier:** OREC-04-001  
**Grant Name:** Rebuild the Historic Bank of Sumpter Vault  
**Applicant:** City of Sumpter  
**Contact:** Jack Colton, 541-894-2314

**Project Start Date:** 07/15/2003  
**Project End Date:** 12/31/2005

**FS Award:** \$12,500  
**Leveraged Funds:** \$3,500  
**Total Project Funding:** \$16,000

**Description:**

The bank vault restoration is an investment in the history of the City of Sumpter. It is the hope of the City that rebuilding the vault will encourage other property owners to consider the historic aspect of Sumpter when building and planning for the future. The renovation of the historic Bank of Sumpter VAULT will provide a focal point for community renovation projects related to the history of the community. The rebuilt bank vault will become the focus of a future memorial park and over time, bring people to the center of town.

**Grant Name:** Water System Storage Repair

**Project Start Date:** 07/30/2004  
**Project End Date:** 12/30/2005

**Applicant:** City of Unity  
**Contact:** Diane Bettin, 541-446-3639

**FS Award:** \$15,000  
**Leveraged Funds:** \$5,000  
**Total Project Funding:** \$20,000

**Description:**

This project will provide needed repairs to the City of Unity water storage tank. A recent inspection of the water system indicated the system needed to replace and repair several of the controls for efficient operation of the water system. The community lacks an adequate water system and has recently completed a feasibility study to determine options for increasing their water supply. The repairs to the storage tank will provide much needed maintenance and ensure the city has water for the summer.

**Grant Name:** Revitalization Master Plan

**Project Start Date:** 06/01/1998  
**Project End Date:** 12/31/2000

**Applicant:** City of Monroe  
**Contact:** Luane Waytenick, 541-847-5176

**FS Award:** \$25,000  
**Leveraged Funds:** \$6,464  
**Total Project Funding:** \$31,464

**Description:**

Funding is for a community revitalization master plan including 1) design concepts and standards for commercial areas including parking and other city-owned property, 2) create walking tours and locate potential natural and historic resources, 3) design streetscapes, 4) design city park landscaping and recreational use layout. We hope this project will help guide numerous downtown enhancement efforts, resulting in  
1) increased use of skills, knowledge, and abilities of local people; 2) improved community initiative, responsibility, and adaptability; 3) strengthened relationships and communication;  
4) sustainable, healthy ecosystems with multiple community benefits, and 5) appropriately diverse and healthy economies. The community will gain skills in consensus building, meeting facilitation, process management as well as attract community-wide participants as well as diverse segments of the populations. The working relationship between the City and South Benton Community Enhancement and assorted community members will be strengthened during the planning/visioning process. The recreation/ecosystem health issues around the Long Tom River will be developed in the planning process with the assistance of the local watershed council. This plan will lead to development of diverse businesses in Monroe as well as potential retention and expansion of existing commercial businesses.

**Total Project Funding:** \$22,982

**Description:**

This grant will fund the site design and planning for a 40 space RV park and adjacent Marina at the site of a previous lumber mill. Additionally, it will cover development of a fee structure and any required permits. This will help to develop unused industrial/commercial areas. Expanding the infrastructure within these facilities will attract more tourism and tourism dollars, as well as provide services and jobs to locals.

**Federal Identifier:** ORNW-01-016  
**Grant Name:** Lewis & Clark Encampment Interpretive Plan

**Project Start Date:** 07/23/2001  
**Project End Date:** 12/31/2002

**Applicant:** Columbia County  
**Contact:** Anthony Hyde, 503-397-7202

**FS Award:** \$20,172  
**Leveraged Funds:** \$9,975  
**Total Project Funding:** \$30,147

**Description:**

These funds will cover the collection & database development about both current and historical plants and animals on Sauvie and Sand Islands in St. Helens; an assessment of the feasibility of importing indigenous species no longer present; an interpretive plan for the trails; and a design & engineering plan for the physical components of the interpretive plan including the kiosks, panels, signs, decks, sculpture placement, benches, etc. Project will support efforts to launch the Lewis and Clark Encampment as a tourist destination for the observance of the Lewis and Clark Bicentennial. An estimated five million visitors are expected to pass through the Lewis and Clark interest points all along the L & C Trail from year 2001-2006. Local existing and new businesses in St. Helens will benefit from the tourism attracted to the Encampment, youth will gain skills, experience, and knowledge about natural resources and history from their involvement in creating and maintaining trails and as tour guides. The community will take pride in reconnecting with their history and showcasing their rich heritage. The County expects the Lewis and Clark Encampment to continue being an attraction for tourists beyond the Bicentennial and to play a significant role in efforts to diversify and revitalize the local economy.

**Grant Name:** Millsite Environmental Evaluation Redevelopment

**Project Start Date:** 10/01/2002  
**Project End Date:** 12/31/2003

**Applicant:** Port of St. Helens  
**Contact:** Peter Williamson, 503-397-2888

**FS Award:** \$18,850  
**Leveraged Funds:** \$11,662  
**Total Project Funding:** \$30,512

**Description:**

Funding for this project will be used to complete a level-one evaluation of a 180,000 SF former plywood mill site. Soil and water samples will be examined, a determination of contamination will be made, and if contamination exists, supporting data will be provided to recover ponds for use as additional lay-down area for existing and new tenants. This project will ensure that any contamination is addressed and thus ensure good water quality in the area. This project would also support existing tenants in their ability to expand their manufacturing facility and create 20 more jobs for the community.

**Federal Identifier:** ORNW-01-011  
**Grant Name:** Sewer System I & I Correction Plan

**Project Start Date:** 08/01/2001  
**Project End Date:** 12/31/2003

**Applicant:** City of Port Orford  
**Contact:** Gary Doran, 541-332-3691

**FS Award:** \$22,700  
**Leveraged Funds:** \$16,984  
**Total Project Funding:** \$39,684

**Description:**

The I & I Evaluation consists of four components: Smoke Testing, Flow Mapping, Video Inspection and a Capital Improvement Plan. The Inflow and Infiltration that comes into the sewer system causes the plant to run at more than the system's capacity in the winter months. This puts the system in a dangerous position of an overflow that would go directly into Garrison Lake. Garrison Lake is the city's back-up drinking water source and a wetland area for wildlife. In addition to the water quality issues, DEQ will allow the city to connect 5 new hook ups to the sewer once the I & I study is complete. This would mean 5 new housing starts, a significant number in a town of 1100 people. The new hook ups would take place immediately since there is a list of folks waiting to hook up. After the I & I plan is implemented the DEQ will allow another 10 new hook ups.

**Federal Identifier:** ONFP-01-003  
**Grant Name:** Community & Economic Dev.Hazard Fuels Linkage Proj

**Project Start Date:** 07/16/2001  
**Project End Date:** 12/31/2002

**Applicant:** Central Oregon Intergovernmental Council  
**Contact:** Ric Ingham, 541-548-9540

**FS Award:** \$106,350  
**Leveraged Funds:** \$40,196  
**Total Project Funding:** \$146,546

**Description:**

Communication and outreach with interested and affected stakeholders in determining solutions for sustainable hazardous fuel reductions and research of potential market linkages based on best local, regional, and international practices. Short term outcomes include the development of improved working relationships between interested and affected stakeholders, improved quality of planning implementation of fuels treatment projects and increased emphasis on utilization of fuels treatment byproducts. Long term outcomes include an increase in the number of acres of hazardous fuels treated, resulting in decreased risk of catastrophic wildfire, strengthened linkages between local economic activity and hazardous fuels reduction, and retention of forest products industry infrastructure and jobs.

**Federal Identifier:** ONFP-01-004  
**Grant Name:** Biomass Feasibility Study/Business Plan

**Project Start Date:** 07/16/2001  
**Project End Date:** 12/31/2002

**Applicant:** Central Oregon Intergovernmental Council  
**Contact:** Richard Mackay, 541-548-9522

**FS Award:** \$31,000  
**Leveraged Funds:** \$8,301  
**Total Project Funding:** \$39,301

**Description:**

Prineville Energy LLC is upgrading a 6MW former sawmill co-gen plant to run on natural gas. This grant will investigate whether there is sufficient biomass and other raw material to economically supplement natural gas, and complete a feasibility study to determine biomass availability, resource assessment, risk assessment, and outreach (including other sources available, e.g. dumped tires.) The feasibility study will also detail permit process and environmental regulations. A business plan will be completed and will include project purpose, scope, sources and economics. The plan will build in components of the feasibility study, with the outcome of a document that can be used by Prineville Energy to secure project funding. The business Plan may simply draw all relevant information together and state that the project is not feasible. All information collected and presented in the feasibility study and business plan will be available to the public. A facility that utilizes biomass or other locally available raw material, such as recycled tires, will create and retain forest products jobs, maintain forest products infrastructure so that opportunities to add value to small logs and other fuels treatment byproducts can be pursued, and reduce hazardous fuels on 10,000 to 20,000 acres per year in Central Oregon. Project has potential to create over 100 higher-wage jobs.

**Grant Name:** Dry Forest Mechanized Fuels Treatment Trials  
**Applicant:** Central Oregon Intergovernmental Council  
**Contact:** Ric Ingham, 541-548-9540

**Project Start Date:** 07/16/2001  
**Project End Date:** 12/31/2002  
**FS Award:** \$161,000  
**Leveraged Funds:** \$86,770  
**Total Project Funding:** \$247,770

**Description:**

Project will organize and coordinate realistic mechanized fuels treatment trials in four locations in OR, WA, and ID. Results will be synthesized and disseminated to government agencies, potential local contractors, and other interested groups and communities. A public/private Steering Committee will guide the project. Benefits include reduced environmental impacts, decreased treatment costs, increased acres treated, local forest products industry job retention and creation, and more informed discourse about mechanized fuels treatment impacts and capabilities. Results will be professionally recorded, interpreted, summarized for local and regional media and newsletters, posted on web sites, published in professional journals, and presented to professional meetings and conferences, such as Smallwood 2002, where many communities will be represented.

**Federal Identifier:** ONFP-01-020  
**Grant Name:** Defensible Space in an Urban Interface Management  
**Applicant:** Deschutes Board of County Commissioners  
**Contact:** Dennis Luke, 541-388-6568

**Project Start Date:** 09/01/2001  
**Project End Date:** 12/31/2004  
**FS Award:** \$50,000  
**Leveraged Funds:** \$21,398  
**Total Project Funding:** \$71,398

**Description:**

Funding is for developing a model "defensible space" management plan for a new neighborhood in Deschutes County. The plan will include standards for ongoing vegetation management; recommended plant species; planting specifications to maintain defensible spaces around homes; locations for shaded fuel breaks; and estimated costs for implementation and maintenance of standards. We hope this project enables developers to know the standards they must follow to create a fire-safe neighborhood by building fire prevention and mitigation elements into the neighborhood comprehensive plan. In addition, we hope this neighborhood will serve as a model for other subdivisions to follow in order for them to preserve the natural character of their surroundings while providing a fire-safe environment.

**Federal Identifier:** ONFP-02-003  
**Grant Name:** Home Landscapes Interpretive Garden

**Project Start Date:** 10/01/2002  
**Project End Date:** 12/31/2003

**Applicant:** La Pine Community Action Team  
**Contact:** Toby Wilson, 5415363972

**FS Award:** \$14,600  
**Leveraged Funds:** \$6,700  
**Total Project Funding:** \$21,300

**Description:**

This project will fund a contract with a landscape architect to work with the La Pine park and Recreation District, La Pine Library, OSU Master Gardener's Program, La Pine High School Forestry class, La Pine Garden Club, and the La Pine fire District to design an interpretive garden and signage. After the design is completed, fire resistant plants and trees will be purchased to fill the garden area. The community will benefit by public education about the importance of protecting homes located near or adjacent to forest lands with a fire resistant landscape. By providing homeowners with an aesthetically pleasing model, they will be more likely to consider using fire resistant foliage around their homes.

**Federal Identifier:** ONFP-04-003  
**Grant Name:** COPWRR Phase III

**Project Start Date:** 06/14/2004  
**Project End Date:** 12/31/2005

**Applicant:** Central Oregon Intergovernmental Council  
**Contact:** Tom Moore, 541-548-9523

**FS Award:** \$62,842  
**Leveraged Funds:** \$18,000  
**Total Project Funding:** \$80,842

**Description:**

The grantee will engage in product(s) development and market research leading to the initiation or expansion of small diameter biomass utilization in Central Oregon. Specific products are the delivery of multi-party monitoring report and delivery of product development and market research products to targeted 'early adopter' businesses. Increased forest health and decreased risk of catastrophic wildfire through increased hazardous fuel treatments in Central Oregon will result from the increased use of biomass material. Central Oregon will also benefit from improved air quality through reduced reliance on prescribed burning and increased community participation and engagement, including multi-party monitoring activities.

**Federal Identifier:** ONFP-04-005  
**Grant Name:** Fuel Reduction in Shevlin Park

**Project Start Date:** 07/01/2004  
**Project End Date:** 07/01/2005

**Applicant:** Bend Metro Park and Recreation District  
**Contact:** Don Horton, 541-389-7275

**FS Award:** \$32,600  
**Leveraged Funds:** \$12,165  
**Total Project Funding:** \$44,765

**Description:**

Funding for this project will reduce fuels on approximately 30 acres in Shevlin Park, a nature park on the west side of Bend, Oregon. Plans for fuels reduction include using Oregon State Department of Corrections inmate crews to thin brush, juniper and young ponderosa pine. Project will cover costs of inmate crew to cut, pile, and burn smaller fuels. Larger material will be hauled out for firewood. Project will reduce the risk of wildfire spreading through the park and/or onto adjacent private and USDA Forest Service lands. The Awbrey Hall Fire, which started in Shevlin Park, burned about 3,000 acres and destroyed nearly 30 homes. Indirect benefits from implementing the Shevlin Park Management Plan are that the community will have a safer, healthier, more fire resistant forest on its outskirts. Tourism is the number one industry in Bend. Not only do local citizens enjoy the area, but thousands of visitors as well. This well-managed forest sets an example for the community to learn from.

**Federal Identifier:** OREC-03-004  
**Grant Name:** Sister Couplet Refinement Plan

**Project Start Date:** 09/01/2003  
**Project End Date:** 12/31/2004

**Applicant:** City of Sisters  
**Contact:** M. David Elliott, 541-549-6022

**FS Award:** \$30,000  
**Leveraged Funds:** \$22,000  
**Total Project Funding:** \$52,000

**Description:**

Project will hire a consultant to provide technical assistance in preparing a Refinement Plan for the Sister couplet (a complementary pair of one-way streets used to expand capacity and relieve traffic congestion). Completion of the Plan will achieve readiness for ODOT to proceed with construction. Project outcomes include: complete a public planning process that considers public and stakeholder opinion; recommends a best alignment; and identifies environmental concerns and mitigation measures. Sisters is economically dependent on travelers coming to the area to enjoy public lands recreation opportunities. Traffic congestion plays a significant role in traveler decisions to stop in Sisters or keep passing through. The couplet will reduce congestion, making the city more accessible to travelers while retaining parking for the many specialty shops that line the downtown area.

**Project End Date:** 12/31/2003

**Applicant:** Community Action Team of Sisters  
**Contact:** Robert Grooney, 5415499841

**FS Award:** \$7,500  
**Leveraged Funds:** \$20,487  
**Total Project Funding:** \$27,987

**Description:**

Funds will enable the grantee to purchase a portable community center in the form of a tent. Tent will be made available for the community at large to rent for cultural events, fundraising events, sports events, community get-togethers, learning and trade fairs. Charge for rent will be reasonable, but must cover costs of sustainability. The community is highly dependent on tourism, hosting a large number of tourists seasonally. The tent will give the community a way to accommodate large groups during the colder seasons, increasing the economic health of the community.

**USDA Forest Service  
Oregon Grants Awarded by State and Private Forestry  
Pacific Northwest Region, Cooperative Programs  
1994-2004**

**County: Douglas**

**Federal Identifier:** OREC-03-020  
**Grant Name:** Heartwood ReSources Training

**Project Start Date:** 06/15/2003  
**Project End Date:** 12/31/2005

**Applicant:** Umpqua Community Development Corporation  
**Contact:** Michael Beach, 541-673-4909

**FS Award:** \$25,000  
**Leveraged Funds:** \$126,877  
**Total Project Funding:** \$151,877

**Description:**

This project will support on-the-job training for deconstruction and weatherization services that will be provided to low-income residents in Douglas County. This project will develop sustainable economic resources for Douglas county by reducing the need to support low-income workers as well as reducing annual waste in the County landfill.

Umpqua

**Federal Identifier:** OREC-04-006  
**Grant Name:** Wastewater Treatment Facilities Plan

**Project Start Date:** 07/01/2004  
**Project End Date:** 12/31/2005

**Applicant:** City of Glendale  
**Contact:** Larry Andrew, 541-832-2106

**FS Award:** \$25,000  
**Leveraged Funds:** \$25,000  
**Total Project Funding:** \$50,000

**Description:**

Funding for this project will help to fund development of a facilities plan for wastewater treatment in Glendale. The plan will include cost estimates for needed upgrades and renovations to the wastewater facility to meet requirements from DEQ and Oregon Safe Drinking Water. The facility plan for wastewater treatment will assist the City of Glendale in their pursuit to acquire funding to upgrade the existing wastewater facility.

Umpqua

**Federal Identifier:** OREC-94-014  
**Grant Name:** Waste water system study

**Project Start Date:** 06/01/1994  
**Project End Date:** 01/15/1996

**Applicant:** City of Yoncalla  
**Contact:** Kathleen Finley, 503-849-2152

**FS Award:** \$21,740  
**Leveraged Funds:** \$10,000  
**Total Project Funding:** \$31,740

**Description:**

Funding from this grant would pay for preliminary engineering feasibility analysis for wastewater system for Rice Hill and Yoncalla. The study would help the community move toward compliance with the Department of Environmental Quality and maintain or improve capacity for wastewater treatment in the area.

Umpqua

**Federal Identifier:** OREC-94-031  
**Grant Name:** Old Town Revitalization

**Project Start Date:** 08/01/1994  
**Project End Date:** 08/01/1996

**Applicant:** City of Reedsport  
**Contact:** Nolan Young, 503-271-3603

**FS Award:** \$100,000  
**Leveraged Funds:** \$211,000  
**Total Project Funding:** \$311,000

**Description:**

Funding would be to implement construction of the Old Town Reedsport revitalization project improvements including street and sidewalk work, curb work and vegetation plantings. Funding would also be used for project assistance from the Oregon Downtown Development Association. This Project would help create new business opportunities by improving the retail market and encouraging more tourism. Overall objectives would be to help create and maintain jobs in the area.

**USDA Forest Service  
Oregon Grants Awarded by State and Private Forestry  
Pacific Northwest Region, Cooperative Programs  
1994-2004**

**County: Douglas**

**Federal Identifier:** OREC-94-040  
**Grant Name:** Shared Manufacturing Facility

**Project Start Date:** 09/01/1994  
**Project End Date:** 12/31/1997

**Applicant:** City of Myrtle Creek  
**Contact:** Leroy Blodgett, 503-863-3171

**FS Award:** \$245,616  
**Leveraged Funds:** \$227,000  
**Total Project Funding:** \$472,616

**Description:**

Funds are for the acquisition, renovation, and start-up costs for a shared manufacturing facility. It also includes educational and marketing support. Development of the shared manufacturing facilities with educational/marketing support would provide start-up opportunities for new local companies. This would help diversify the local timber

Umpqua

**Federal Identifier:** OREC-94-047  
**Grant Name:** Community Action Plan Update

**Project Start Date:** 10/01/1994  
**Project End Date:** 04/30/1996

**Applicant:** City of Yoncalla  
**Contact:** Robert Lee, 503-849-2152

**FS Award:** \$9,300  
**Leveraged Funds:** \$3,900  
**Total Project Funding:** \$13,200

**Description:**

Funds are for updating the North County Economic Development Strategic Plan for the Communities of Drain, Elkton, and Yoncalla. Updating the plan would help diversify the local economies by promoting cooperative efforts throughout the entire North Douglas County Area.

Umpqua

**Federal Identifier:** OREC-94-048  
**Grant Name:** Drainage Plan/Sewer District

**Project Start Date:** 10/01/1994  
**Project End Date:** 09/30/1996

**Applicant:** City of Yoncalla  
**Contact:** Robert Lee, 503-849-2152

**FS Award:** \$27,802  
**Leveraged Funds:** \$36,400  
**Total Project Funding:** \$64,202

**Description:**

Funding will support the completion of a topographic survey and drainage plan for the Yoncalla-Rice Hill area and to provide technical assistance in order to form the Rice Hill Sewer District. Completion of these projects will enable the local communities to secure other funding sources for a sewer system.

Umpqua

**Federal Identifier:** OREC-94-049  
**Grant Name:** Community Park Development

**Project Start Date:** 10/01/1994  
**Project End Date:** 11/30/1995

**Applicant:** City of Drain  
**Contact:** Margrette Burruss, 503-836-2417

**FS Award:** \$20,000  
**Leveraged Funds:** \$11,020  
**Total Project Funding:** \$31,020

**Description:**

Funding is for improvements to the Drain City Park including restrooms. Park improvements will attract more visitors to the area which should help diversify the local economy.

Umpqua

**USDA Forest Service  
Oregon Grants Awarded by State and Private Forestry  
Pacific Northwest Region, Cooperative Programs  
1994-2004**

**County: Douglas**

**Federal Identifier:** OREC-94-051  
**Grant Name:** Community Action Plan

**Project Start Date:** 09/01/1994  
**Project End Date:** 09/30/1996

**Applicant:** City of Oakland  
**Contact:** Betty Tamm, 503-459-4531

**FS Award:** \$19,964  
**Leveraged Funds:** \$5,457  
**Total Project Funding:** \$25,421

**Description:**

Funding is for completion of a Community Action Plan and for initial plan implementation activities. Development of a community action plan would help diversify the local timber dependent economies.

Umpqua

**Federal Identifier:** OREC-94-063  
**Grant Name:** Salmon Harbor Develop Study

**Project Start Date:** 10/01/1994  
**Project End Date:** 04/30/1997

**Applicant:** Douglas County  
**Contact:** Joyce Morgan, 503-440-4201

**FS Award:** \$35,000  
**Leveraged Funds:** \$30,000  
**Total Project Funding:** \$65,000

**Description:**

Funding is for the completion of the Salmon Harbor Development Study which includes a tourism assessment, infrastructure assessment, and preliminary engineering reports. Completion of the study would help move the local area towards diversifying its economy.

Umpqua

**Federal Identifier:** ORNW-00-001  
**Grant Name:** Sutherlin Wetland/Riparian Inventory Project

**Project Start Date:** 04/10/2000  
**Project End Date:** 02/28/2002

**Applicant:** CCD Business Development Corporation  
**Contact:** Wayne Luzier, 541-672-6728

**FS Award:** \$17,790  
**Leveraged Funds:** \$68,700  
**Total Project Funding:** \$86,490

**Description:**

Funding will be used to conduct local wetland inventory, including wetlands inventory and assessment, riparian area inventory, habitat analysis, and associated public involvement and notification. This project will enhance local job creation opportunities and helps conserve wetland and riparian area resources.

Umpqua

**Federal Identifier:** ORNW-00-008  
**Grant Name:** Used Building Materials Business Plan

**Project Start Date:** 06/01/2000  
**Project End Date:** 09/30/2001

**Applicant:** Umpqua Community Development Corporation  
**Contact:** Mickey Beach, 541-673-4909

**FS Award:** \$10,000  
**Leveraged Funds:** \$21,310  
**Total Project Funding:** \$31,310

**Description:**

Funding for this project will be used to develop a business/marketing plan for a retail used building materials supply center, sufficient for board decision and shopping for capital. If the Community Development Corporation decides to enter this business, as a result of this project, a successful supply center will 1) reduce demand on the county's landfill; 2) create jobs in this niche; and 3) allow the CDC to become more self-sustaining.

**Project Start Date:** 08/01/2000  
**Project End Date:** 07/31/2002  
**FS Award:** \$20,240  
**Leveraged Funds:** \$5,060  
**Total Project Funding:** \$25,300

**Description:**

This grant funds the preliminary design & engineering of a water treatment plant for the irrigation of wetlands and uplands. The design includes piping across the Umpqua River, a tie-in to existing irrigation piping, and spreading irrigation options on the site. If constructed, it will increase stream flows and release high-quality water into South Umpqua and Looking

Umpqua

**Federal Identifier:** ORNW-00-022  
**Grant Name:** Lighthouse Master Plan  
**Applicant:** Douglas County  
**Contact:** Michael Winters, 541-440-4201

**Project Start Date:** 08/01/2000  
**Project End Date:** 09/30/2002  
**FS Award:** \$20,000  
**Leveraged Funds:** \$0  
**Total Project Funding:** \$20,000

**Description:**

This project will develop a master plan for the Umpqua River Lighthouse and Coast Guard Museum in the Reedsport/Winchester Bay Area. This plan will clarify realistic next steps for development of the museum; ultimately increasing tourism and revenue generation.

Umpqua

**Federal Identifier:** ORNW-00-023  
**Grant Name:** Wastewater Plan Update & Stormwater Facility Plan  
**Applicant:** City of Reedsport  
**Contact:** Jefferson McIlvenna, 541-271-3603

**Project Start Date:** 08/01/2000  
**Project End Date:** 09/30/2002  
**FS Award:** \$50,000  
**Leveraged Funds:** \$50,000  
**Total Project Funding:** \$100,000

**Description:**

This grant will fund the Wastewater Plan Update and a Stormwater Facility Plan for the City of Reedsport. This project supports infrastructure facility improvements for this timber dependant community. Water quality improvements will result once wastewater facility improvements are completed in area-improvements to Siuslaw River Estuary.

Umpqua

**USDA Forest Service

**Project Start Date:** 08/15/2001  
**Project End Date:** 12/31/2004  
**FS Award:** \$19,200  
**Leveraged Funds:** \$5,800  
**Total Project Funding:** \$25,000

**Description:**

Umpqua

**Federal Identifier:** ORNW-01-023  
**Grant Name:** Drain Wastewater I/I Study  
**Applicant:** City of Drain  
**Contact:** Carl Patenode, 541-836-2417

**Project Start Date:** 08/15/2001  
**Project End Date:** 10/31/2003  
**FS Award:** \$15,498  
**Leveraged Funds:** \$24,500  
**Total Project Funding:** \$39,998

**Description:**

A complete inflow and infiltration evaluation including flow mapping, video, inspection, smoke testing, and resulting in a capital improvement plan. Provides recommendations for improvements needed for cost effective inflow and infiltration reduction.

Umpqua

**Federal Identifier:** ORNW-02-018  
**Grant Name:** Facility Plan/Wastewater Treatment  
**Applicant:** City of Riddle  
**Contact:** William Duckett, 541-874-2035

**Project Start Date:** 10/01/2002  
**Project End Date:** 12/31/2004  
**FS Award:** \$35,000  
**Leveraged Funds:** \$40,000  
**Total Project Funding:** \$75,000

**Description:**

Funding for this project will develop a facilities plan for wastewater treatment. The plan will include cost estimates for the appropriate sewage treatment facility to meet all current and anticipated wastewater treatment requirements for the city of Riddle. The Facility Plan for Wastewater Treatment will assist Riddle in their pursuit to acquire funding for improvements or a new wastewater treatment facility in Riddle. Major renovations or complete replacement of the plant is necessary in order to adequately treat the sewage for the city and avoid contaminating or causing major pollution problems in Cow Creek.

**USDA Forest Service  
Oregon Grants Awarded by State and Private Forestry  
Pacific Northwest Region, Cooperative Programs  
1994-2004**

**County: Douglas**

**Federal Identifier:** ORNW-02-038  
**Grant Name:** Stormwater Modeling Study

**Project Start Date:** 10/01/2002  
**Project End Date:** 12/31/2004

**Applicant:** City of Sutherlin  
**Contact:** Joe Mongiovi, 541-459-2856

**FS Award:** \$50,000  
**Leveraged Funds:** \$38,950  
**Total Project Funding:** \$88,950

**Description:**

The Sutherlin Area Stormwater Modeling Study will use existing and collected data to calculate and map the projected 100-year flood elevation within the Sutherlin Industrial Park, as well as other industrial and commercial areas of the City. These results will be used by the City and the Sutherlin Water Control District to improve land development and stormwater facilities management decisions. The results of the Study will be used by the City of Sutherlin and the Sutherlin Water Control District to improve land development and stormwater facilities management decisions. The Study will also help the City and property owners to plan for future industrial development based on flood risk.

Umpqua

**Federal Identifier:** ORNW-02-041  
**Grant Name:** Pathways to Discovery-Exploring Tidewater Country

**Project Start Date:** 10/01/2002  
**Project End Date:** 12/31/2003

**Applicant:** Umpqua Discovery Center Treasure Chest, Inc.  
**Contact:** Tracie DuVal, 541-271-4816

**FS Award:** \$50,000  
**Leveraged Funds:** \$15,000  
**Total Project Funding:** \$65,000

**Description:**

Funding is for the final design, construction drawings, and construction specifications for an interactive exhibit series that will interpret the natural history of the Oregon Coast and Lower Umpqua region. This grant to the Center will complete the permanent exhibits, bring in travelling exhibits, and expand educational opportunities. By making the Umpqua Discovery Center a premier educational treasure on the Oregon Coast, tourism and economic development for the Umpqua area should be enhanced. Creation of a vibrant local tourism industry will help diversify the natural resource dependent economy.

Umpqua

**Federal Identifier:** ORNW-95-002  
**Grant Name:** Community Center

**Project Start Date:** 12/27/1994  
**Project End Date:** 03/31/1996

**Applicant:** City of Elkton  
**Contact:** Alfred Tyson, 503-584-2547

**FS Award:** \$70,000  
**Leveraged Funds:** \$27,000  
**Total Project Funding:** \$97,000

**Description:**

Funding is for the purchase and remodeling of a multi-purpose community center. The building would provide the community of Elkton a place where many local functions can be held. This would help build capacity for planning and community development activities.

Funding is for the completion of county strategic planning for the communities of Gilliam County. The project support strategic planning efforts for natural resource dependent communities and economic diversification efforts.

Ochoco

**Federal Identifier:** OREC-98-005  
**Grant Name:** Downtown Streetscape Plan

**Project Start Date:** 08/15/1998  
**Project End Date:** 12/15/2000

**Applicant:** City of Condon  
**Contact:** Melanie Wise, 541-384-2711

**FS Award:** \$10,000  
**Leveraged Funds:** \$5,550  
**Total Project Funding:** \$15,550

**Description:**

Funding from this grant is to complete a streetscape plan for downtown Condon. The plan will include financial feasibility for implementing design and improvements. This project supports a priority project from the community strategic plan - downtown business re-development.

Ochoco

**Federal Identifier:** ORNW-01-026  
**Grant Name:** EMS Feasibility Study

**Project Start Date:** 09/01/2001  
**Project End Date:** 12/31/2004

**Applicant:** City of Condon  
**Contact:** Timothy Layton, 541-384-2711

**FS Award:** \$24,800  
**Leveraged Funds:** \$6,200  
**Total Project Funding:** \$31,000

**Description:**

Technical assistance to develop a detailed feasibility study report on the following objectives:(1) Written evaluation and documentation of potential sites for an emergency services building including information on the development of a new site or the renovation of an existing site; (2) Preliminary budget for the construction of an emergency services building including site preparation costs (3) Written documentation of environmental issues, economic feasibility, zoning, hazards, flood plain issues and ADA accessibility (4) documentation of potential funding sources for construction/renovation of facility and (5) preliminary engineering design for emergency services building. Currently, the South Gilliam County Fire Protection District and the Condon Fire Department are served by the same Volunteer Fire Chief and Volunteer Firefighters. Equipment and vehicles are shared. Neither entity has adequate space for vehicles, training, communications, command center and meeting rooms. The area is at risk from structural and wildfires. This project would provide for hiring a consultant to provide technical assistance to develop a plan for an ESD building. Improved fire services would benefit the entire community with increased fire protection, reduced insurance rates and increased incentives for business.

1994-2004**

**County: Hood River**

---

**Federal Identifier:** ORCG-00-001  
**Grant Name:** Port of Hood River Beach Facilities

**Project Start Date:** 09/30/2000  
**Project End Date:** 12/31/2001

**Applicant:** Port of Hood River  
**Contact:** Nancy Moller, 541-386-1645

**FS Award:** \$269,500  
**Leveraged Funds:** \$75,500  
**Total Project Funding:** \$345,000

**Description:**

Federal assistance earmarked in the FY 2000 Interior Appropriations Bill will be used to design and construct two restrooms on the Port of Hood River waterfront. The waterfront area has been developed for extensive recreation use for windsurfing and swimming. Funding will obtain the necessary design and engineering in order to construct two restrooms at two different locations on the Port of Hood River waterfront. In addition to funding for the necessary engineering, funds will also be used during the construction portion of the project. River access in the Columbia River Gorge National Scenic Area is extremely limited. Railroads, roadways, and private land restricts access to the Columbia River. The Port of Hood River over the years has invested much time and money into developing their valuable waterfront landholdings to provide public access for water recreation. The "Event Site" and "Marina Park" are river access sites on the Port waterfront property which is among the most intensely used areas in the Columbia River Gorge. Enhancing the sites with resrooms will provide necessary infrastructure for visitors and park users, including spectators who view competitive windsurfing events staged during the summer. These facilities will also address any and all water quality concerns with human waste disposal.

Columbia River

---

**Federal Identifier:** OREC-03-001  
**Grant Name:** South Bank Design and Engineering Plan

**Project Start Date:** 05/01/2003  
**Project End Date:** 12/31/2005

**Applicant:** City of Cascade Locks  
**Contact:** Ralph Hesgard, 541-374-8484

**FS Award:** \$50,000  
**Leveraged Funds:** \$12,500  
**Total Project Funding:** \$62,500

**Description:**

Grant funding will assist the City of Cascade locks with completing design and engineering plans for Phase I of powerline relocation and burial. The plans will include 1)initial survey and environmental reports; 2) develop staking sheets for removal and relocation; 3) develop complete materials list; 4) complete construction drawings; 5) design bridge conduit attachments; and 6) coordinate with rate payers for required outages. A feasibility study determined it would be possible to underground the existing 18-mile stretch (known as South Bank) of powerline, eliminating costly and recurring maintenance.

**Federal Identifier:** OREC-03-006  
**Grant Name:** Wastewater Facilities Plan, Including Environmenta

**Project Start Date:** 06/01/2003  
**Project End Date:** 12/31/2004

**Applicant:** Odell Sanitary District  
**Contact:** Mark Beam, 541-354-1138

**FS Award:** \$30,000  
**Leveraged Funds:** \$52,585  
**Total Project Funding:** \$82,585

**Description:**

The District will produce a Wastewater Facilities Plan, including the necessary environmental and pre-design report elements, all prepared in full compliance with Oregon DEQ standards. The Odell Sanitary District is currently operating their wastewater collection and treatment facilities under the terms of a Mutual Agreement and Order (MAO) they have negotiated with Oregon DEQ. This MAO was developed because of possible temperature and toxicity impacts from discharges from the District's wastewater treatment plant into Odell Creek. Odell Creek is tributary to Hood River, which is an important recreational and anadromous fishery resource.

**Federal Identifier:** ORNW-00-038  
**Grant Name:** Southbank Undergrounding Design & Engineering

**Project Start Date:** 08/15/2000  
**Project End Date:** 12/31/2001

**Applicant:** City of Cascade Locks  
**Contact:** Rogers Wheatley, 541-374-8484

**FS Award:** \$30,000  
**Leveraged Funds:** \$9,500  
**Total Project Funding:** \$39,500

**Description:**

Grant assistance will provide the City of Cascade Locks with funds to contract professional services to conduct preliminary design and engineering to underground 18-miles of utility lines that run west from Cascade Locks to Bridal Veil, Oregon.

The City of Cascade Locks has operated their own municipal electric utility since the 1930's. In the 1950's the City expanded its electricity service to include the "southbank" area that runs 18-miles west of Cascade Locks to Bridal Veil. This 18-mile area poses a high maintenance challenge and hardship to the City and ratepayers. High Gorge winds, downed trees, landslides, ice storms, and limited access have all contributed to constant and expensive maintenance costs to the City. In addition, residential and commercial demand has substantially decreased during the past several years, largely due to National Scenic Area restrictions, limiting revenues. To deal with high maintenance costs, loss of use, and increasing rates, the City believes that it's prudent to consider undergrounding the system, therefore stabilizing maintenance costs, reducing rates, providing reliable service, and enhancing scenic and aesthetic values in the area, especially along the HCRH.

**Federal Identifier:** ORNW-01-009  
**Grant Name:** Port Marina Park Access

**Project Start Date:** 07/16/2001  
**Project End Date:** 12/31/2004

**Applicant:** Port of Cascade Locks  
**Contact:** Chuck Daughtry, 541-374-8619

**FS Award:** \$30,000  
**Leveraged Funds:** \$7,500  
**Total Project Funding:** \$37,500

**Description:**

Grant will assist the Port with preliminary design and design engineering for pedestrian and vehicular access to the Port's Marina Park. The Port will procure professional design and engineering services to complete a review of the best method to improve access, provide estimated development costs, and the best procedures to solve the problem. Marina Park, where the Port has their business offices and tour boat operations (Columbia Gorge Sternwheeler), is separated from the downtown business district and Cascade Locks community by the Union Pacific Railroad under-crossing. The narrow under-crossing is a barrier to safe passage by pedestrians and vehicles; currently, many tour busses by-pass the Park. Future improvements will provide increased economic benefit to the community business district as well as the Marina Park.

---

**Federal Identifier:** ORNW-98-019  
**Grant Name:** Overlook Project

**Project Start Date:** 06/15/1998  
**Project End Date:** 12/31/1999

**Applicant:** City of Cascade Locks  
**Contact:** Mike Bridges, 541-374-8484

**FS Award:** \$50,000  
**Leveraged Funds:** \$15,000  
**Total Project Funding:** \$65,000

**Description:**

Grant funding will assist the City of Cascade Locks in the construction of an "overlook plaza" in the downtown core area. This development will fulfill goals that were identified in the City's Downtown Street Design Plan. Overlook is designed to replicate an abstract image of a sternwheeler and afford visitors rare views up and down the Columbia River Gorge. Future phases of project include walking trails to Port Marina. The overlook plaza will help to improve the City's appearance so that prospective new businesses will have a favorable first impression of the City as a place to do business. This is one of several strategies to diversify local economy.

**Federal Identifier:** ORNW-00-040  
**Grant Name:** Jackson Creek Watershed Action Plan  
**Applicant:** Rogue Valley Council of Governments  
**Contact:** Michael Cavallaro, 541-664-6674

**Project Start Date:** 09/01/2000  
**Project End Date:** 12/31/2001

**FS Award:** \$17,000  
**Leveraged Funds:** \$81,143  
**Total Project Funding:** \$98,143

**Description:**

This project will provide a watershed assessment of the Jackson Creek watershed in accordance with the State of Oregon's Watershed Enhancement Manual. An action plan identifying prioritized restoration projects within the watershed will be generated utilizing a public outreach strategy to engage local stakeholders. Jackson Creek is a tributary to Bear Creek and runs through the communities of both Jacksonville and Central Point. Both of these communities, as well as the rural areas that separate them are experiencing explosive growth. Jackson Creek is both an anadromous fish bearing stream as well as being identified as water quality limited.

Rogue River

**Federal Identifier:** ORNW-01-013  
**Grant Name:** Gold Hill Wastewater Master Plan  
**Applicant:** City of Gold Hill  
**Contact:** Scott Eilefson, 541-855-1525

**Project Start Date:** 08/01/2001  
**Project End Date:** 12/15/2002

**FS Award:** \$25,000  
**Leveraged Funds:** \$63,865  
**Total Project Funding:** \$88,865

**Description:**

Complete a detailed Wastewater Master Plan that will address: future system capacity needs, Oregon Dept. of Environmental Quality requirements, and provide cost estimates of alternatives. Detailed within the plan will be a preferred option, proposed implementation plan, environmental and land-use analysis, cost estimates for design, construction, and operation of the system, and identifying funding sources for implementation. City Council will be consulted at various checkpoints of the project, and DEQ approval of the plan will be required prior to closure of the project. Current collection and treatment facilities are failing, frequently causing property damage, health risks, and water quality issues on the Rogue River. The discharge permit for the facility has expired, and the system will not comply with proposed new permit standards. Water quality impacts to the Rogue River from the current system are most serious during the low flows of the summer months, which also coincide with peak recreational visitor use as well as the upstream migration of the listed Coho.

Rogue River

**USDA Forest Service  
Oregon Grants Awarded by State and Private Forestry  
Pacific Northwest Region, Cooperative Programs  
1994-2004**

**County: Jefferson**

**Federal Identifier:** ONFP-01-002  
**Grant Name:** Camp Sherman-Metolious Basin Community Fire Plan

**Project Start Date:** 06/07/2001  
**Project End Date:** 12/21/2002

**Applicant:** Sister-Camp Sherman Rural Fire Protection Dist  
**Contact:** Don Rowe, 541-549-0771

**FS Award:** \$15,000  
**Leveraged Funds:** \$8,937  
**Total Project Funding:** \$23,937

**Description:**

Camp Sherman/Metolious Basin community is an unincorporated area completely surrounded by national forest lands. Nearly every structure within the basin is located within the forest-urban interface, including the fire station and local school. Fire concerns are heightened by the large number of seasonal homeowners and recreationists who use the area and are not as familiar with the area fire concerns as the few permanent homeowners. Funding will allow the fire district to employ a full-time seasonal firefighter technician to provide prevention-education patrol in the Camp Sherman/Metolious Basin. The technician will patrol the residential, summer home and national forest campground areas for prevention purposes; develop and plan fire awareness with the community; update a community fire evacuation plan; develop fire awareness materials for the area; implement the Fire Free Program in Camp Sherman. The community will be better protected from wildfire, will learn how to create survivable space around their homes, develop an updated plan of evacuation, improve their knowledge about fire prevention and take part in creating a safer environment to live and recreate in. Partners in the project include the USDA Forest Service, Oregon Department of Forestry, Black Butte Ranch Fire District and permanent homeowners in the Camp Sherman area.

**Project End Date:** 12/31/2004

**Applicant:** Jefferson County Fire District #1  
**Contact:** Earl Cordes, 541-475-7274

**FS Award:** \$25,000  
**Leveraged Funds:** \$15,000  
**Total Project Funding:** \$40,000

**Description:**

This project will lease a fire prevention vehicle and implement a fire prevention program addressing vegetation mitigation and wildland urban interface issues within Jefferson County. The program will utilize many face-to-face meeting with landowners, school programs, and businesses. The goal of the project is to create defensible space around homes that are at high risk of wildfire. The community will benefit by less loss of life, less property loss, community preparedness, multi-agency collaboration for education and protection, and improved firefighter safety.

**Applicant:** Bly Community Action Team Inc.  
**Contact:** Gordon Hevern, 541-353-2269

**FS Award:** \$7,200  
**Leveraged Funds:** \$4,087  
**Total Project Funding:** \$11,287

**Description:**

The Bly Community has shown tremendous initiative over the years in maintaining and developing the basic facilities needed to sustain the community into the future. We expect that development of plans for replacement of the failing preschool building will put the community in a position to continue that tradition. With a population of around 200 people and current preschool enrollment of 12, it is clear that the preschool is of critical importance to the community. Sustaining the preschool by development a replacement building for it will allow retention of the instructor position and continue to allow parents of students to participate in the workforce. In addition, designing for five more students should provide opportunities for more parents to participate in the workforce. Finally, the design should resolve major problems with the exiting facility and result in major decreases in energy use. The Bly community should benefit greatly by maintaining and

**Federal Identifier:** ORNW-97-072  
**Grant Name:** Volcanic Legacy Scenic Byway

**Project Start Date:** 09/01/1997  
**Project End Date:** 12/31/2001

**Applicant:** Klamath County Economic Development Assoc.  
**Contact:** L.H. Senn, 541-882-9600

**FS Award:** \$86,400  
**Leveraged Funds:** \$30,125  
**Total Project Funding:** \$116,525

**Description:**

Funds from this grant will be used to design portals and tourist information for the entire length of the Volcanic Legacy Scenic Byway in Oregon. It will encourage agencies on the California side to extend the Byway to Lassen National Park and eventually to designation as a National Scenic Byway. While this grant will not involve construction, it will leave the county in a position to pursue funding for final design and construction. This project will encourage tourist use of the route and adjacent attractions. Commercial enterprises and communities along the route will see increased business. Additional opportunities for tourism service businesses are likely to develop as the byway is used.

**Federal Identifier:** ORNW-01-019  
**Grant Name:** Community Training and Emergency Center TA

**Project Start Date:** 08/20/2001  
**Project End Date:** 12/31/2002

**Applicant:** McKenzie Fire and Rescue  
**Contact:** Dana Burwell, 541-746-6312

**FS Award:** \$24,800  
**Leveraged Funds:** \$7,156  
**Total Project Funding:** \$31,956

**Description:**

Grant will fund final engineering design for creation of a centralized, multi-purpose community training facility and emergency operations center for the District's volunteer fire force. Engineering design will include expansion of current fire station to include community meeting room and training facility, as well as volunteer room, offices, locker and laundry rooms, and an additional truck bay and truck maintenance bay. The Fire district runs along the popular McKenzie River and scenic McKenzie Highway, and its communities are surrounded by National Forest System lands. Leaburg is centrally located in the District and is a strategic location for the District's central operations unit. This project will assist the community in their ability to respond to recreation emergencies more effectively and be more prepared to respond to local fires or wildfires. The community training facility will provide an adequate training facility for volunteer firefighters and meeting resource for community groups as well as government fire staffs in the area.

**Grant Name:** Comprehensive Community Center Feasibility  
**Applicant:** City of Oakridge  
**Contact:** Jay Bennett, 541-782-2258

**Project Start Date:** 08/01/2001  
**Project End Date:** 02/01/2003  
**FS Award:** \$40,000  
**Leveraged Funds:** \$25,000  
**Total Project Funding:** \$65,000

**Description:**

This grant funds the feasibility study for developing a comprehensive community service center in Oakridge. The feasibility study will include a Master Plan for the facilities location, design, and construction. The city's social service, civic and governmental programs are currently housed in several locations throughout Oakridge in substandard facilities. Consolidating services into a new community center would improve cost efficiency of building maintenance and improve service delivery for residents. Placement of the center along Highway 58, as being studied, would enhance visibility of Oakridge and therefore attract more tourism and businesses. Public involvement efforts will hopefully heal old rifts and galvanize the community toward a brighter economic future.

Willamette

**Federal Identifier:** ORNW-01-033  
**Grant Name:** Westfir Water System Improvements Project  
**Applicant:** City of Westfir  
**Contact:** Diana Tonkin, 541-782-3733

**Project Start Date:** 09/01/2001  
**Project End Date:** 12/31/2002  
**FS Award:** \$100,000  
**Leveraged Funds:** \$1,441,230  
**Total Project Funding:** \$1,541,230

**Description:**

This grant is to fund subcontractors for construction the HGE Engineering. The following is to be constructed: new raw water intake, water storage reservoir, transmission and distribution lines, and installation of water meters, indoor eyewash station, fire extinguisher, and telemetry improvements. The community will benefit from an improved water system that will prevent continuation of drinking water and ensure necessary water resources are available for fire suppression.

Willamette

**Federal Identifier:** ORNW-02-040  
**Grant Name:** Westfir Community Facilities Master Plan  
**Applicant:** City of Westfir  
**Contact:** Diana Tonkin, 541-782-3733

**Project Start Date:** 09/01/2002  
**Project End Date:** 12/31/2004  
**FS Award:** \$10,000  
**Leveraged Funds:** \$2,500  
**Total Project Funding:** \$12,500

**Description:**

Funding for this project will be used to assess the facility needs of the city of Westfir and also the feasibility of using existing community resources to satisfy those needs. The need for new facilities to house community activities and a library has been the catalyst for this project. The facilities plan will enable the community to assess their needs and their options in a strategic manner. The plan will make the community ready to pursue funding for any subsequent projects associated with community facilities and will make them more competitive. Ultimately, the attainment of adequate community facilities will enhance the quality of life in Westfir.

**Federal Identifier:** ORNW-97-024  
**Grant Name:** Blue River Downtown Revitaliz.

**Project Start Date:** 07/01/1997  
**Project End Date:** 12/31/1999

**Applicant:** Cascade Pacific RC&D  
**Contact:** Jim Zelenka, 541-682-4095

**FS Award:** \$25,668  
**Leveraged Funds:** \$12,290  
**Total Project Funding:** \$37,958

**Description:**

This grant of \$29,668 will assist in the revitalization of the Blue River downtown area. The four main elements of this project are to develop (1) an infrastructure study, (2) a business/community development feasibility/marketing plan, (3) a future funding strategy, and (4) a case study of and guidebook for facade improvements. This project addresses four main community needs (1) transitioning from a boom-bust cyclical economy to a more stable economy, (2) setting the stage for implementing changes in downtown Blue River, (3) involve youth in local community activities, and (4) creating a model business improvement plan that serves as a template for local businesses. Some of the intangible benefits are building community capacity for self-sufficiency and innovation; involvement of community youth will result in greater community pride and "real life/work related" experiences.

Willamette

**Federal Identifier:** ORNW-97-029  
**Grant Name:** Historic Commercial Dist.

**Project Start Date:** 09/01/1997  
**Project End Date:** 09/01/1998

**Applicant:** City of Cottage Grove  
**Contact:** Darrel Williams, 541-942-3340

**FS Award:** \$10,000  
**Leveraged Funds:** \$5,000  
**Total Project Funding:** \$15,000

**Description:**

Funding from this grant is for 1) the analysis of the retail market area, product demand, visitor expenditures, retail sales leakage, and unmet retail consumer needs, 2) identification of potential niche market products, 3) existing business analysis, 4) preparation of a 5-year strategic action plan for revitalization of the Downtown Historic Commercial district, and 5) summary reports and presentations to the city council and community. This project should increase tourism and economic diversity by identifying retail business opportunities that can capitalize on tourists and local area residents who shop and visit the commercial and downtown attractions in the heart of Cottage Grove.

Willamette

**Federal Identifier:** ORNW-97-030

**Contact:** Michael A. Kelly, 541-726-3700

**FS Award:** \$46,315  
**Leveraged Funds:** \$22,096  
**Total Project Funding:** \$68,411

**Description:**

Funding is to complete the McKenzie River Oxbow property including coordinating input from stakeholders, completing a site master plan, completing an environmental analysis of the site and design for facilities, and an interpretive brochure.

Willamette

**Federal Identifier:** ORNW-98-049  
**Grant Name:** Marine Fuel Facility

**Project Start Date:** 09/01/1998  
**Project End Date:** 12/31/1999

**Applicant:** Port of Siuslaw  
**Contact:** Tom Kartrude, 541-997-3426

**FS Award:** \$181,426  
**Leveraged Funds:** \$621,687  
**Total Project Funding:** \$803,113

**Description:**

This project will fund design, engineering, and construction of a marine fuel facility and dock. This facility will increase visitation and usage of the Port facilities, benefitting economic well-being of Florence.ornw-98-04

Siuslaw

**Federal Identifier:** ORNW-99-018  
**Grant Name:** Revision of Land Use Ordinance

**Project Start Date:** 09/01/1999  
**Project End Date:** 06/30/2002

**Applicant:** City of Westfir  
**Contact:** Myron Smith, 541-782-3733

**FS Award:** \$19,202  
**Leveraged Funds:** \$10,300  
**Total Project Funding:** \$29,502

**Description:**

Through a community input process, the City of Westfir will 1) Revise comprehensive plan designations; 2) Revise zoning development ordinances; 3) Revise zoning designations; 4) Work with Citizens Advisory Committee to develop necessary comp plan and land use ordinance revisions for remaining vacant and undeveloped land within the Urban Growth Boundary; and 5) Integrate the planning process with periodic review process. The outcomes will be achieved through a community wide participation process which will allow citizens to determine the long term character and values desired for the city's future. In addition to building citizen knowledge of the process and the importance of a comprehensive planning effort, this project will serve as the foundation for longterm well being and the economic diversification of Westfir.

**Grant Name:** Planet Improvement Center

**Project Start Date:** 05/15/2003  
**Project End Date:** 12/31/2005

**Applicant:** Bring Recycling  
**Contact:** Julie Daniel, 541-746-3023

**FS Award:** \$48,500  
**Leveraged Funds:** \$12,125  
**Total Project Funding:** \$60,625

**Description:**

This grant will fund technical assistance for the construction of a 3-acre regional destination for practical information on conservation, reuse, recycling, and sustainable development. The technical assistance will consist of geotechnical engineering, civil engineering, landscape architecture, architectural, structural engineering, and surveying. The Planet Improvement Center will benefit hundreds of thousands of people in Lane County as well as thousands of visitors from other areas as well. Homeowners, landlords, do-it-yourselfers, tinkerers, contractors, artists, gardeners, and others will benefit from a greater selection of low-cost reusable products that are much easier to access. People and organizations will benefit from one-stop shopping where they can buy reusable products and learn via displays, library, classes, workshops and demos. Meeting spaces will be available to community organizations. Expect to add approximately 4 permanent jobs at new site.

**Federal Identifier:** OREC-03-018  
**Grant Name:** Waldport Parks and Recreation Master Plan  
**Applicant:** City of Waldport  
**Contact:** Scott Beckstead, 541-563-3561

**Project Start Date:** 06/21/2003  
**Project End Date:** 12/31/2005

**FS Award:** \$15,000  
**Leveraged Funds:** \$10,000  
**Total Project Funding:** \$25,000

**Description:**

Funding for this project is for a Parks Master Plan for the City of Waldport. This plan would provide a roadmap for prioritized improvements, operations, and maintenance of the parks in Waldport. Furthermore, it would provide the information needed for a financial analysis to determine the necessary tax rate to levy in order to meet budgetary needs. The City has several small parks with minimal amenities, and owns a large parcel dedicated for a park. If Waldport residents vote for the District, tax revenues would allow the upgrade of those parks and development of the larger one. An attractive parks system in Waldport would improve recreational opportunities that contribute to the quality of life for the community and have a positive effect on the local tourism industry by encouraging coastal visitors to stop at the parks and frequent local businesses.

**Project Start Date:** 10/01/2002  
**Project End Date:** 12/31/2004

**Applicant:** Port of Newport  
**Contact:** Donald G. Mann, 541-265-7758

**FS Award:** \$30,800  
**Leveraged Funds:** \$8,000  
**Total Project Funding:** \$38,800

**Description:**

This grant will fund the Conceptual Design Plan and Preliminary Engineering for the Port of Newport's RV park Annex Site as a first step toward rehabilitation of the aged and outdated facility. The redesign may increase the number of site, by 15-20 units. Upgrades includes: new restroom and shower, small recreation and laundry center, full hook-up spaces, new or upgraded infrastructure, and enhanced landscaping. (Per my recommendation, they have consulted with the Salmon Harbor Manager in Reedsport to glean lessons learned from their RV Park project.) The decrease of natural resource dependent industries including commercial fishing, has had a detrimental effect on the economy of Newport, and its Port. The Port of Newport is looking to diversify its revenue source and enhancing the tourist economy of Newport by responding to the increased demand for RV Parks. More and more RV recreationists are traveling through the Cost

**Federal Identifier:** ORNW-97-016  
**Grant Name:** Grower/Gatherer Feasibility

**Project Start Date:** 06/01/1997  
**Project End Date:** 12/31/1999

**Applicant:** Lincoln County Economic Development Corporatio  
**Contact:** Chirs Chandler Di Torrice, 541-765-4380

**FS Award:** \$21,000  
**Leveraged Funds:** \$5,445  
**Total Project Funding:** \$26,445

**Description:**

This grant of \$21,000 will allow the EDC to (1) conduct a market analysis of 14 local wild and/or cultivated plants, (2) identify a strategy to develop and market products which may provide at least 20 family-wage jobs, (3) develop a business plan, (4) develop alternatives for organizational structure, and (5) survey and inventory potential growers/gatherers in Lincoln County. With the decline of timber and fishing industries in Lincoln County, most of the new jobs provide only minimum wage. This feasibility study is intended to lead to at least 20 new family-wage jobs through the identification, development, and marketing of secondary processed agricultural products. The study will lead to the development of a sustainable organization in support of the agricultural products industry in Lincoln County.

**Grant Name:** Events Center Siting/Planning

**Project Start Date:** 06/15/1998  
**Project End Date:** 06/01/2000

**Applicant:** Lincoln County  
**Contact:** Jean Cowan, 541-265-4100

**FS Award:** \$29,000  
**Leveraged Funds:** \$30,233  
**Total Project Funding:** \$59,233

**Description:**

Funding from this grant will enable the county to contract for a public input process that identifies three alternative sites for an events center; identify target markets; market analysis; events strategy; facility design recommendations; funding and construction schedule scenarios; and financial analysis, operations/maintenance analysis. The communities in Lincoln County are seeking ways to enhance their economic diversification efforts. Tourism and visitor support services are tools identified by Lincoln county that work to create jobs, diversity local economies, and improve the quality of life. This feasibility study will assist in eventually developing a year-round events center in Lincoln county, capable of hosting large groups of visitors/conventioners. The goal is to improve the County's capacity to provide events facilities in the off and shoulder seasons as well as summer. A county-wide input process will foster a united vision and consensus.

**Project Start Date:** 07/01/1998  
**Project End Date:** 12/31/2001

**Applicant:** Port of Alsea  
**Contact:** Maggie Rivers, 541-563-3872

**FS Award:** \$17,096  
**Leveraged Funds:** \$15,480  
**Total Project Funding:** \$32,576

**Description:**

Funding from this grant will enable the Port to contract for technical assistance to provide a scientific study identifying optimal habitat for various species of shellfish on the Alsea Estuary. Funding will provide for a scientific study in partnership with Oregon Department of Fish and wildlife and the Hatfield Marine Science Center to identify optimal habitat for various shellfish species. The study could lead to the establishment of an aquaculture industry, leading to job creation through an emerging commercial shellfish industry.

Siuslaw

**Federal Identifier:** ORNW-98-022  
**Grant Name:** Downtown Revitalization

**Project Start Date:** 07/01/1998  
**Project End Date:** 12/31/2001

**Applicant:** City of Toledo  
**Contact:** Sharon Branstiter, 541-336-2247

**FS Award:** \$250,000  
**Leveraged Funds:** \$477,561  
**Total Project Funding:** \$727,561

**Description:**

This grant will fund 1) the planning, design and engineering for the downtown commercial district revitalization, and 2) construction which will include retaining walls, amphitheatre, catch basins, Main street and side street sidewalks, crosswalks, landscaping, parking lot, sewer line repairs, Main Street repaving, and street furnishings. The City of Toledo will benefit in the short term by applying a community-input process in order to develop design-concepts for the downtown commercial area. In the long term the community can implement its tourism/small business retention/expansion objectives by improving the downtown area. It is expected that this project will result in increased community pride, increased jobs, improved services to visitors and residents alike.

**Project End Date:** 12/31/2001

**Applicant:** Port of Alsea  
**Contact:** Maggie Rivers, 541-563-3872

**FS Award:** \$5,749  
**Leveraged Funds:** \$1,440  
**Total Project Funding:** \$7,189

**Description:**

This project will provide 1) public input process will be conducted regarding assets in the Alsea River corridor which can be promoted, 2) develop informational materials; website, brochure, map, and other promotional materials, 3) evaluate and monitor interest and effects of promotion. The Port of Alsea in cooperation with Waldport Chamber, local businesses and the Central Oregon Coast Association, will promote sustainable tourism that is based on the outstanding natural and cultural attributes of the area. The intention is to promote tourism that is non-impactive on the natural resources and local ways of life.

Siuslaw

**Federal Identifier:** ORNW-99-007  
**Grant Name:** Commons Master Plan

**Project Start Date:** 06/30/1999  
**Project End Date:** 12/31/2001

**Applicant:** City of Yachats  
**Contact:** Arthur Roberts, 541-547-3565

**FS Award:** \$42,900  
**Leveraged Funds:** \$16,400  
**Total Project Funding:** \$59,300

**Description:**

Funding will complete a 2-phased project. Phase I is the planning phase which will be completed in consultation with SHPO. Phase I consists of a public participation process; business plan; structural review update of existing building; architectural design of building and grounds; master plan. Phase II consists of upgrades of heating & electrical systems, replacing exterior doors/railing; interior improvements; beautification of facade and entryway; and landscaping, all with approval of SHPO. Yachats relies heavily on tourism as a source of local jobs. Improvements to the commons building and production of a Master Plan, Business Plan, and facility design will guide long term development of the commons and affect the economic return from the commons from visitors and residents.

**Project End Date:** 12/31/2000

**Applicant:** Confederated Tribes of the Siletz Indians  
**Contact:** Sharon Edenfield, 541-444-2532

**FS Award:** \$18,527  
**Leveraged Funds:** \$5,000  
**Total Project Funding:** \$23,527

**Description:**

This project will enable the tribe to select a consultant to conduct an initial 'snapshot' (strengths, weaknesses, opportunities, and threats) of the potential economic feasibility of the mill and dry kiln and if appropriate, prepare a request for proposals for a more detailed economic feasibility study. If appropriate, select a consultant for a more detailed study of the best uses for the mill and dry kiln. Submit study results to the Tribal Council. The Confederated Tribes of the Siletz Indians (CTSI) are anxious to resolve the millsite use issue. The facility is unused currently. CTSI's main objectives with millsite are to create long term jobs for Tribal members and maximize the use of the facility. In order to accomplish these objectives, a feasibility study must be completed.

**County: Linn**

**Federal Identifier:** OREC-03-017  
**Grant Name:** Lyons Community Center Feasibility Study  
**Applicant:** City of Lyons  
**Contact:** William Hatt, 503-859-2167

**Project Start Date:** 07/01/2003  
**Project End Date:** 12/31/2005  
**FS Award:** \$14,400  
**Leveraged Funds:** \$3,600  
**Total Project Funding:** \$18,000

**Description:**

Funding for this grant will provide for a study to determine the feasibility of building a community center facility for the City of Lyons. The study will enable the city to make decisions regarding a site, evaluate costs, develop a preliminary floor plan for the facility, complete a management operations plan, identify potential funding sources and taxing levy issues, and establish a timeline for construction. Having a feasibility study in place for a community center will make the project ready for the next step and make it more marketable as a grant/loan proposal. A community center provides venues for civic participation and facilitates the leadership needed in rural communities to address their unique challenges.

Willamette

**Federal Identifier:** OREC-94-013  
**Grant Name:** Strategic Economic Action Plan  
**Applicant:** City of Brownsville  
**Contact:** Diane Rinks, 503-466-5880

**Project Start Date:** 07/01/1994  
**Project End Date:** 06/30/1995  
**FS Award:** \$12,000  
**Leveraged Funds:** \$3,000  
**Total Project Funding:** \$15,000

**Description:**

Grant would provide funds to develop a strategic economic action plan to help maintain and improve the economic health of the community by identifying future needs and goals. Development of a community action plan would help build capacity to diversify the local timber dependent economies.

Willamette

**Federal Identifier:** OREC-94-018

**Project End Date:** 11/30/1995

**Applicant:** Linn County  
**Contact:** David Schmidt, 503-967-3825

**FS Award:** \$65,000  
**Leveraged Funds:** \$20,000  
**Total Project Funding:** \$85,000

**Description:**

Funds are for a museum/interpretive center feasibility study. The study would enable the county to pursue the development of the site to attract tourism and preserve a historical water powered mill site.

Willamette

**Federal Identifier:** ORED-94-002  
**Grant Name:** Residue -Feasibility Study

**Project Start Date:** 06/20/1994  
**Project End Date:** 09/30/1995

**Applicant:** North Santiam Chamber of Commerce  
**Contact:** Gary Jurden, 503-897-3423

**FS Award:** \$46,637  
**Leveraged Funds:** \$27,277  
**Total Project Funding:** \$73,914

**Description:**

Funds would help finance a four part wood residue feasibility study. (1) Resource availability and characteristics (2) Market assessment (3) Manufacturing technology study (4)Development of marketing module and workshop presentation. The value-added marketing opportunities identified in this study will be used to create new jobs and foster economic stability for timber workers in the N. Santiam Canyon. Typically 10-60 jobs per manufacturing facility can be created, with two to three times that many secondary jobs. This project will also develop a resource assessment protocol that can be applied in other communities.

Willamette

**Federal Identifier:** ORED-94-004  
**Grant Name:** Special Forest Prod Inventory

**Project Start Date:** 06/29/1994  
**Project End Date:** 12/31/1997

**Applicant:** North Santiam Chamber of Commerce  
**Contact:** Gary Jurden, 503-897-3423

**FS Award:** \$49,834  
**Leveraged Funds:** \$15,250  
**Total Project Funding:** \$65,084

**Description:**

Funds are for the inventory and appraisal of special forest products. The results would be used to produce a marketing manual detailing the accurate methodology of inventory and evaluation for special forest Products. The inventory/appraisal and manual would help standardize and manage special forest products. This would encourage the development of the special forest products industry and help diversify the local economies.

**Grant Name:** Sankey Ponds Restoration

**Project Start Date:** 08/15/2001  
**Project End Date:** 12/31/2002

**Applicant:** City of Sweet Home  
**Contact:** Craig Martin, 541-367-8969

**FS Award:** \$50,000  
**Leveraged Funds:** \$14,023  
**Total Project Funding:** \$64,023

**Description:**

Grant will fund only the technical assistance portion of restoring Sankey Pond, and that is to complete the engineering for in-stream work and bank sloping. During the 1996 flood, Sankey Pond created a flooding problem for the Sweet Home central area. Repair efforts were complicated by lack of fish passage, wetlands, and water rights issues. The community has rallied together to address this and other problems related to Ames Creek, and are therefore already reaping the benefit of this project in the sense of being involved and coming together as a community. Other benefits include a design that allows for step ponds meeting the passage needs of all fish in Ames Creek; improving critical habitat will benefit recovery of declining winter steelhead runs; will mitigate any impacts to the central area from any future flood events; and beautifying the area used for large community events will support tourism and therefore economic diversification for Sweet

**Applicant:** Linn County  
**Contact:** Richard Stach, 503-967-3825

**FS Award:** \$149,250  
**Leveraged Funds:** \$49,586  
**Total Project Funding:** \$198,836

**Description:**

Funding is for eleven tourism projects for rural timber impacted communities in Linn County. All projects are related to natural resource, outdoor recreation, or heritage tourism strategies. These projects were developed through broad base community collaborative processes to help diversify the the local resource dependent economies.

Willamette

**Federal Identifier:** ORNW-96-018  
**Grant Name:** Fair/Expo Center Improvements

**Project Start Date:** 03/15/1996  
**Project End Date:** 06/01/1998

**Applicant:** Linn County  
**Contact:** Larry Johnson, 541-967-3825

**FS Award:** \$250,000  
**Leveraged Funds:** \$75,000  
**Total Project Funding:** \$325,000

**Description:**

Grant funds are for landscape improvements as outlined in the approved Wetland Mitigation Plan and approved County landscaping plans. It would also be used to provide entry signage for the Linn County Fair and Expo Center. The project would help the Linn County region to diversify the local economy through the promotion and use of the Fair and Expo Center facilities.

Willamette

**Federal Identifier:** ORNW-96-030  
**Grant Name:** Water System Improvements

**Project Start Date:** 07/01/1996  
**Project End Date:** 06/30/1998

**Applicant:** City of Brownsville  
**Contact:** Joseph DeZurney, 541-466-4880

**FS Award:** \$163,000  
**Leveraged Funds:** \$1,492,937  
**Total Project Funding:** \$1,655,937

**Description:**

Funds are for the construction of a 1.1 million gallon water storage reservoir replacement and installation of water lines. The project would improve the water system in order to get adequate fire flow pressure, attract prospective industries and comply with safe drinking water act.

Willamette

**Federal Identifier:** ORNW-97-036  
**Grant Name:** Wilderness Village Feasibility

**Project Start Date:** 09/15/1997  
**Project End Date:** 09/15/1999

**Applicant:** City of Sweet Home  
**Contact:** James Gourley, 541-367-8969

**FS Award:** \$63,000  
**Leveraged Funds:** \$15,750  
**Total Project Funding:** \$78,750

**Description:**

This grant will fund a feasibility study for developing a multi-use 'Wilderness Village' visitor facility in Sweet Home. The analysis will include marketing economic impact, infrastructure needs, validity of concept, cost estimates, and a funding strategy, alternative sites, and recommended organizational structure. The wilderness village concept has been analyzed by community members for the past five years. In order to proceed with development or to terminate efforts, a feasibility study needs to be accomplished. If feasible, the Wilderness Village will encourage development of amenities which would serve to stimulate economic diversification and address the community's financial needs.

**Contact:** Kathy Meyers, 541-369-2522

**FS Award:** \$20,000  
**Leveraged Funds:** \$20,200  
**Total Project Funding:** \$40,200

**Description:**

Construct & install welcome signage at north & south city portals; purchase & install 5 lights fixtures in Century Park; install a flag pole in Century Park; and install landscaping at north & south city portals. Project is intended to act as a catalyst to further stimulate community action, develop tourism potential, and improve quality of life for community of Halsey.

Willamette

**Federal Identifier:** ORNW-97-048  
**Grant Name:** Riverfront Trail Improvements

**Project Start Date:** 08/15/1997  
**Project End Date:** 08/15/1999

**Applicant:** City of Harrisburg  
**Contact:** Danny Eckles, 541-995-6655

**FS Award:** \$25,000  
**Leveraged Funds:** \$28,174  
**Total Project Funding:** \$53,174

**Description:**

This project will construct 1,145 lineal feet of hard surface trail (5' wide) at the edge of the Willamette River in the City of Harrisburg. The trail will be ADA-accessible. Landscaping will be installed along the trail. This proposed project is intended to act as a catalyst to further stimulate community action, further development of Harrisburg's tourism potential, and improve the community's quality of life.

Willamette

**Federal Identifier:** ORNW-97-068  
**Grant Name:** Outdoor Event Portable Seating

**Project Start Date:** 09/01/1997  
**Project End Date:** 03/31/2000

**Applicant:** City of Sweet Home  
**Contact:** Jim Gourley, 541-367-5128

**FS Award:** \$151,039  
**Leveraged Funds:** \$50,000  
**Total Project Funding:** \$201,039

**Description:**

This funding will purchase portable seating framing, seating, and assembly materials that will seat up to 6,000 people for outdoor events in the community. This portable seating will allow the City to improve and expand seating for important community events that bring income to the City. Many events, such as the Oregon Jamboree, Calapooia Round-Up, Sportsmans Holiday, and Mudflat Races are constrained by limited seating capability. With acquisition of improved and expanded high-quality seating, these events will have the capacity to draw larger audiences.

Willamette

**Federal Identifier:** ORNW-98-043

**FS Award:** \$20,000  
**Leveraged Funds:** \$18,998  
**Total Project Funding:** \$38,998

**Description:**

City of Jordan Valley will complete the feasibility study for a municipal airport to serve SE Oregon visitors and local communities. This feasibility study will include data collection, site assessments, and public involvement to determine the feasibility of site for constructing a future airport. Supports implementing project from Malheur County Strategic Plan in the City of Jordan Valley. Airport infrastructure will serve local communities and provide additional transportation access to SE Oregon. This area is very remote, and this additional infrastructure will provide services for tourism, resource management and public safety.

**Applicant:** North Santiam Canyon Economic Development Corp

**Contact:** Mia Mohr, 503-897-2295

**Project Start Date:** 08/01/2001

**Project End Date:** 12/31/2002

**FS Award:** \$18,000

**Leveraged Funds:** \$5,404

**Total Project Funding:** \$23,404

**Description:**

Completion of a community center feasibility study and preliminary planning work for a proposed community center to serve the cities of Detroit & Idanha. Study will provide an analysis of the communities' needs and services to be offered at the community center; evaluate the existing school building, and prepare a preliminary site plan and design for remodeling the facility or constructing a new one, and assess the financial feasibility of the various options; formulate an O & M plan; and establish terms under which the cities will acquire property for the center. Additionally, a qualified consultant will conduct a SHPO evaluation as part of the study. Detroit and Idanha do not have a community center. This study is a step toward meeting the need for a public meeting space. A community center provides a vital function for a town as a place to gather, share information and support, to coordinate efforts, and house town events. Previous

**Contact:** Mia Mohr, 503-897-2295

**Project Start Date:** 08/15/2001

**Project End Date:** 12/31/2005

**FS Award:** \$25,000

**Leveraged Funds:** \$41,000

**Total Project Funding:** \$66,000

**Description:**

To complete a concept-level feasibility study of a multi-use path linking communities; and to secure all funding by December 2001. Involve representatives of local jurisdictions including Oregon Parks and Recreation, Railroad Right of Way, Marion County parks, BLM, Linn County Parks, ODOT, Forest Service and the Cities of Lyons, Mill City, Gates, Detroit, and Idanha in Developing the scope of work. This alternative transportation link would support the visitor industry by providing a year-round low-elevation recreation opportunity. It would connect and facilitate more patronage for 11 recreational facilities, which currently are not connected other than by the highway; it would also benefit local residents by providing a safe alternative to commuting pedestrians and bicyclists who currently use the narrow shoulder on Hwy 22.

Willamette

**Federal Identifier:** ORNW-95-003

**Project End Date:** 03/31/2004

**FS Award:** \$564,050

**Leveraged Funds:** \$564,050

**Total Project Funding:** \$1,128,100

**Description:**

Funds help OEDD assist rural, timber-dependent communities with economic development projects that stabilize and diversify their economies. By giving priorities to projects that add value to existing timber resources or those that create immediate economic impacts, the economic and social benefits to the communities would be derived more effectively.

**Contact:** Bruce Westerberg, 503-378-3637

**FS Award:** \$99,988  
**Leveraged Funds:** \$26,797  
**Total Project Funding:** \$126,785

**Description:**

Funding for this project will be used to develop and administer a contract to complete a three-county biomass resource assessment in NE Oregon. The project will be coordinated by the Office of Energy and oversight and assistance will be provided by Willamette Resources, the Grande Ronde Model Watershed Council, the Baker County Planning Dept, and the Oregon Dept of Forestry. The resource and market assessment will be summarized in a final report. This project will provide resource and market information critical to the future of biomass energy development in the 3-county area with potential benefits including business development, job creation and reduced risk of catastrophic wildfire in the area.

**Total Project Funding:** \$79,136

**Description:**

The surveys are needed to establish the number and percentage of low and moderate income persons living in the cities where the 1990 median household incomes are low enough to potentially qualify for block grants. The results of the survey will help determine which timber dependent communities are eligible for grants from Rural Development Administration/Farmers Home Administration programs.

**Applicant:** South Central Oregon EDD  
**Contact:** William Barry, 541-882-9600

**Project Start Date:** 07/30/2001  
**Project End Date:** 12/31/2002  
**FS Award:** \$24,000  
**Leveraged Funds:** \$7,500  
**Total Project Funding:** \$31,500

**Description:**

With severe reductions in the agricultural economy of the Klamath Basin, as a result of reduced supplies of irrigation water, it is clear that other agricultural options are needed. This feasibility study should help identify new agricultural enterprises that can be economical through the use of the basin's geothermal resources. It is expected that these new agricultural endeavors will use considerably less water to produce high value products while creating stable jobs and enhancing the long-term agricultural economy. Agriculture has been a stable segment of the Klamath Basin economy for nearly 100 years. This year, that stability has abruptly ended. Trained agricultural workers, primarily Hispanic, are leaving the area for opportunities elsewhere and all other segments are facing severe hardships as the loss of the agricultural sector ripples through the economy. This feasibility study is the first step in developing agricultural alternatives that can help restore some long-term stability to the sector for the benefit of all basin residents.

**Applicant:** North Santiam Canyon Econ. Dev. Corp.  
**Contact:** Tim Kirsch, 503-897-2295

**FS Award:** \$30,081  
**Leveraged Funds:** \$10,600  
**Total Project Funding:** \$40,681

**Description:**

Funding is for the implementation of high priority projects identified in the updated Strategic Plan of the North Santiam Canyon Economic Development Corporation. These projects include, 1) design and implementation of a business needs assessment, 2) development, publication, and distribution of an updated Canyon Business Directory, 3) design and implementation of a computer module, 4) business seminars to meet the technical assistance needs of local businesses, 5) development and implementation of a Canyon image promotion including graphics, 6) development, production, and distribution of a Canyon Events calendar, and 7) design and hold a charette in one community. Momentum and support for the Main Street Program in the North Santiam Canyon has grown substantially since its beginnings in 1995. Phase 2 consists of implementation of the Canyon Community's highest priority projects and further growth of the program. The Commercial Development Program is designed to encourage a stronger, more diverse local business community, leading to increased jobs in the future.

**Project Start Date:** 06/01/1998  
**Project End Date:** 02/15/2001

**Applicant:** Josephine County  
**Contact:** Jim Brock, 541-474-5275

**FS Award:** \$25,000  
**Leveraged Funds:** \$15,109  
**Total Project Funding:** \$40,109

**Description:**

This grant will provide a strategic business plan for the Williams, Oregon Arboretum-Botanic Garden and Educational Center. The plan will include an economic feasibility study, fund raising strategies, conceptual building drawings, and a project implementation timeline. The botanic garden and education center will promote the creation of new cottage industries through it's education programs, and will support and help expand local business through the money spent by attendees of seminars and visitors, and create five to seven new jobs to operate the facility. Fortifying existing businesses and supporting emerging ones will strengthen the economic and cultural fabric of the Williams community. Training and retraining of people for agriculture related jobs is a value added enterprise that stabilizes the economy and enhances the future desired condition of the area.

**Total Project Funding:** \$7,192

**Description:**

Grant funds are for the establishment of a western juniper demonstration area in Klamath County and to conduct a workshop and training exercise on juniper management for resource professional who deal with management alternatives on both public and private lands. A plan would be developed to direct the project sponsors efforts. The plan would further develop management practices for Western Juniper which would help promote wise use of a growing value-added wood products industry.

**Applicant:** City of Rufus  
**Contact:** Clifford Jett, 541-739-2321

**FS Award:** \$20,000  
**Leveraged Funds:** \$6,213  
**Total Project Funding:** \$26,213

**Description:**

This grant will assist the city of Rufus conduct and complete a community action plan for the community and adjacent special district of Biggs Junction. Rufus is located adjacent to Interstate 84 just east of the Highway 97 junction. Rufus wants to utilize their 60 acre industrially zoned property to bring jobs and additional housing to their community. The community action planning process will help Rufus determine whether the development should be tourist, residential, and/or industrial. They want to explore the feasibility of these different options and engage the residents in the decision making process. They also want to explore the different options to attract development to the city beyond the scope of their own 60 acres. This is the City of Rufus' and Sherman County's number one priority for technical assistance and community readiness. This area was originally identified in the Sherman County Strategic Plan for future industrial or commercial development. Action planning process will also incorporate the Biggs Junction special district business interests. The City recognizes that any action they take could be impacted by the continued direction of development in the Biggs Junction area. Completing a community plan may help retain population in the area (especially youth), as it has been on a decline. In addition, Biggs has little or no housing. They draw on employees from surrounding communities. Plan will address housing needs also for these two areas.

**Description:**

GEODC will conduct a needs assessment regarding local nonprofits. Based on the needs assessment, GEODC will then deliver programs to these local nonprofits offering educational and training opportunities to provide needed skills. GEODC will offer technical and financial assistance to rural nonprofits to build their capacity to govern, raise funds, and operate programs. This in turn will help them assist local communities, businesses, and industries in creating jobs. Local nonprofits will increase their capacity to govern, fund raise, and deliver their normal programs. Nonprofits that operate more efficiently and effectively should better serve local communities in job retention, expansion, and creation efforts.

**FS Award:** \$300,000

**Leveraged Funds:** \$121,000

**Total Project Funding:** \$421,000

**Description:**

The projects to be completed with this funding - portable wood bridge fabrication, dry forest mechnized fuels treatment trials, forest certification assistance, and small wood manufacturing assistance - will integrate natural resource management emerging roundwood product markets, and local business enterprise in northeast Oregon. Economic benefits include improved opportunities to capture value from small diameter timber, improved security of wood products manufacturing jobs, and increased local workloads for forest contractors. Social benefits include maintenance and expansion of high wage jobs in a county with persistently high unemployment, increased value to private forest ownerships, and decreased pressure on families, schools, and local institutions.

**Applicant:** Port of The Dalles  
**Contact:** Scott Hege, 541-298-4148

**FS Award:** \$117,955  
**Leveraged Funds:** \$29,489  
**Total Project Funding:** \$147,444

**Description:**

Funding from this grant will assist the Port of the Dalles with obtaining the final engineering portion for their Chenoweth Creek Industrial Park development. The engineering component for the Chenoweth Creek project includes final engineering and construction drawings for the project to go forward to construction. This will allow the 58 acre site to be readied for immediate development, expecting to result in creation of 350 new jobs. As the largest developed industrial land owner in Wasco County, the Port of the Dalles has a responsibility to use the lands they own effectively in order to diversify the county's economic base. This includes meeting the demands of the market and providing ready-to-develop lots. The overall project will provide 58.8 fully developed acres for targeting identified businesses considering relocating in The Dalles.

**Project Start Date:** 08/01/1998  
**Project End Date:** 12/31/2001  
**FS Award:** \$79,000  
**Leveraged Funds:** \$23,199  
**Total Project Funding:** \$102,199

**Description:**

Grant funding will assist Wasco County and The Dalles Civic Auditorium Historic Preservation Committee in completing all design and engineering plans for the final restoration needs for the Civic Auditorium in The Dalles. Funding will provide the architectural, mechanical, electrical, plumbing and structural engineering for heating and cooling, restrooms, elevator, support beams, catering, fire escape and other remodeling. The Civic Auditorium Historic Preservation Committee was formed in 1992 to renovate this historic facility. They have had great community support and have received urban renewal funds to complete the structural improvements and restoration. The importance of the project to the community is to provide a facility which can be used for conventions, regional meetings, and cultural events for an eight county market area.

Columbia River

**Federal Identifier:** ORNW-99-001  
**Grant Name:** Downtown Renaissance Feasib  
**Applicant:** City of The Dalles  
**Contact:** Nolan Young, 541-296-5481

**Project Start Date:** 05/20/1999  
**Project End Date:** 12/31/2001  
**FS Award:** \$50,000  
**Leveraged Funds:** \$65,000  
**Total Project Funding:** \$115,000

**Description:**

The goal of this project is to restore the historic tie which the City of the Dalles downtown area had to their riverfront while providing access to the Columbia River and the Riverfront Trail. The grant would investigate engineering feasibility and cost estimates of converting current grain conboy tunnel which runs under Interstate 84 to a pedestrian and bike pathway to the riverfront. Grant will also provide engineering and cost estimates to extend the existing tunnel through the future site to the city's wastewater treatment facility, and construction ready engineering documents and cost estimates of trail head in order to connect downtown The Dalles with the riverfront trail and proposed tourist dock. The city of The Dalles continues to develop its tourist based economy through a number of initiatives. This current opportunity, to convert prior grain convoy tunnel to a pedestrian access tunnel in order to connect downtown to the waterfront, is yet another example of the city's interest in expanding tourism as a regional economy. This new access will also provide a main connection to the downtown business community with the soon to be completed Riverfront Trail. These connections will, over time, make The Dalles an overnight destination. In addition, this project will be the precursor for completion of a cruise dock within the same vicinity making this a complete recreational enhancement. This project also brings several community organizations together to partnership in the overall completion and ongoing management of these facilities.

**Grant Name:** Paleo Project Program Development

**Project Start Date:** 06/01/2003  
**Project End Date:** 12/31/2004

**Applicant:** Wheeler County  
**Contact:** Jeanne Burch, 541-763-3460

**FS Award:** \$40,000  
**Leveraged Funds:** \$21,500  
**Total Project Funding:** \$61,500

**Description:**

Project will hire a consultant to develop and market programs providing edu-tourism opportunities in Wheeler County and neighboring counties. Project will offer and market statewide at least 12 Science courses to be held during the summer of 2003 in conjunction with natural resource partners, and will establish a database of area businesses offering support services such as lodging, catering, vehicle shuttles and other logisitics of serving educational groups. Project is designed to draw visitors through small gateway communities that will benefit from increased tourism. Project is based on utilizing the predominant natural resources - paleotological resources - to promote natural resource related tourism for the economic benefit of rural north-central Oregon.

**County: Wheeler**

**Federal Identifier:** ORNW-01-005  
**Grant Name:** Paleo Project Development Plan

**Project Start Date:** 07/01/2001  
**Project End Date:** 12/31/2003

**Applicant:** Wheeler County  
**Contact:** Jeanne Burch, 541-763-3460

**FS Award:** \$50,000  
**Leveraged Funds:** \$35,000  
**Total Project Funding:** \$85,000

**Description:**

Technical assistance to create a Develop Plan for the Paleo Project, including the following elements: Connecting partners, conducting community presentations, regionalizing associations, developing a web page, identifying niche marketing to travelers for edu-tourism, completing a feasibility study for the proposed Paleo Center , and conducting economic and community development analysis, The heart of this project is the proposed multi-partner education-science-cultural facility at Fossil that will jumpstart regional revitalization through strategies that focus on connecting partners, stimulating downtown development, regionalizing the visitor industry businesses and niche-marketing. These efforts will serve several communities and counties and will be focused on integrating the many paleontologic and geologic features of north central Oregon as a catalyst for economic development across the region.

**Federal Identifier:** ORNW-01-034  
**Grant Name:** City of Spray

**Project Start Date:** 08/15/2001  
**Project End Date:** 12/31/2003

**Applicant:** City of Spray  
**Contact:** Andrew Leckie, 541-468-2069

**FS Award:** \$20,000  
**Leveraged Funds:** \$5,010  
**Total Project Funding:** \$25,010

**Description:**

Technical Assistance to prepare a Wastewater Pre-design report and an Environmental Report. This report is required by the DEQ prior to financing and constructing of a community-wide sewage collection and treatment system. The project will prepare the City of Spray to proceed with construction of a centralized wastewater collection and treatment system. The current system is failing and pose health hazards and impact the water quality of the John Day River.
