Fire Safe Council Grant Clearinghouse Workshop

On Monday December 8, the California Fire Safe Council will be hosting a grant writing workshop to inform potential applicants regarding the process for the upcoming grant cycle. Attendance at the workshop by at least one representative will be mandatory for any organization wishing to be considered for the funding.

The workshop will be held at the interagency building at 351 Pacu Lane, off of Line Street in Bishop, from 9:00 am to 1:00 pm. The grants clearinghouse, sponsored by the California Fire Alliance, is a one-stop shop that simplifies the process of finding and applying for grants to improve California's community wildfire preparedness. The following are members of the California Fire Alliance; U.S. Forest Service, Bureau of Land Management, National Park Service, U.S. Fish and Wildlife Service, and the California Fire Safe Council.

The funds are available to assist with hazardous fuels treatment, wildfire safety education and hazard risk reduction within the wildland-urban interface (WUI).

For further information contact Debra Hein, Interagency Fire Mitigation and Education at (760) 872-5057.
