

*Recreation fees are an investment in outdoor recreation. Current and future generations will benefit as 95% of the funds are reinvested in the facilities and services that visitors enjoy, use, and value.*

## Accomplishments Provided with Recreation Fees:

- Contracted development of a database to store information collected through a Utah Conservation Corps survey regarding recreation site accessibility. This database provides an interface for recreation managers and members of the public interested in accessibility information.
- Assisted with information board updates at campgrounds, trailhead and day use sites at forests across the region.
- Designed, printed and distributed a regional tear sheet map for all offices in the Intermountain Region. The map displays forest boundaries, and office names, locations and phone numbers.
- Funded interpretive display redesign at Mesa Falls Visitor Center on the Caribou-Targhee National Forest.
- Cooperated with multiple federal and state agencies and created the *Utah Outdoor Recreation Opportunities Map*. This map contains helpful and interesting visitor information and is being distributed around the state.
- Completed regional assessment of opportunities and suitability of using vending machines to dispense recreation passes, permits, maps and other products with the goal of making these items more convenient for visitors to obtain.
- Supported recreation site facility planning updates for Fishlake and Manti-La Sal National Forests.

*Historic Mesa Falls Visitor Center where recreation funds accomplished interpretive display updates.*

## Special Feature

Creating and sharing videos on line has never been easier with today's technology. With that in mind, the Boise and Salmon-Challis National Forests are producing short, information videos featuring recreation sites and opportunities for their forest web sites, YouTube and [www.recreation.gov](http://www.recreation.gov). Visitors will be able to try out a site virtually to make sure it's perfect without ever leaving home.

## Intermountain Regional Office Revenue & Expenditures

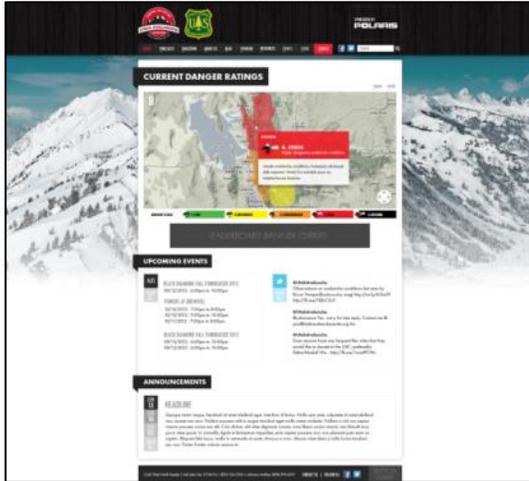

Revenue*	
Source	Amount
Recreation Fees	\$131,064
Special Uses	\$52,076
Interagency Pass	\$1,770
<b>Total</b>	<b>\$184,910</b>

Expenditures	
Source	Amount
Maintenance & Repair	\$0
Visitor Services	\$170,400
Cost of Collections	\$0
Law Enforcement	\$0
Habitat Restoration	\$0
Fee Agreements	\$0
<b>Total</b>	<b>\$170,400</b>

\*Carryover funds will be used for large projects and the following season's startup costs.

## Intermountain Accomplishments Continued

- Funded redesign of avalanche warning and information signs for backcountry trailheads and ski area boundary gates. In addition, some signs will feature electronic avalanche beacon checkers that flash lights and make a sound when they detect a transmitting avalanche rescue beacon.
- Contracted web site design to create a uniform presence for Intermountain Region avalanche centers: Utah Avalanche Center, Bridger Teton Avalanche Center, Sun Valley Avalanche Center and Sierra Avalanche Center.

Avalanche Center web sites were redesigned to offer a standard look and feel for visitors.

New avalanche signs for backcountry trailheads and gates.
