

APPENDIX B – BLM LIST OF RIVERS

The Bureau of Land Management (BLM) is a cooperating agency with the Forest Service. A Memorandum of Understanding between the two agencies was signed. Currently, six BLM Field Offices in the State of Utah are in the process of completing draft resource management plans. All six plans are in a draft stage and subject to change. It is possible that when the BLM signs the final decision for each resource management plan that the Preferred Alternative may differ from what is presented here. However, this is the best available data. This appendix contains information for the Kanab, Moab, Monticello, Price, Richfield, and Vernal Field Offices.

Kanab Field Office

The information for Table 1 was obtained from the Kanab Draft Resource Management Plan, Appendix G, Table AG-3 - Rivers Determined Eligible for Designation into the NWSRS.

Table 1. List of eligible river segments, miles, and tentative classification for the Kanab Field Office, BLM.

Kanab Field Office Draft RMP River Segment	Miles	Alternative B (Preferred) Tentative Classification
North Fork Virgin River • Segment 48-49 Section 31 - 33 (northeast of Zion NP)	2.2	Suitable - Wild
East Fork Virgin River • Segment 37-40a • Segment 40a-41 • Segment 36-37	5.4 5.2 2.9	Suitable - Scenic Suitable - Wild Suitable - Recreational
Orderville Gulch (Esplin Gulch) • Segment 44-45 Zion NP Boundary to the Falls. Esplin Gulch Segment 45 to 45A.	3.2	Suitable - Wild
Meadow Creek / Mineral Gulch • Segments 33-35 and 35-38 - South of Highway 9 to the confluence of Mineral Gulch, then to the confluence with East Fork Virgin River.	9.2	Suitable - Wild
Deep Creek • Segment 50-51 from the Washington County line to the BLM boundary in Section 30.	0.7	Not Suitable - Wild
Cottonwood Creek • Segment 28-29 beginning in Section 10 at the BLM boundary ending at confluence with Indian Canyon.	1.1	Not suitable - Wild
Indian Canyon • Segment 26-27 from the head of the canyon to confluence with Cottonwood Creek.	0.7	Not suitable - Wild
South Fork Indian Canyon • Segment 22-23 from the head of South Fork Indian Canyon to BLM boundary in northeast corner of Section 20.	1.8	Not suitable - Wild
North Branch of South Fork Indian Canyon • Segment 24-25 from the point where the canyon deepens to BLM boundary in southeast corner of Section 17.	0.4	Not suitable - Wild
Water Canyon • Segment 20-21 from the point where the canyon deepens to the BLM boundary in Section 21.	3.2	Not suitable - Wild
Hell Dive Canyon • Segment 30-31 from the point where the canyon deepens to the confluence with Cottonwood Creek.	1.4	Not suitable - Wild
Paria River • Segment 68-69 beginning at Wilderness/GSENM boundary to Arizona border. Entire segment is within Paria Canyon Vermilion Cliffs Wilderness.	4.8	Suitable - Wild
Three Mile Creek	3.7	Not suitable - Recreation

Kanab Field Office Draft RMP River Segment	Miles	Alternative B (Preferred) Tentative Classification
• Segment 56-57 Beginning at Forest boundary in Section 11 to BLM boundary in Section 7.		

Moab Field Office

The information for Table 2 was obtained from the Moab Field Office, Draft Resource Management Plan and EIS (August 2007), p. 2-39 to 2-42. Table 2 lists the eligible segments as well as a suitability determination for the Preferred Alternative.

Table 2. List of river segments, miles, and suitability determination and classifications for Alternative C (Preferred).

Moab Field Office Draft RMP River Segment	Miles	Alternative C (Preferred)
Beaver Creek • Segment 1 – Forest Service boundary to one mile from Dolores River • Segment 2 – One mile to Dolores River	7.7	Segment 1 – Not suitable Segment 2 – Not suitable
Colorado River • Segment 1 – Colorado-Utah state line to Westwater Canyon • Segment 2 – Westwater Canyon (Mile 125) to River Mile 112 • Segment 3 – River Mile 112 to confluence with the Dolores River • Segment 3(a) – River Mile 112 to Cisco Wash • Segment 3(b) – Cisco Wash to confluence with the Dolores River • Segment 4 – Confluence with the Dolores River to River Mile 49 near Potash • Segment 5 – River Mile 44.5 to Mile 38.5 state land boundary • Segment 6 – River Mile 37.5 below state land to Mile 34 Canyonlands National Park	66.5	Segment 1 – Not suitable Segment 2 – Suitable– Wild Segment 3(a) – Suitable– Scenic Segment 3(b) – Suitable– Recreational Segment 4 – Suitable– Recreational Segment 5 – Suitable– Recreational Segment 6 – Suitable– Scenic
Cottonwood Canyon • Source near Cottonwood Point to private land (includes the first ½ mile of Horse Canyon)	10.4	Not suitable
Dolores River • Segment 1 – Colorado-Utah state line to Fisher Creek • Segment 2 – Fisher Creek to Bridge Canyon • Segment 3 – Bridge Canyon to Colorado River	22.0	Segment 1 – Suitable– Recreational Segment 2 – Suitable– Scenic Segment 3 – Suitable– Recreational
Green River • Segment 1 – Coal Creek to Nefertiti Boat Ramp • Segment 1(a) – Coal Creek to Swasey's Boat Ramp (combination of Segments 1 and 2) • Segment 2 – Nefertiti Boat Ramp to Swasey's Boat Ramp • Segment 3 – Swasey's Boat Ramp to I-70 Bridge • Segment 3(a) – Swasey's Boat Ramp to River Mile 97 (confluence with the San Rafael River; combination of Segment 3 and part of Segment 4) • Segment 4 – I-70 Bridge to River Mile 91 below Ruby Ranch • Segment 4(a) – Mile 97 (confluence with the San Rafael River) to Canyonlands National Park boundary (part of Segment 4 and all of Segments 5 and 6) • Segment 5 – Mile 91 below Ruby Ranch to Hey Joe Canyon • Segment 6 – Hey Joe Canyon to Canyonlands National Park Boundary	99.0	Segment 1 – Not suitable Segment 1(a) – Suitable– Scenic Segment 2 – Not suitable Segment 3 – Not suitable Segment 3(a) – Not suitable Segment 4 – Not suitable Segment 4(a) – Suitable– Scenic Segment 5 – Not suitable Segment 6 – Not suitable

Moab Field Office Draft RMP River Segment	Miles	Alternative C (Preferred)
Mill Creek • Segment 1 – National Forest boundary to private property below diversion • Segment 2 – T26S, R23E, Section 19 to Power Dam	6.0	Segment 1 – Not suitable Segment 2 – Not suitable
Negro Bill Canyon • Segment 1 – From state land below rim to ¼ mile from Colorado River • Segment 2 – Last ¼ mile to Colorado River	7.4	Segment 1 – Not suitable Segment 2 – Not suitable
North Fork Mill Creek • National Forest boundary near Wilson Mesa to Mill Creek	11.2	Not suitable
Onion Creek • Segment 1 – Source to Onion Creek Road • Segment 2 – Beginning of Onion Creek Road to Colorado River	12.5	Segment 1 – Not suitable Segment 2 – Not suitable
Professor Creek • National Forest and state land boundary to diversion near private land	7.4	Not suitable
Rattlesnake Canyon • Source to Green River (including Flat Nose George Tributary)	31.6	Not suitable
Salt Wash • Arches National Park boundary to Colorado River	0.3	Salt Wash to be deferred until NPS does suitability on portion within Arches National Park.
Thompson Canyon • Source of Thompson to Fisher Creek (Cottonwood Canyon; tributary of Dolores River)	5.5	Not suitable

Monticello Field Office

The information for Table 3 was obtained from the document Eligible Rivers for Suitability Study in the Wild and Scenic Process (July 2004), Table 2 – Eligible River/segments and their tentative classification, Monticello Field Office, page 15.

Table 3. List of river segments, miles, and tentative classification.

Monticello Field Office Eligible Rivers for Suitability Study in the Wild and Scenic Process River Segment	Miles	Tentative Classification
Colorado River • Segment 1: Northern most MFO boundary on east side of Colorado River (1 mile north of Potash land) south to private land. • Segment 2: State lands near River Mile 44 to approximately River Mile 38.5. • Segment 3: From approximately River Mile 37.5 at State land to boundary of Canyonlands NP near River Mile 31.	2.2 5.5 6.5	Recreational Scenic Wild
Indian Creek • Forest boundary to Donnelly Canyon	4.8	Recreational
Fable Valley • Source to mouth at Gypsum Creek	6.8	Scenic
Dark Canyon • Youngs Canyon to GCNRA	6.4	Wild
San Juan River • #1: North side – MFO, portions are within San Juan River SRMA; South side Navajo Nation. • #2: North side – MFO, portions are within San Juan River SRMA; South side – Navajo Nation • #3: North side – MFO, San Juan River SRMA; South side – Navajo Nation. • #4: North side – MFO; South side – Navajo Nation. • #5: North side – MFO, San Juan River SRMA and Cedar Mesa ACEC; South side – Navajo Nation.	8.5 10 13.3 4.2 17.3	Recreational Recreational Wild Recreational Wild
Arch Canyon • Forest boundary to ½ mile west of its confluence with Comb Wash.	6.9	Recreational

Price Field Office

The information for Table 4 was obtained from the Price Field Office, Draft Resource Management Plan and Draft EIS (July 2004), Appendix A, Table 5. It is available on the web at:

<http://www.blm.gov/rmp/ut/price/draftEIS.htm>. Table 4 lists the eligible river segments. A Preferred Alternative has been identified as Alternative D (pages 2-133 to 2-235) in the Draft RMP/EIS.

Table 4. List of eligible river segments, miles, and tentative classifications.

Price Field Office Draft RMP River Segment	Miles	Alternative D (Preferred)
Barrier Creek • Canyonlands National Park boundary to mouth at Green River.	13.7	Not Suitable
Bear Canyon Creek • Headwater to mouth at Rock Creek.	6.7	Not Suitable
Buckskin Canyon Creek • Headwaters to mouth at Rock Creek.	6.1	Not Suitable
Cane Wash • Head of wash to mouth at San Rafael River.	20.7	Not Suitable
Coal Wash • North and South Forks of Coal Wash to confluence with North Salt Wash.	5.3	Not Suitable
Cottonwood Wash • Head of wash to county road at T. 20 S., R. 13 E., Sec. 14.	6.1	Not Suitable
Fish Creek • Scofield Reservoir to confluence with White River.	10.2	Not Suitable
Gordon Creek • Confluence of Bob Wright and Mud Water Canyons to mouth at Price River.	13.1	Not Suitable
Green River • County line near Nine Mile Creek to Chandler Canyon. • Chandler Canyon to Florence Creek • Florence Creek to Nefertiti boat ramp • Nefertiti boat ramp to I-70 bridge • I-70 bridge to mile 91 below Ruby Ranch • Mile 91 below Ruby Ranch to Hey Joe Canyon • Hey Joe Canyon to Canyonlands National Park Boundary	169	Suitable - Scenic Suitable - Scenic Suitable - Scenic Suitable - Recreation Suitable - Recreation Suitable - Scenic Suitable - Scenic
Keg Spring Canyon • Head of canyon to mouth at Green River	8.7	Not Suitable
Muddy Creek • I-70 to Lone Tree Crossing • Lone Tree Crossing to South Salt Wash • South Salt Wash to county road downstream of San Rafael and North Caineville Reefs.	53.6	Not Suitable Not Suitable Not Suitable
Nine Mile Creek • Minnie Maude Creek to Bulls Canyon • Bulls Canyon to mouth at Green River	43.9	Not Suitable Not Suitable
North Fork Coal Wash • Head of wash to Fix It Pass route • Fix It Pass route to confluence with South Fork Coal Wash	10.5	Not Suitable Not Suitable
North Salt Wash • Confluence with Horn Silver Gulch to mouth at San Rafael River	12.3	Not Suitable
Price River • Confluence of Fish Creek and White River to Poplar Street bridge in Helper • Mounds bridge to Book Cliffs escarpment • Book Cliffs escarpment to mouth at Green River	100.6	Not Suitable Not Suitable Not Suitable
Range Creek • Headwaters to Trail Canyon • Trail Canyon to drill holes at T. 17 S., R. 16 E., Sec. 27 • Drill holes at T. 17 S., R. 16 E., Sec. 27 to mouth at Green River	38.8	Not Suitable Not Suitable Not Suitable
Rock Creek	15.2	

Price Field Office Draft RMP River Segment	Miles	Alternative D (Preferred)
• North Fork headwaters to mouth at Green River		Not Suitable
San Rafael River • Confluence of Ferron and Cottonwood Creeks to Fuller Bottom • Fuller Bottom to Johansen corral • Johansen corral to Lockhart Wash • Lockhart Wash to Tidwell Bottom • Tidwell Bottom to mouth at Green River	105.5	Not Suitable Suitable - Recreation Suitable - Recreation Suitable - Recreation Not Suitable
South Fork Coal Wash • Head of wash to Eva Conover route • Eva Conover route to confluence with North Fork Coal Wash	11	Not Suitable Not Suitable

Richfield Field Office

The information for Table 5 was obtained from the Richfield Draft RMP/Draft EIS (2005), Appendices 2 and 3, Table A2-1 – Wild and Scenic River Eligibility and Classification, p. A2-2.

Table 5. List of river segment, miles, and suitability determination and classifications for Alternative B (Preferred Alternative).

Richfield Field Office Draft RMP River Segment	Miles	Tentative Classification
Dirty Devil Complex • Dirty Devil River • Beaver Wash Canyon • Larry Canyon • No Mans Canyon • Robbers Roost Canyon • Sams Mesa Box Canyon • Twin Corral Box Canyon	54.0 6.8 4.0 7.1 31.0 9.5 9.0	Wild Wild Wild Wild Wild Wild Wild
Fish Creek • National Forest boundary to private land in T.30 S., R. 5 E., Sec. 5	0.25	Scenic
Fremont River • Fremont Gorge • Capitol Reef NP to Caineville Diversion	5.0 4.0	Wild Recreational
Maidenwater Creek • T. 33 S., R.12 Sec. 33 to Sec. 36	3.0	Scenic
Quitcupah Creek • Public lands in T. 22 S., R. 5 E., Sec. 15 and 17	1.4	Recreational
Total 135.05		

Vernal Field Office

The information for Table 6 was obtained from the Vernal Field Office, Draft Resource Management Plan and Draft EIS, Table 4.14.2, p. 4-210 to 4-211 and Table 3.14.2, p. 3-84 to 3-85. It is available on the web at: <http://www.blm.gov/rmp/ut/vernal>. Table 6 contains a list of river segments identified in Alternative A, the Preferred Alternative.

Table 6. List of river segments and suitability determination and classifications for Alternative A (Preferred).

Vernal Field Office Draft RMP River Segment	Miles	Alternative A (Preferred)
White River • 'Scenic' between the state line and its confluence with Asphalt Wash (Segment 1). Alternative A only recommends a portion of Segment One of the White River.	10	Scenic
White River	10	

• 'Wild' between Asphalt Wash to where the river leaves Section 18 T10S R23E SLBM (Segment 2)		Wild
Upper Green River • Between Little Hole and Utah state line.	22	Scenic
Lower Green River • Between public land boundary south of Ouray and the Carbon County line.	30	Scenic
