

Table of Contents

CHAPTER 1-PURPOSE AND NEED.....	1
The Proposed Action.....	1
Decision Framework.....	4
Management and Direction.....	9
Public Involvement.....	14
Identified Issues.....	18
CHAPTER 2 - DESCRIPTION OF THE PROPOSED ACTION.....	26
The Proposed Action	27
Design Elements in the Proposed Action.....	41
Monitoring in the Proposed Action.....	58
Sale Area Improvement Opportunities.....	60
The No Action Alternative.....	61
CHAPTER 3 - ENVIRONMENTAL CONSEQUENCES.....	71
Other Actions Considered.....	72
Consideration of No Action.....	77
Discussion of Effects of the Proposed Action by Resource or Topic Area.....	82
Fire and Fuels.....	82
Forest Vegetation.....	96
Late and Old Forest Structure.....	110
Roads.....	125
Soils.....	137
Hydrology.....	147
Riparian Areas and Fisheries.....	163
Wildlife.....	172
Noxious Weeds.....	207
Range.....	215
Sensitive Plants.....	221
Recreation.....	223
Scenery.....	227
Heritage.....	232
Special Uses.....	235
Public Health and Safety.....	237
Economics.....	242
Other Required Analyses.....	244
CHAPTER 4 – CONSULTATION AND COORDINATION.....	249
Interdisciplinary Team Members (CNF Employees).....	249
Interdisciplinary Team Support (CNF Employees)	249
Federal, State, and Local Agencies.....	249
Tribal Governments.....	250
Others Commenters.....	250

BIBLIOGRAPHY.....	255
APPENDIX A.....	A-1
APPENDIX B.....	B-1

Tables

Table 1.1 Forest Plan Management Areas within the Malo East Lake planning area	9
Table 1.2 List of significant issues with reference to applicable analyses, design elements and measures.....	18
Table 2.1 Vegetation treatments proposed on NFS land within the Malo East Lake planning area.....	28
Table 2.2 Fuel Disposal Methods proposed for use on NFS land within the Malo East Lake planning area.....	30
Table 2.3 New Forest system road construction and units accessed in the MEL project.....	34
Table 2.4 Roads requiring reconstruction during MEL project and their current status.....	35
Table 2.5 Maintenance levels, lengths, current status, and status during the MEL project, for roads proposed for decommissioning	36
Table 2.6 Proposed Temporary Road Segments.....	36
Table 2.7 Units in Pileated Woodpecker and Pine Marten Management Requirement areas, and units in LOS outside of MR areas.	52
Table 2.8 Comparison of not conducting the project (no action) with the proposed action for the Significant Issues that formed the Malo East Lake Fuel Reduction project.....	63
Table 3.1 Past Timber harvest on NFS lands in the Malo East Lake planning area.....	73
Table 3.2 Principles and effects of fuel treatments for increasing stand resilience	89
Table 3.3 Percent of treated acres by fire regime condition class before and after treatment.....	93
Table 3.4 Comparison of existing structural stage distribution to historic range of variability.....	101
Table 3.5 Crown fire susceptibility before and after vegetation treatment.....	103
Table 3.6 Effect on distance between tree crowns cause by thinning trees to spacing between trunks of 20, 30 and 40 feet.....	105
Table 3.7 Percent of stands in the MEL planning area found to contain diseases that would be treated in the proposed action.....	108
Table 3.8 Proposed treatments in units with late and old structure.....	114
Table 3.9 Roads by jurisdiction in the MEL planning area.....	126
Table 3.10 System road construction and units accessed in the MEL project.....	127

Table 3.11 Roads requiring reconstruction during the MEL project and their current status.....	130
Table 3.12 Maintenance levels, lengths, current status, and proposed use of roads to be decommissioned after project completion.....	133
Table 3.13 Detrimental soil conditions predicted from proposed activities in the Malo East Lake Fuels Reduction Project.....	143
Table 3.14 Acres of proposed prescribed burning on sensitive soils.....	145
Table 3.15 Summary of existing watershed conditions in the Malo East Lake analysis area	151
Table 3.16 Units and acres of proposed harvest in Management Requirement. areas and available adjacent habitat not proposed for harvest.....	181
Table 3.17 Existing and potential blue grouse nesting and brood-rearing habitat in the MEL planning area.....	183
Table 3.18 Estimated area of maximum area of soil disturbance from the proposed action.....	211
Table 3.19 Known range improvements in MEL project units.....	218
Table 3.20 Management class prescriptions for heritage resources.....	233
Table 3.21 Economic Summary.....	243
