

Name: _____ Date: _____

7th Infantry Soldier Math

Code: EL1: MA

Directions: Read the story problem and refer to tables #1 and #2 to figure out the answers.

144 Men of Companies A, B, D, E, F, G, H, I, K, L and I of the 7th Infantry participated in the Battle of the Big Hole, fighting 230 Nez Perce Warriors. Use the table below to help answer the following questions.

3 Switzerland	3 Scotland
20 Ireland	4 Canada
23 Germany	12 Unknown
2 France	2 England

1. How many companies of men fought at the Big Hole?
2. Of the 144 men at the Battle of the Big Hole; how many were Americans?
 - a. How many were from foreign countries?
 - b. How many men's homelands were unknown?

Using the table below answer the following Questions:

19 year old = 3	27 year old = 10	33 year old = 1	39 year old = 1
22 year old = 1	28 year old = 11	34 year old = 3	43 year old = 1
23 year old = 11	29 year old = 12	35 year old = 1	44 year old = 1
24 year old = 13	30 year old = 12	36 year old = 6	47 year old = 1
25 year old = 14	31 year old = 5	37 year old = 4	56 year old = 1
26 year old = 9	32 year old = 5	38 year old = 1	unknown age = 13

3. What was the average age (round off) of the soldiers at the Big Hole Battle?
 - a. How old was the youngest soldier?
 - b. How many were this age?
 - c. How old was the oldest soldier?
 - d. How many soldiers did not have their ages noted?
4. How many less soldiers were there than warriors?

5. The war lasted 5 months. A private's salary amounted to \$13.00 a month. How much money did a soldier earn during the war?

6. Ammunition rounds used for target practice or hunting had to be paid for by the soldier at \$ 0.13 per shot. This came out of the soldier's monthly salary of \$13.00 per month. How many rounds could a soldier buy of ammunition with one month's salary?

a. How much would 10 rounds of ammunition cost at this rate?
