# Land and Resource Management Plan

## Fremont National Forest

**FREMONT NATIONAL FOREST: PLANNING FOR FUTURE GENERATIONS**

THIS FOREST PLAN ESTABLISHES THE MANAGEMENT  
DIRECTION FOR THE FREMONT NATIONAL FOREST FOR  
THE NEXT 10 TO 15 YEARS, AND SOONER IF THE FOREST  
SUPERVISOR DETERMINES THAT CONDITIONS OR DEMANDS  
HAVE CHANGED SIGNIFICANTLY OR IF CHANGES  
IN NATIONAL POLICIES, GOALS, OR OBJECTIVES WOULD  
HAVE A SIGNIFICANT EFFECT ON FOREST LEVEL PROGRAMS.

Land and Resource Management Plan  
for the

**FREMONT NATIONAL FOREST**

Lake and Klamath Counties, Oregon

LEAD AGENCY: USDA Forest Service

RESPONSIBLE OFFICIAL: James F. Torrence, Regional Forester  
Pacific Northwest Region

FOR FURTHER INFORMATION CONTACT: Sherman A. Radtke, Forest Planner or  
Cleon D. Puetz, Interdisciplinary Team Leader

Fremont National Forest  
524 North G Street  
Lakeview, Oregon 97630  
Telephone: (503) 947-2151

## **PREFACE**

Preparation of the Forest Plan is required by the Forest and Rangeland Renewable Resources Planning Act (RPA) as amended by the National Forest Management Act (NFMA). Regulations developed under the RPA as amended set forth the process for developing, adopting and revising land and resource management plans for the National Forest System (36 CFR 219). The Forest Plan replaces previous resource management plans prepared for the Fremont National Forest. Upon approval of the Forest Plan, subsequent activities affecting the Forest must be in compliance with the Forest Plan. In addition, permits, contracts and other instruments for the use and occupancy of National Forest System lands must be in conformance with the Forest Plan.

If any particular provision of this Forest Plan, or the application of the action to any person or circumstances, is found to be invalid, the remainder of the Forest Plan and the application of that provision to other persons or circumstances shall not be affected

Information concerning this Plan can be obtained from:

Forest Supervisor  
Fremont National Forest  
524 North G Street  
Lakeview, OR 97630

*Date Printed - April 1989*

## LIST OF TABLES

Table	Page
1. Fremont National Forest Updated Timber Inventory by Working Group and Condition Class	9
2. Major Habitat Types or Components on the Fremont National Forest and Associated Dependence of Wildlife Species (excluding fish)	15
3. Fremont National Forest Management Indicator Species/Groups	17
4. Capabilities of the Fremont National Forest to Produce Habitat for Selected Species	18
5. Summary of Projected Supply and Anticipated Demand (Annual)	22
6. Capability Areas on the Fremont National Forest	25
7. Relative Soil Fertility and Potential	25
8. Fremont National Forest Water Use	27
9. Gearhart Mountain Wilderness, Practical Maximum Capacity	31
10. Fremont National Forest Management Indicator Species/Groups	42
11. Resource Outputs and Activities for Timber	52
12. Resource Outputs and Activities for Recreation	53
13. Resource Outputs and Activities for Wildlife, Range, Wildlife, and Soil	54
14. Resource Outputs and Activities for Roads, Fire, and Economics	55
15. Resource Outputs and Activities for Lands and Minerals	56
16. Fremont National Forest Lands: Suitability and Productivity for Timber Management	59
17. Suitable Range (Except Riparian) and Allowable Use of Forage	75
18. Riparian Areas, Forage Utilization and Allowable use of Forage	76
19. Soil Potential	82
20. Soil Resource Inventory Components of Capability Areas	83
21. Mineral Soil Exposure	84
22. Watershed Impact Limits	87
23. Recommended Monthly Instream Flow for Selected Streams	90
24. Dead Trees Needed to Meet Present and Long-Term Habitat Requirements for Primary Excavators (Woodpeckers) by Timber Types	104
25. Live Trees Needed to Meet Present and Long-Term Habitat Requirements for Primary Excavators (Woodpeckers) by Timber Types	105
26. Number of One-Acre Wildlife Tree Clumps per Harvest Unit Size and Timber Type, Management Areas 1 and 5	105
27. Management Area Acreages	131
28. Additional Old Growth	137
29. Expanded Old Growth	138
30. Old-Growth Management Requirements	196
31. Riparian Areas, Forage Utilization and Allowable Use of Forage	202
32. Summary of Monitoring and Evaluation Program	214

## **LIST OF FIGURES**

<b>Figure</b>	<b>Page</b>
1. Vicinity Map of the Fremont National Forest	5
2. Timber Suitability Screen	11
3. Proportion of Fremont National Forest Soils with High, Moderate, and Low Soil Fertility	24
4. Recreation Opportunity Spectrum (ROS) Settings on the Fremont National Forest, and Recreational Use of those Settings	28
5. Existing Visual conditions of Lands on the Fremont National Forest, 1985	30
6. Display of Allowable Sale Quantity and Long-Term Sustained Yield Capacity	58
