# ANNUAL OPERATING INSTRUCTIONS (AOI'S)

## INTRODUCTION

These Annual Operating Instructions (AOI's) are in reference to the annual meeting you had with Diana Trujillo, Craig Newman, and Ezequiel Rael on January 24, 2008.

### Permitted / Authorized

Permittee Name	Permitted		Authorized *		Remarks
	#	Season	#	Season	
Jarita Mesa Livestock Grazing Association	16 bulls	5/1 – 10/31	16 bulls	5/1 – 10/31	
Gabriel J. Aldaz	7 c/c	5/1 – 10/31	7 c/c	5/1 – 10/31	
Alfonso Chacon Jr.	81 c/c	5/1 – 10/31	81 c/c	5/1 – 10/31	
Jeffrey D. Chacon	8 c/c	5/1 – 10/31	8 c/c	5/1 – 10/31	
Sebedeo R. Chacon	126 c/c	5/1 – 10/31	101 c/c	5/1 – 10/31	
Timoteo, Candelaria & Isaac Chacon	10 c/c	5/1 – 10/31	10 c/c	5/1 – 10/31	
Celina or Joseph D. Gallegos	5 c/c	5/1 – 10/31	5 c/c	5/1 – 10/31	
Isaac & Juan Giron	30 c/c	5/1 – 10/31	26 c/c	5/1 – 10/31	
Joe Gurule Jr.	3 c/c	5/1 – 10/31	3 c/c	5/1 – 10/31	
Griego Ranch c/o David, Donald & Thomas L. Griego	69 c/c	5/1 – 10/31	69 c/c	5/1 – 10/31	
Diego R. Jaramillo	26 c/c	5/1 – 10/31	26 c/c	5/1 – 10/31	
Lorenzo A. Jaramillo	40 c/c	5/1 – 10/31	40 c/c	5/1 – 10/31	
Horacio D., Ronald H., & Martin K. Martinez	11 c/c	5/1 – 10/31	11 c/c	5/1 – 10/31	
Pena Ranch c/o Bertram, Henry, Michael & Harold Pena	40 c/c	5/1 – 10/31	40 c/c	5/1 – 10/31	
Max Jr. & Stella Torrez	5 c/c	5/1 – 10/31	5 c/c	5/1 – 10/31	
Elive Valdez	30 c/c	5/1 – 10/31	30 c/c	5/1 – 10/31	
Jerry, Ernesto or Floyd Valdez	11 c/c	5/1 – 10/31	11 c/c	5/1 – 10/31	
TOTAL	518 Head	5/1-10/31	498 head	5/1 – 10/31	

Range readiness inspections will determine whether range vegetation and soils are ready for grazing. **Dates for range readiness inspections has been scheduled for April 22, 2008.**

Compliance with New Mexico Statewide Regulations, NMAC 21.30.6 Bovine Trichomoniasis (trich) effective June 17, 2005 is a term and condition of the USFS grazing permit. We ask you to comply with the Trichomoniasis regulations imposed by the State of New Mexico. We will not add any additional

regulations other than what the state requires. However you are encouraged as a grazing association to incorporate Trich Management guidelines as you see fit to regain your status as a trich free herd in the State of New Mexico. We will support your efforts and requirements to help eliminate trich in the grazing allotment.

All permittees must be in good standing with the Association and in compliance with the permit in order to let cattle onto Forest Service property.

**Nonuse of a term permit must be requested in written form for all of the permitted numbers (Total Nonuse), or part of the permitted numbers (Partial Nonuse).** Verbal applications will not be accepted. Any Non-use may be recorded as Resource Protection for the 2008 grazing season.

All livestock must be scheduled for counting prior to entering the Jarita Mesa Allotment. The El Rito range personnel must be notified 5 days prior to the time livestock enter or leave the Forest. A five-day grace period will be allowed for removal of stray(s) permitted cattle from the allotment.

If a permittee elects to request “*total nonuse*” he/she is still responsible for maintenance of assigned range improvements.

**A credit/refund application must be completed within a week after placing livestock late on the allotment or removing livestock early. A credit/refund is not automatic but must be requested in writing by the permittee(s) and approved by the District Ranger.**

### **ROTATION SCHEDULE**

Distribution of livestock is tentatively planned as follows (actual dates will be based on range readiness):

**Table 1 – Pasture Rotation**

Maton De Encino Pasture		05/01 – 06/01
Comanche/La Tetilla		05/01 – 06/30
Jarita Pasture		06/01 – 07/15
Kiowa Pasture		7/15 – 10/31

The routing schedule described above can be changed by the District Ranger when unforeseen circumstances, such as lack of water or overuse occur within the pasture. You may propose changes of pastures outside of the above routing schedule in coordination with this office. A written justification should be submitted by the permittee to this office before a proposal to change the above routing schedule will be acted upon by the District Ranger. The decision made by the District Ranger will be based upon the condition of the range, recommendations of the range staff, and the needs of the permittees. Recommendations of the New Mexico Range Improvement Task Force and Cooperative Extension Service at New Mexico State University are encouraged and will be considered by the District Ranger in making such a determination.

Total removal of all livestock from the pasture/allotment is mandatory. A five-day grace period will be allowed to remove stray(s) permitted livestock from the pasture/allotment.

**FORAGE UTILIZATION**

Forage utilization will be measured in established key areas. Proper utilization of forage is a critical factor in livestock management on the Jarita Mesa Allotment.

Within the Jarita Mesa Allotment the key forage species are:

**Table 2 – Forage Utilization Guidelines**

Pasture Name	Key Forage Species	Stubble Height
Maton de Encino, Comanche & La Tetilla Pastures	Western Wheat	4– 6”
	Blue Grama	2 – 2.5”
	Black Grama	4– 6”
	Crested Wheatgrass	4–6”
Jarita Pasture	Arizona Fescue	6 – 8”
	Kentucky Blue	4 – 6”
	Mt. Muhly	4 – 6”
Kiowa Pasture	AZ/Thurber Fescue	6 – 8”
	Kentucky Blue	4 – 6”
	Oat Grasses	8 –10”
Riparian Areas	Mt. Muhly	4 – 6”
	Red Top	4 – 6”
	Kentucky Blue	4 – 6”
	Sedges	4 – 6”

**MONITORING**

Monitoring will be conducted using a combination of monitoring techniques including, but not limited to, paired cages, photo points, Rapid Assessment Method, and permittee monitoring. Permittees are invited and encouraged to accompany Forest Service Range staff in the field while range condition evaluations are being made. **Dates for range readiness inspections have been set for April 22, 2008. Other monitoring dates are tentatively scheduled for June 10, 2008, July 15, 2008, and August 27, 2008 with others to follow.** We will be meeting at the El Rito Ranger District Office at 9:30 on each of the dates scheduled. Monitoring dates are subject to changes due to weather, fire danger, or unforeseen circumstances. Please contact Ezequiel Rael with any questions regarding monitoring. Your participation is welcome and encouraged.

Field inspections will be conducted to monitor allowable use, and movement of livestock. Both the Forest Service and the permittee are responsible for monitoring use and stubble height on the allotment to manage within specified utilization standards. Once allowable use is achieved, livestock must be

moved into the next scheduled pasture or off the allotment. The length of season depends on the intensity of management and cooperation between permittees on livestock distribution and moving from pasture to pasture.

If areas within a pasture or the pasture as a whole begin to approach the identified stubble heights, then the remaining key areas will also be monitored and the pasture inspected to determine overall use patterns. This information will be used to determine if cattle need to be re-distributed within the pasture or removed from the pasture.

Distribution patterns, range readiness, cattle numbers, forage use levels, salting practices, and condition of improvements will also be evaluated.

Distribution is the key to achieving proper livestock management on the allotment and to providing for the fullest use of the grazing season. Salt must be placed out of bottoms, away from water, roads, forest system trails, and recreational sites.

### **IMPROVEMENT MAINTENANCE**

**The following projects have been approved for completion within the next three years with the Upper Rio Vallecitos 319(h) Grant:**

- **60' x 60' corral in Cañon Plaza (Material will be ordered in Spring)**
- **300 acres of brushhogging and reseeding on the Maton de Encino Pasture**
- **New cattleguard in Dorado Canyon**

### **FENCE MAINTENANCE**

**All assigned fences and water developments must be maintained and determined to be in good functioning condition prior to the entry date.** An inspection of your allotment prior to the entry date will be made to determine if maintenance is adequate. Permittees failing to fulfill maintenance responsibilities will result in cattle not being authorized to enter the allotment.

If you have a need to cut fence stays or posts for fence maintenance you may obtain a Free Use Permit from the range personnel at the El Rito office.

### **ALLOTMENT STATUS**

At the present time direction for management on the allotment is being documented in the AOIs.

According to the Carson Forest Plan implementation schedule, an Allotment Management Plan update, developed using the National Environmental Policy Act (NEPA) process, has been scheduled for the year 2009.

Open and positive communication is encouraged. Feel free to contact the range personnel if you have any questions or problems. They will be happy to discuss allotment management, on the ground status, Forest Plan standards and guidelines, and possible changes in allotment management.

## **APPEAL STATEMENT**

This Annual Operating Instructions (AOI) is hereby made a part of your Term Grazing Permit

This decision is subject to administrative review, pursuant to 36 CFR 251; and any appeal of this decision must be fully consistent with 36 CFR 251.90. In accordance with 36 CFR 251.84, if you file an appeal, I am willing to meet with you to discuss any concerns you may have with my decision. If you file an appeal, you may request an oral presentation in the appeal or at any time prior to closing of the appeal record (36 CFR 251.97). Additionally, if you file an appeal, you may request a stay of my decision in the appeal or at any time prior to closing of the appeal record (36 CFR 251.91).

A notice of appeal must be filed with Erin Connelly, Acting Forest Supervisor, Carson National Forest, 208 Cruz Alta, Taos, New Mexico 87571, within 45 days of the date of this decision. A copy of the notice of appeal must be filed simultaneously with Diana Trujillo, District Forest Ranger, who was the deciding officer and the address for mailing the appeal copy is P. O. Box 56, El Rito, New Mexico 87530.

I would appreciate if you contact me and together we can try to resolve disagreements before you file any Notice of Appeal. I value your experience and knowledge of the allotment. If we cannot reach an agreement, you may exercise your appeal rights. This will insure that we both understand the reasons for each other's position regarding any issues. I look forward to working with you this season. I am confident that together we will work effectively to manage the range resources in a manner that reflects good stewardship for the land and cattle alike.
