Date

Annual Operating Instructions (AOI's)

INTRODUCTION

This AOI is in reference to the discussion you had with Ezequiel Rael, Craig Newman and Diana Trujillo on January 29, 2007. The authorized eartag color is "orange". The authorized use for the 2007 Grazing Season on the Escondido Allotment is as follows:

Table 1 – Permittee Information and Season of Use

Permittee Name	Permitted		Authorized		Eartag #	Remarks
	#	Season	#	Season		
Griego Ranch	71 c/c	5/23 – 10/15	71 c/c	5/23 – 10/15	1 - 71	

Range readiness inspections will determine whether range vegetation and soils are ready for grazing.

Compliance with New Mexico Statewide Regulations, NMAC 21.30.6 Bovine Trichomoniasis, effective June 17, 2005 hereby becomes a term and condition of the USFS grazing permit. We ask you to comply with the Trichomoniasis regulations imposed by the State of New Mexico. We will not add any additional regulations other than what the state requires.

All livestock must be scheduled for counting prior to entering the Escondido Allotment. El Rito district range personnel must be notified 5 days prior to the time livestock enter or leave the Forest.

Nonuse applies only to animal numbers. Nonuse of a term permit must be requested in written form for all of the permitted numbers (*Total Nonuse*), or part of the permitted numbers (*Partial Nonuse*). Verbal applications will not be accepted. If a permittee elects to request "total nonuse" he/she is still responsible for maintenance of assigned range improvements.

A credit/refund application must be completed within a week after placing livestock late on the allotment or removing livestock early. A credit/refund is not automatic but must be requested in writing by the permittee(s) and approved by the District Ranger.

ROTATION SCHEDULE

Initial distribution of your livestock is tentatively planned as follows (**actual dates will be based on range readiness**):

Table 2 - Rotation Schedule:

Lower Pasture	71 Head of Cattle	5/23 – 6/15
Felipito Pasture	71 Head of Cattle	6/16 – 9/26
Upper Pasture	71 Head of Cattle	9/27 – 10/15

FORAGE UTILIZATION

Forage Utilization will be measured in key areas. Proper utilization of forage is a critical factor in livestock management on the Escondido Allotment. Monitoring will be conducted using a combination of monitoring techniques including, but not limited to, paired cages, photo points, Rapid Assessment Method, and permittee monitoring. Permittees are invited and encouraged to accompany Forest Service Range staff in the field while range condition evaluations are being made.

Table 3 - Key Forage Species:

Pasture Name	Key Forage Species	Stubble Height
Lower/Upper Pasture	Arizona Fescue	6 – 8”
	Kentucky Blue	4 – 6”
	Mt. Muhly	4 – 6”
Felipito	AZ / Thurber Fescue	6 – 8”
	Kentucky Blue	4 – 6”
	Oat Grasses	8 – 10”
	Mt. Muhly	4 – 6”
Riparian Areas	Red Top	4 – 6”
	Kentucky Blue	4 – 6”
	Sedges	4 – 6”

Total removal of all livestock from the pasture/allotment is encouraged. A five day grace period will be allowed to remove stray(s) permitted livestock from the allotment.

Regular herding and riding practices are the key to achieving proper livestock distribution on the allotment, and to provide for the fullest use of the grazing season. Salt must be placed out of bottoms, away from water, roads, forest system trails, and recreational sites.

IMPROVEMENTS

The following projects have been scheduled for implementation with funding from the Upper Rio Vallecitos 319 grant:

- Two earthen tanks – pending wildlife clearance. Need to get contractor bids.
- 60’x60’ pipe corral – will order material in Spring, 2007.

It is important that you inspect and maintain the assigned fences and water developments in the “*entry pasture*” to a good functioning condition prior to the entry date. All other pasture fences and waters must be maintained prior to livestock movement into the next scheduled pasture(s).

In the event these improvements cannot be brought up to standard, you should notify the range personnel so we can schedule them for reconstruction as funds become available. An inspection of your allotment prior to the entry date will be made to determine if maintenance is adequate.

If you have a need to cut fence stays or posts while you are maintaining your fences on your allotment,

you can get authorization to cut these materials by obtaining a Free Use Permit from the range personnel at the El Rito office.

TRESPASS AND UNAUTHORIZED USE

Notify the El Rito Ranger District of any known violation. Grazing permit holders who put on more livestock than authorized will be served with a notice of non-compliance, charged an unauthorized grazing fee, and face possible suspension/cancellation of all or part of their permit. Permittees are encouraged to report all trespass to the District range personnel.

ALLOTMENT STATUS

At the present time direction for management on the allotment is being documented in this AOI.

According to the Carson Forest Plan implementation schedule, an Allotment Management Plan update, developed using the National Environmental Policy Act (NEPA) process, is scheduled for completion in 2007.

Open and positive communication is encouraged. Feel free to contact the range personnel if you have any questions or problems. They will be happy to discuss allotment management, on the ground status, Forest Plan standards and guidelines, and possible changes in allotment management.

APPEAL STATEMENT

This AOI is hereby made a part of your Term Grazing Permit

This decision is subject to administrative review, pursuant to 36 CFR 251; and any appeal of this decision must be fully consistent with 36 CFR 251.90. In accordance with 36 CFR 251.84, if you file an appeal, I am willing to meet with you to discuss any concerns you may have with my decision. If you file an appeal, you may request an oral presentation in the appeal or at any time prior to closing of the appeal record (36 CFR 251.97). Additionally, if you file an appeal, you may request a stay of my decision in the appeal or at any time prior to closing of the appeal record (36 CFR 251.91).

A notice of appeal must be filed with the Martin Chavez, Forest Supervisor, Carson National Forest, 208 Cruz Alta, Taos, New Mexico 87571, within 45 days of the date of this decision. A copy of the notice of appeal must be filed simultaneously with Diana Trujillo, District Forest Ranger, who was the deciding officer and the address for mailing the appeal copy is P. O. Box 56, El Rito, New Mexico 87530.

I will appreciate if you contact me and together we can try to resolve disagreements before you file any Notice of Appeal. I value your experience and knowledge of the allotment. If we cannot reach an agreement, you may exercise your appeal rights. This will insure that we both understand the reasons for each others position regarding any issues. I look forward to working with you this season. I am confident that together we will work effectively to manage the range resources in a manner that reflects good stewardship for the land and cattle alike.
