

Van Vleck Bunkhouse

Eldorado National Forest

Pacific Ranger District

Built in 1957, Van Vleck Bunkhouse sits nestled in a red fir forest on the edge of a meadow near the Tells Creek Trailhead into the Desolation Wilderness and offers a spectacular view of Tells Peak. The bunkhouse is the last remnant of the Van Vleck Ranch site, which was operated as a cattle ranch from the 1860's to the 1960's. Popular activities include hiking, backpacking, bird watching, fishing, mountain biking, horseback riding, backcountry skiing and snowshoeing.

Important

Although available for rent in the summer and winter, only hardy, self-sufficient adventurers looking for a remote backcountry experience should rent in the winter. Winter conditions can occur from September thru June and may provide visitors with challenging weather in addition to affecting access and amenities. There is no vehicle access to the cabin in the winter.

Renters must contact the PLACERVILLE Ranger District at (530) 644-2324 to arrange for the permit, access, and current conditions.

Amenities: This rustic Bunkhouse has one bedroom, one bathroom and a living room/ kitchen combination with a small deck outside. *Do not expect hotel luxuries.*

Parking: 6 car maximum. RVs and trailers are not recommended due to limited space for parking and turn around. No vehicle access in the winter.

Sleeping: Queen bed and bunk bed in bedroom. Bunk bed and sleeper sofa in living room.

Heat & Lights: Propane fireplace with thermostat. Propane lights. **No electricity.**

Cooking: Propane oven and cook top. Dishes, pots, and pans. Refrigerator in the summer.

Water: During the summer the bunkhouse is supplied with tested well water. Hot water and shower available in the summer. Please conserve water as the supply is limited and can run out during dry periods.

Due to freezing temperatures, the water system is shut down during the winter. Melt and boil snow for water during winter months.

Location and Access

The Bunkhouse, situated at 6,549 feet above sea level, offers extremely different recreational experiences between summer and winter use.

Summer Season directions (July through September)— Summer access is generally by paved road except for the last 0.5 mile which is a dirt road. To reach the bunkhouse:

- Highway 50 east 21 miles from Placerville (8.5 miles east of Pollock Pines).
- Left on Ice House Road north 23 miles.
- Right on Cheese Camp Road (13N22) 4 miles to fork in the road. Stay right for 1.5 miles to left turn at locked gate.
- The Bunkhouse is a half-mile past the gate on the left side.

Winter Season directions (January thru April). When snow covers the Sierra, the Van Vleck Bunkhouse can only be accessed by a challenging 6 mile long ski/snowshoe trail through the backcountry marked by blue diamonds. To reach the trailhead at Loon Lake:

- Highway 50 east 21 miles from Placerville (8.5 miles east of Pollock Pines).
- Left on Ice House Road north 28 miles taking the right fork to Loon Lake.
- Continue 5 miles on Ice House Road to the plowed trailhead parking area on the right at the turnoff to the Loon Lake Campground. Do not obstruct traffic or snowplows on Ice House road.

Important!

- ❖ Winter use is recommended for intermediate ability level or better skiers/snowshoers in excellent physical condition who are skilled in winter backcountry survival including navigation by map and compass or GPS.
- ❖ **Depending on terrain conditions, the trip can take between 3 to 7 hours from trailhead to Bunkhouse. Depart from the trailhead no later than 10:00 a.m.**
- ❖ **In Winter, be prepared to bivouac overnight in the snow in the event of an emergency. Skiers will need climbing skins.**
- ❖ One emergency shelter is available along the trail, approximately two miles from the trailhead, if needed, to take refuge from bad weather or as a rest stop.
- ❖ The summer route is not recommended for winter access as the road and turnoffs are not marked with diamonds.
- ❖ Vehicles are not allowed beyond the **gravel parking surface at the Bunkhouse.**

Road and Trail Conditions

Due to the remoteness of this area, you should be alert to changing weather, road and trail conditions. Call the Pacific Ranger Station **before leaving home** for a current report.

Winter drastically changes the complexion of the Sierra Nevada and the Crystal Basin is no exception. Snow depths from a single storm can exceed two feet. Breaking trail on skis or snowshoes in deep snow conditions can be exhausting and roads can become impassable to all vehicles including 4WD. Be prepared to postpone your trip in the event of a storm rather than subject your group to unnecessary risk.

Roads are often icy and snow plowing is done on an intermittent basis by the Sacramento Municipal Utility District (SMUD). Ice House Road may not be plowed on weekends or holidays.

All vehicles including 4WD should carry chains and be serviced for cold temperatures. In the event that a storm could snow you in, be prepared to stay until the road is plowed. Carry a snow shovel to dig your vehicle out. Cell phone reception is unreliable in this area.
