Things You Should Know

- ◆ CAUTION: There are bears in the area. Please keep all foods, soaps, and garbage properly stored.
- ◆ Please keep family pets on a leash at all times.
- ◆ Use the grill or fire ring provided and make sure your fire is dead out before leaving. Use only water, not soil. Use only dead and down wood for your campfires.
- ◆ Check ahead. Campfires may not be allowed during fire restrictions.

Human Waste

- ◆ Proper disposal of human waste is important. Leaving human waste in camping areas can spread disease, lead to contaminated water supplies, contaminate soils, attract wildlife, and spoil a camping area.
- ◆ Portable eco-friendly human waste disposal systems which allow you to safely "Pack It Out" are commercially available and recommended.
- ◆ As a last resort, choose a spot at least 200' away from water sources and campsites, dig a small hole at least six inches deep, and cover it when you are through. Seal your toilet paper in a bag, pack it out, and dispose of it properly.

◆ Keep in mind that the granite landscape in this popular area provides few spots to bury your human waste.
