

Material Safety Data Sheet

PRONONE® 10G / PRONONE® MG
EPA Reg. No. 33560-21

MSDS No. PSI-001
Date of Preparation: Nov. 1999

Section 1 - Chemical Product and Company Identification

Product/Chemical Name: PRONONE® 10G / PRONONE® MG

Chemical Formula: N/A

Emergency Contact: 901-332-7052

Transportation Emergency Contact: CHEMTREC: 1-800-424-9300

Manufacturer: Pro-Serve, Inc., 3390 Winbrook Dr., Memphis, TN 38116, Ph. (901) 332-7052, Fax (901) 346-7157

Section 2 - Composition / Information on Ingredients

Ingredient Name	CAS Number
Hexazinone Technical	51235-04-2
Velpar 2L	51235-04-2
Pluronic L61	9003-11-6

Ingredient	OSHA PEL		ACGIH TLV	
	TWA	STEL	TWA	STEL
Hexazinone Technical	15 mg/m ³ 8 hr.	None est.	None est.	None est.
Velpar 2L	10,000 ppm 1,900mg/m ³	None est.	None est.	None est.
Pluronic L61	None est.	None est.	None est.	None est.

Section 3 - Hazards Identification

☆☆☆☆☆ Emergency Overview ☆☆☆☆☆

Potential Health Effects

CAUTION! May irritate eyes, throat, or skin

Carcinogenicity: IARC, NTP, and OSHA do not list PRONONE® 10G / PRONONE® MG as a carcinogen.

HMIS

H 2

F 1

R 0

PPET†

†Sec. 8

Section 4 - First Aid Measures

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

Skin Contact: In case of contact, immediately wash skin with soap and water. Wash contaminated clothing before reuse.

Ingestion: If swallowed, immediately give 2 glasses of water and induce vomiting. Never give anything by mouth to an unconscious person. Call a physician.

Section 5 - Fire-Fighting Measures

Flash Point: None established.

Flammability Classification: None

Extinguishing Media: On small fires, use dry chemical CO₂, foam or water spray. If areas is heavily exposed to fire and if conditions permit, let fire burn itself out since water may increase the contamination hazard. Otherwise, use water spray.

Fire-Fighting Instructions: Do not release runoff from fire control methods to sewers or waterways.

Fire-Fighting Equipment: Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full facepiece operated in pressure-demand or positive-pressure mode.

Section 6 - Accidental Release Measures

Spill /Leak Procedures: Shovel or sweep up. If exposed to rain, contain and prevent run-off. Do not contaminate any body of water.

Containment: For large spills, dike far ahead of liquid spill for later disposal. Do not release into sewers or waterways.

Regulatory Requirements: Follow applicable OSHA regulations (29 CFR 1910.120).

Section 7 - Handling and Storage

Handling Precautions: Do not get in eyes. Avoid contact with skin. Avoid contact with clothing. Wash clothing after use.

Storage Requirements: Keep container in a cool, dry place. Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material.

Section 8 - Exposure Controls / Personal Protection

Ventilation: Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs (Sec. 2). Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

Respiratory Protection: Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear an MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. For emergency or non-routine operations (cleaning spills, reactor vessels, or storage tanks), wear an SCBA. **Warning! Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.** If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit testing, periodic environmental monitoring, maintenance, inspection, cleaning, and convenient, sanitary storage areas.

Protective Clothing/Equipment: Wear chemically protective gloves, boots, aprons, and gauntlets to prevent prolonged or repeated skin contact. Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Contaminated Equipment: Separate contaminated work clothes from street clothes. Launder before reuse. Remove this material from your shoes and clean personal protective equipment.

Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

Section 9 - Physical and Chemical Properties

Physical State: Stable solid

Appearance and Odor: Tan irregular shaped granules

Odor Threshold: N/A

Vapor Pressure: N/A

Vapor Density (Air=1): N/A

Formula Weight: N/A

Density: 35-40 lb./ft³

Specific Gravity (H₂O=1, at 4 °C): N/A

Particle Size: 10G; 1/8" to 1/4"

Other Solubilities: N/A

Water Solubility: N/A

Boiling Point: N/A

Freezing/Melting Point: N/A

Viscosity: N/A

Refractive Index: N/A

Surface Tension: N/A

% Volatile: N/A

Particle Size: MG; 1/16" to 1/8"

Section 10 - Stability and Reactivity

Stability: PRONONE® 10G / PRONONE® MG is stable at room temperature in closed containers under normal storage and handling conditions.

Polymerization: Hazardous polymerization cannot occur.

Section 11 - Toxicological Information

Toxicity Data:*

Acute Oral Effects: Rat, oral, LD₅₀:>5,000 mg/kg

Acute Dermal Effects: Rabbit, LD₅₀:>2,500 mg/kg

Carcinogenicity: None of the components present in this material at concentrations equal or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen

Eye: The technical material produced mild to moderate corneal cloudiness with transient severe conjunctivitis and moderate iritis in unwashed rabbit eyes.

Section 12 - Ecological Information

Aquatic Toxicity: 96 hour LC₅₀, Rainbow Trout: >320 ppm (technical).

Section 13 - Disposal Considerations

Disposal: Treatment, storage, transportation and disposal must be in accordance with applicable Federal, State/Provincial, and Local regulations. Remove non-usable solid material and/or contaminated soil, for disposal in an approved and permitted landfill.

Container Cleaning and Disposal: Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then, dispose of bags in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Section 14 - Transport Information

DOT Transportation Data (49 CFR 172.101):

Not regulated by D.O.T.

Section 15 - Regulatory Information

EPA Regulations: RCRA Hazardous Waste Number: Not listed (40 CFR 261.33)

RCRA Hazardous Waste Classification (40 CFR 261.33): Not classified

CERCLA Hazardous Substance (40 CFR 302.4 unlisted specific per RCRA, Sec. 3001; CWA, Sec. 311 (b)(4); CWA, Sec. 307(a), CAA, Sec. 112

SARA 311/312 Codes:

SARA Toxic Chemical (40 CFR 372.65): Not listed

SARA EHS (Extremely Hazardous Substance) (40 CFR 355): Not listed, Threshold Planning Quantity (TPQ)

OSHA Regulations:

Air Contaminant (29 CFR 1910.1000, Table Z-1, Z-1-A): Not listed

U.S. Federal Regulations:

Title III Hazard Classifications Sections 311, 312:

Acute Yes

Chronic No

Fire No

Reactivity No

Pressure No
