

Apache-Sitgreaves National Forests
FS Employee Meetings - Second Round Results
"DOTS"EXERCISE SORTED

1/19/07 - 2/21/07

Clifton Ranger District		Alpine Ranger District		Lakeside Ranger District		Supervisor's Office		Black Mesa Ranger District		Springerville Ranger District	
Prescribed and natural fire	10	Build up of fuels/potential fire threat	13	Amount of law enforcement	8	Forest is too thick and overgrown	25	Prescribed and natural fire	13	Existing roads may be closed	15
Wildlife and habitat	8	Prescribed and natural fire	13	Garbage and littering	8	Amount of law enforcement	19	Thinning	13	Prescribed and natural fire	13
Amount of law enforcement	6	Forest is too thick and overgrown	11	Consider cultural, historic, and prehistoric resources	7	Build up of fuels/potential fire threat	18	Amount of roads	12	Forest is too thick and overgrown	12
Forest is too thick and overgrown	5	Small sales program and logging/timber sales	8	Prescribed and natural fire	6	Riparian Management	16	Forest is too thick and overgrown	11	Amount of law enforcement	12
OHV use	5	Multiple use management	8	Fire protection and fuels treatment around communities	6	Small sales program and logging/timber sales	11	Effects of OHV use	11	Thinning	10
Grazing suitability/livestock capacity	5	Forests' contribution to the local economy	6	OHV use	6	Effects of OHV use	11	Build up of fuels/potential fire threat	9	Effects on water rights	10
Effects of livestock	5	Amount of law enforcement	6	Firewood gathering.	5	Prescribed and natural fire	9	Firewood gathering.	7	Build up of fuels/potential fire threat	9
Build up of fuels/potential fire threat	4	Outreach and Education.	5	Increasing population and demand	5	Closed roads and closure devices	9	Riparian Management	7	Consider cultural, historic, and prehistoric resources	9
Retain access for various uses	4	Laws (NEPA, ESA) & other mandates affect FS ability to manage	5	Build up of fuels/potential fire threat	4	Forests' contribution to the local economy	8	Forests' contribution to the local economy	6	Firewood gathering.	8
Firewood gathering.	4	OHV use	5	Closed roads and closure devices	4	Salvage dead and dying trees (spruce, etc).	8	Loss of grasslands	6	OHV use	8
Supplement law enforcement	4	Maintenance of transportation system	5	Stewardship projects	4	Outreach and Education.	8	Amount of law enforcement	5	Closed roads and closure devices	7
Multiple use management	4	Diminished vehicle access to the Forest	4	Outreach and Education.	4	Multiple use management	8	Vegetative compositions/structures	5	Effects of OHV use	7
Riparian Management	4	FS management approaches (decisions, management styles, priorities, FS personnel actions, etc)	4	Land exchanges	4	Increasing population and demand	7	Close Forest sooner during high fire danger	4	Riparian Management	7
Thinning	4	Motorized opportunities	4	Effects of OHV use	4	Fire protection and fuels treatment around communities	6	Small sales program and logging/timber sales	4	People coming to the area cause "problems".	7
T&E (threatened and endangered) species	4	T&E (threatened and endangered) species	4	Wildlife and habitat	4	Loss of grasslands	6	Outreach and Education.	4	Salvage dead and dying trees (spruce, etc).	5
Forests' contribution to the local economy	3	Wildlife and habitat	4	Close Forest sooner during high fire danger	3	Firewood gathering.	6	Multiple use management	4	Blue Primitive Area	5
Wildlife habitat closure areas	3	Fire protection and fuels treatment around communities	3	Forest is too thick and overgrown	3	Grazing suitability/livestock capacity	6	Retain access for various uses	3	Maintenance of transportation system	5
Loss of grasslands	3	Retain access for various uses	3	Condition of recreation facilities	3	Noxious and invasive weeds	5	Maps and information regarding camping areas.	3	Wildlife and habitat	5
Non-motorized trails.	3	Firewood gathering.	3	Amount of roads	3	Consider cultural, historic, and prehistoric resources	5	Monitoring	3	Small sales program and logging/timber sales	4
Allotment management	3	Salvage dead and dying trees (spruce, etc).	3	Forest improvements (fence, roads, etc.)	2	Condition of recreation facilities	5	Climate & drought	2	Retain access for various uses	3
Blue Primitive Area	3	Dispersed camping opportunities	3	Diminished vehicle access to the Forest	2	Maintenance of transportation system	5	Insects and disease	2	Insects and disease	3

Fire protection and fuels treatment around communities	2	undisturbed/undeveloped areas, shooting areas, watchable wildlife, scenic byway, adopt-a-trail	3	Loss of grasslands	2	T&E (threatened and endangered) species	5	Sustainable woody biomass	2	Laws (NEPA, ESA) & other mandates affect FS ability to manage	3
Fragmentation	2	Effects of OHV use	3	Small sales program and logging/timber sales	2	Wildlife and habitat	5	Stewardship projects	2	Garbage and littering	3
Salvage dead and dying trees (spruce, etc).	2	OHV opportunities	3	Laws (NEPA, ESA) & other mandates affect FS ability to manage	2	Diminished vehicle access to the Forest	4	Outdoor Recreation	2	Land exchanges	3
Sustainable woody biomass	2	Riparian Management	3	FS personnel in/on the Forest	2	Climate & drought	4	Condition of recreation facilities	2	Effects of recreation on other resources	3
Small sales program and logging/timber sales	2	Grazing and the ranching lifestyle	3	Public involvement	2	Species mortality (aspen, etc.)	4	Dispersed camping opportunities	2	Forest threats (mistletoe, fire, etc.)	2
Public involvement	2	Blue Primitive Area	3	Multiple use management	2	Laws (NEPA, ESA) & other mandates affect FS ability to manage	4	Assessments and research	2	Forests' contribution to the local economy	2
Volunteers and partnerships	2	Thinning	3	No-fee campgrounds.	2	Effects of recreation on other resources	4	Grazing and the ranching lifestyle	2	Fire protection and fuels treatment around communities	2
Consider cultural, historic, and prehistoric resources	2	Closed roads and closure devices	2	Monitoring	2	Dispersed camping opportunities	4	Wild & scenic rivers	2	Protect vs. do not protect structures	2
Laws (NEPA, ESA) & other mandates affect FS ability to manage	2	Access for persons with disabilities	2	Riparian Management	2	OHV use	4	Increasing population and demand	2	Loss of grasslands	2
Condition of recreation facilities	2	Loss of grasslands	2	Effects of livestock	2	Effects of livestock	4	Wildlife and habitat	2	Noxious and invasive weeds	2
undisturbed/undeveloped areas, shooting areas, watchable wildlife, scenic byway, adopt-a-trail	2	Insects and disease	2	Wilderness	2	Blue Primitive Area	4	Forest improvements (fence, roads, etc.)	1	Recreation sites managed by concessionaire	2
Effects of other management actions on hunting and fishing.	2	Noxious and invasive weeds	2	Inventory and map of transportation system	2	Amount of roads	4	Forest Access	1	Developed recreation facilities (campsites, boating sites)	2
Effects of OHV use	2	Species mortality (aspen, etc.)	2	Vegetative compositions/structures	2	Retain access for various uses	3	Closed roads and closure devices	1	Dispersed camping opportunities	2
OHV opportunities	2	Sustainable woody biomass	2	Climate & drought	1	Stewardship projects	3	Wildlife habitat closure areas	1	Monitoring	2
Increasing population and demand	2	Stewardship projects	2	Fragmentation	1	Developed recreation facilities (campsites, boating sites)	3	Noxious and invasive weeds	1	Grazing suitability/livestock capacity	2
Motorized opportunities	2	Consult/coordinate with local, State, and Federal agencies and organizations	2	Species mortality (aspen, etc.)	1	Effects of other management actions on dispersed camping.	3	Species mortality (aspen, etc.)	1	Wilderness	2
Effects related to transportation system	2	Public involvement	2	Salvage dead and dying trees (spruce, etc).	1	Non-motorized trails.	3	Salvage dead and dying trees (spruce, etc).	1	Forest products	1
Effects on water rights	2	Recreation sites managed by concessionaire	2	Laws (NEPA, ESA) & other mandates affect FS ability to manage	1	Traditional use and culture	3	Supplement law enforcement	1	Close Forest sooner during high fire danger	1
American Indian Rights & Inte	1	Effects of other management actions on hunting and fishing.	2	Developed recreation facilities (campsites, boating sites)	1	Inventory and map of transportation system	3	Laws (NEPA, ESA) & other mandates affect FS ability to manage	1	Access for persons with disabilities	1
Forest users (horn hunters, poachers, etc.)	1	Grazing suitability/livestock capacity	2	Effects of recreation on other resources	1	Effects related to transportation system	3	Effects of recreation on other resources	1	Fragmentation	1
Economic effects in plan analyses and monitoring	1	Allotment management	2	Maps and information regarding camping areas.	1	Effects on water rights	3	No-fee campgrounds.	1	Stewardship projects	1
Protect vs. do not protect structures	1	Increasing population and demand	2	Effects of other management actions on game retrieval.	1	Protect vs. do not protect structures	2	Effects of other management actions on game retrieval.	1	Outreach and Education.	1

Access for persons with disabilities	1	People coming to the area cause "problems".	2	undisturbed/undeveloped areas, shooting areas, watchable wildlife, scenic byway, adopt-a-trail	1	Close Forest sooner during high fire danger	2	undisturbed/undeveloped areas, shooting areas, watchable wildlife, scenic byway, adopt-a-trail	1	FS personnel in/on the Forest	1
Climate & drought	1	Existing roads may be closed	2	Effects of other management actions on hunting and fishing.	1	Sustainable woody biomass	2	Non-motorized trails.	1	Focus law enforcement on violators	1
Stewardship projects	1	Inventory and map of transportation system	2	OHV opportunities	1	FS personnel in/on the Forest	2	OHV opportunities	1	Laws (NEPA, ESA) & other mandates affect FS ability to manage	1
Outreach and Education. Laws (NEPA, ESA) & other mandates affect FS ability to manage	1	Fisheries	2	Existing roads may be closed	1	Garbage and littering	2	Grazing suitability/livestock capacity	1	Multiple use management	1
FS personnel in/on the Forest	1	Wildlife habitat closure areas	1	Maintenance of transportation system	1	Maps and information regarding camping areas.	2	Effects of livestock	1	Special use administration	1
Conflicts when multiple use is practiced	1	Climate & drought	1	Effects related to transportation system	1	Grazing and the ranching lifestyle	2	Roadless Areas	1	Condition of recreation facilities	1
Land exchanges	1	Volunteers and partnerships	1	Thinning	1	Wilderness	2	Traditional use and culture	1	No-fee campgrounds.	1
Special use administration	1	Garbage and littering	1	T&E (threatened and endangered) species	1	People coming to the area cause "problems".	2	Motorized opportunities	1	undisturbed/undeveloped areas, shooting areas, watchable wildlife, scenic byway, adopt-a-trail	1
Special use needs	1	Focus law enforcement on violators	1	Fisheries	1	Existing roads may be closed	2	Maintenance of transportation system	1	OHV opportunities	1
Maps and information regarding camping areas.	1	Special use administration	1			Thinning	2	Inventory and map of transportation system	1	Assessments and research	1
Dispersed camping opportunities	1	Condition of recreation facilities	1			Fisheries	2	Wildlife habitat closure areas	1	Effects of livestock	1
Effects of other management actions on dispersed camping.	1	Non-motorized trails.	1			Forest threats (mistletoe, fire, etc.)	1			Grazing and the ranching lifestyle	1
Effects of other management actions on game retrieval.	1	Monitoring	1			Forest users (horn hunters, poachers, etc.)	1			Wild & scenic rivers	1
Monitoring	1	Effects of livestock	1			Wildlife habitat closure areas	1			Increasing population and demand	1
Forest Plan Revision process	1	Roadless Areas	1			Fragmentation	1			Traditional use and culture	1
Grazing and the ranching lifestyle	1	Wilderness	1			Insects and disease	1			Inventory and map of transportation system	1
Roadless Areas	1	Wild & scenic rivers	1			Laws (NEPA, ESA) & other mandates affect FS ability to manage	1			T&E (threatened and endangered) species	1
Wilderness	1	Traditional use and culture	1			Focus law enforcement on violators	1				
Traditional use and culture	1	Amount of roads	1			Conflicts when multiple use is practiced	1				
Amount of roads	1	Effects related to transportation system	1			Land exchanges	1				
Vegetative compositions/structures	1	Vegetative compositions/structures	1			Special use administration	1				
Fisheries	1	Effects on water rights	1			Effects of other management actions on game retrieval.	1				
Wildlife habitat closure areas	1					undisturbed/undeveloped areas, shooting areas, watchable wildlife, scenic byway, adopt-a-trail	1				
						Assessments and research	1				
						Allotment management	1				
						Roadless Areas	1				

Wild & scenic rivers	1
Motorized opportunities	1
Not allowing fires to burn	1
