Marinel J. Poppie

Dear Mrs Poppie,

This letter serves as your March 1, 2003 to February 28, 2004 Annual Operating Instructions.

Allotment: Roberts Park

Permittee: Marinel J. Poppie

Permitted Numbers:

300 Cattle (cow/calf) 3/1/03-2/28/04

8 Horses (saddle) 3/1/03-2/28/04

1. **Grazing System:** Yearlong Pasture Rotation

2. **Authorization:** (From Bill for Collection)

Permittee	Number and class	Dates Authorized
Marinel J. Poppie	300 Cattle (cow/calf)	3/1/03-2/28/04
	8 Horses (pack/saddle)	3/1/03-2/28/04

3. **Management System:** If forage is available, livestock are scheduled to graze the following in 2003:

Pasture	Timeframe	Comments/Descriptions
Frisco	2/1/03-4/30/03	
Cabin, Fox and Beaver	5/1/03-10/31/03	Water dependant, Cabin pasture if in drought conditions
Roberts Park	11/1/03-1/31/04	
Frisco	2/1/04-4/30/04	
River Pasture	Rested 3/1/03-2/28/04	

Timeframes are estimates, utilization standards being met should supersede dates when use standards are met for a given pasture.

4. **Special Instructions:**

- a) Stock tanks must be surveyed for possible aquatic habitat and archeological concerns before maintenance cleaning is authorized. We should plan ahead for these surveys.
- b) Ongoing grazing consultation for the Chiricahua Leopard Frog is in progress.
- c) Salt or mineral blocks should not be placed within a quarter mile of water and ideally no closer than one-half mile. Salting is not authorized on any watering locations. Place blocks in lightly used areas until allowable forage use is achieved and then move them to the next least utilized area. Blocks should not be placed in meadow bottoms or near roads. Do not place block in the same area used in previous years and finally, put them on hard ground not susceptible to erosion.
- d) The Roberts Park Allotment is scheduled for NEPA in 2003. We will contact you when the process begins.
- e) Any changes made in this plan because of any of the above will be made in cooperation with the District Range Staff and approved prior to the change by the District Ranger. The permittee will give the District at least Five-day notice of an anticipated change.

5. Utilization Standards and Monitoring:

Allowable use is the percentage of use that will be allowed on key grass and browse species. This use will be measured in the key monitoring areas shown below for the Roberts Park Allotment. Adherence to utilization levels *is mandatory and should be the limiting factor* in adjusting grazing management. Adjustments in numbers, rotation schedule, or season of use will be made if allowable use standards are met. Livestock will be moved to the next scheduled pasture or off the allotment when these forage utilization standards are met. The option to return livestock to a pasture that has received adequate plant re-growth will be considered if all resource objectives can be met.

The maximum allowable use levels set for the Roberts Park Allotment will be **35%** (2.5 inch average stubble height on Blue grama grass) during the growing season from May 1 through Sept 30. The maximum allowable use levels during the dormant season from October 1 through April 30 will be **40%** (2 inch average stubble height on Blue grama grass). Use of browse is not to exceed the **50%** level. Use levels will be monitored in the following areas:

Key Monitoring Areas

Area	Important Plant Species	Comments/Descriptions
C1,C4 7 C9 Frisco Pasture	Blue Grama	
C1,C4 & C5 Robert's Park	Blue Grama	
C3 Cabin Pasture	Blue Grama	
C1 Horse Pasture	Blue Grama	
C2, C4 & C6 Fox Pasture	Blue Grama	
C3, C5 Beaver Pasture	Blue Grama	

6. Range Improvements:

a) Fences: Proper maintenance of fences will help ensure they will hold livestock in a pasture and will extend their useful life. Fences in need of reconstruction will be inventoried and prioritized by the District for reconstruction. Please let us know if any other fences than the above described are beyond reasonable repair and are in need of reconstruction.

Permit-Modification	Unit	Completed by date:	Status
None			

b) Water: Stock water is important for proper livestock distribution. If natural water is not available to achieve good distribution, it may be necessary to haul water. In addition, maintenance of pipelines, troughs, spring boxes, and dirt tanks will help provide water throughout the year. If any of these improvements need repair work, you are authorized to do so, unless it requires ground disturbance, such as dirt tank cleaning. Advance planning is needed for authorizing tank cleaning so surveys can be scheduled during the summer months. If the pipelines and troughs are beyond reasonable repair, we are willing to work with you to replace them. Please protect natural springs and areas with riparian type vegetation. Drainage bottoms, creeks, springs, and cienegas where water is available are most susceptible to livestock concentrations.

7.

The Annual Operating Plan/Instructions are a part of the Term Grazing Permit as provided for in Part 3, Section 8. It complies with the standards and guidelines found in the Forest Plan including the 1996 Forest Plan Amendment. It also complies with the Endangered Species Act as found in the Biological Assessment for the Roberts Park Allotment. Any additional information collected during the year may be incorporated into the annual operating instructions.

This decision is subject to administrative review, pursuant to 36 CFR 251; and any appeal of this decision must be fully consistent with 36 CFR 251.90 (see enclosed copy of 36 CFR 251 regulations). In accordance with 36 CFR 251.84, if you file an appeal, I am willing to meet with you to discuss any concerns you may have with my decision. If you file an appeal, you may request an oral presentation in the appeal or at any time prior to closing of the appeal record (36 CFR 251.97). Additionally, if you file an appeal, you may request a stay of my decision in the appeal or at any time prior to closing of the appeal record (36 CFR 251.91).

A notice of appeal must be filed with Marcia R. Andre, Forest Supervisor, Gila National Forest, 3005 E. Camino del Bosque, Silver City, New Mexico, 88061-7863, within 45 days of
