

Annual Operating Instructions (AOI)

Allotments: Apache Canyon
Permittee: Darrell L. and Carolyn D. Julian
Permit Number: 61232

1. **Authorization:** Authorized to graze the following in 2006:

Authorized	From	To	Allotment
80 cow/calf	3/1/06	6/30/06	Apache Canyon
80 cow/calf	12/1/06	2/28/07	Apache Canyon

2. **Management:**

Apache Canyon 2006 Pasture Rotation:

Pasture	Time Frame
Wilson Canyon	3/01-5/31
Apache Canyon 1, 2, and 3	6/1-6/30
Off allotment	7/1-11/30
Piney Park	12/1-2/28

Please contact the district if the need arises to use the Mesa pasture.

The district is still considering authorizing the use of the Apache Creek Enclosure.

No Livestock are allowed within the riparian area of the Tularosa River on National Forest System Lands. Please maintain all fences and water gaps necessary to keep your cattle out of the Tularosa River on NFS lands.

Please notify us of cattle movements onto and off of the allotment, as well as refinements that may be needed to enhance the management system. If you identify the need to differ from this management system by more than 15 days, please contact this office at least two weeks in advance so that the district has time to conduct monitoring and assess your request.

3. **Utilization Standards and Monitoring:**

The maximum allowable use level set for the Alexander Allotment is **35%**. Key area utilization monitoring will continue. Monitoring will be conducted at the approximate midpoint of the scheduled use period and/or within two weeks before to two weeks after the date cattle are scheduled to leave a pasture. Key areas will be visited to determine actual grazing use/seasonal use by livestock/wildlife. If utilization levels are approaching allowable

use levels, livestock will be required to be moved to areas within the pasture or other pastures that are not approaching allowable use levels. In the event that areas not approaching the allowable use are not available, livestock will be removed from the allotment when allowable use rates are met. Management adjustments will be made to the following years Annual Operating Instructions to avoid recurring instances of over utilization. The following dates have been tentatively scheduled for monitoring on the allotment. You are highly encouraged to participate in monitoring with district personnel and/or on your own.

Pasture	Monitoring date
Wilson Canyon	05/31/06
Apache Canyon 1, 2, 3	06/07/06
Piney Park	01/25/07

4. Forage Growth and Water Availability:

If forage growth and water availability are not adequate during all or portions of the 2006, total or partial livestock removal from the allotments may be necessary. Part 2, clause 8(c) of the grazing permit provides this option.

5. Range Improvements:

All assigned range developments identified in the Term Grazing Permit must be maintained to a functional status.

In addition, specific maintenance discussed included:

Fences: If you identify the need to reconstruct an fences or construct any new fences on the allotment please contact Collin Ewing or Jerry Turner to inquire about the availability of materials, NEPA documentation, and for a permit modification.

Water: The permittee proposes to install a pipeline from Porter well. Please provide the district with a proposal and/or schedule a field trip with Jerry to do necessary surveys and begin NEPA documentation for this project.

Advanced planning is needed for authorizing tank cleaning so surveys can be scheduled during the summer months. Please protect natural springs and areas with riparian type vegetation. Drainage bottoms, creeks, springs, and cienegas, where water is available, are most susceptible to livestock concentrations.

6. The Annual Operating Instructions are a part of the Term Grazing Permit as provided for in Part 3, Section 8. They comply with the standards and guidelines found in the Forest Plan. Any additional information collected during the year may be incorporated into the annual operating instructions.

This decision is subject to administrative review, pursuant to 36 CFR 251; and any appeal of this decision must be fully consistent with 36 CFR 251.90 (see enclosed copy of 36 CFR 251

regulations). In accordance with 36 CFR 251.84, if you file an appeal, I am willing to meet with you to discuss any concerns you may have with my decision. If you file an appeal, you may request an oral presentation in the appeal or at any time prior to closing of the appeal record (36 CFR 251.97). Additionally, if you file an appeal, you may request a stay of my decision in the appeal or at any time prior to closing of the appeal record (36 CFR 251.91).

A notice of appeal must be filed with Marcia R. Andre, Forest Supervisor, Gila National Forest, 3005 E. Camino del Bosque, Silver City, New Mexico, 88061-7863, within 45 days of the date of this decision. A copy of the notice of appeal must be filed simultaneously with Rogers M. Steed, District Ranger, Reserve Ranger District, at P.O. Box 170, Reserve, NM 87830.

Feel free to contact Collin Ewing or myself at (505) 533-6231 if you have any questions or problems concerning this document.
