SEEN ME?

# Survey123 App Wild Pig Reporting Form

The Bankhead Wild Pig Program developed a reporting form to allow the public to assist in control efforts within the Sipsey Wilderness Area and the rest of the Forest. Use this form to report wild pigs or fresh (<7 days old) pig sign.

## How to Download:

**Step 1:** Download the ArcGIS Survey123 app to your mobile device.

**Step 2:** Hover phone camera over the QR code or follow this link:

<http://tiny.cc/BNFPigs>

**Step 3:** The Survey123 app will open. Select 'Continue without signing in'

**Step 4:** The BNF Wild Pig Reporting Form will automatically open. You can now report pig sightings!

### Additional Details:

- Please fill out the form at the time of sighting so your location is accurate!
- Offline Use – The form is designed for use without cell service or Wi-Fi. The form will save in the 'Outbox'. Once you return to service, just click on 'Outbox' and select 'Send'.
- The form will be saved within the app for future reporting.
- The Survey123 app can be downloaded from the QR code, however you must rescan the QR code once the app is downloaded to open the form.
