PROHIBITION:

1. Discharging a firearm, air rifle or gas gun [36 C.F.R. § 261.58 (m)].

AREA CLOSURE DESCRIPTION:

The closure applies to all National Forest System (NFS) lands including roads and trails, depicted on the attached map (Attachment A) also known as the “Hyalite Watershed”.

PURPOSE:

The purpose of this order is to protect public health and safety. The closed area, the Hyalite watershed, which is located just outside Bozeman, is the most heavily used watershed on National Forest System lands in the state of Montana. The closure is a permanent closure as described under Section 4103 of the John D. Dingell, Jr. Conservation, Management, and Recreation Act (Public Law 116-9). It is necessary to ensure public health and safety on NFS lands immediately adjacent to private land to the North. This closure combined with existing federal shooting restrictions (36 CFR 261.10 Occupancy and Use (d)(1)) will provide for enhanced public safety.

IMPLEMENTATION:

This order will be in effect year round beginning on date of signature and in effect until rescinded.

These prohibitions are in addition to the general prohibitions in 36 C.F.R. Part 261, Subpart A.
