Incident Claims Process

Quick Reference Guide
Contract Claims

Contract Claims are claims initiated by contracted vendors for damage to or loss of their rented equipment or vehicles.

Contract claims for **Forest Service**: 

While there is no specific form required by the contractor, the claim must be in writing and include:

- Claimant’s complete name, mailing address, and phone number
- Legible signature of the equipment owner or legal representative
- Claimant’s statement of facts concerning the damage.
- Claimant’s itemized listing of the amount claimed, including estimated values of equipment before damage
- Witness statements if available

Incident personnel having knowledge of potential claims should provide information to PROC or Contracting Officer and can sign and record the date it was received from the contractor only.

For Forest Service incidents, claims documentation is emailed to the Incident Procurement Operations inbox at: [SM.FS.PPSIPO@usda.gov](mailto:SM.FS.PPSIPO@usda.gov), from there, claims will be logged and routed to the appropriate Contracting Officer for resolution.

Contract claims can be settled by the original contracting officer or designated successor contracting officer, acting within their delegated warranted authority.

If there’s a warranted procurement unit leader on the team/incident, that individual may be able to handle the claim.

**WARNING!**

- Incident personnel shall **not** advise, comment, or solicit a contractor’s claim
- Incident personnel may **not** complete ANY information for the claimant.
