The US Forest Service Northern Region is outreaching for the yearly hiring event known as “Fire Hire”.

Announcements will be opening soon in USAJOBS to apply for many permanent wildland firefighter positions for the 2023 fire year.

Application Period: September 21st, 2022 - October 11th, 2022

The Northern Region fills 150-200+ permanent wildland firefighter positions across 10 National Forests and Grasslands in Idaho, Montana, and North Dakota. Specialized positions include dispatch, engine crews, fire and fuels management, hotshot crews, hand crews, helitack, smokejumpers, and prevention. All positions could engage in a spectrum of fire management activities including, contributing to fire suppression efforts, performing project work such as fuel inventories, preparing associated reports, and hazardous fuels reduction projects. Region 1 will be filling permanent full time and permanent seasonal fire and fuels positions ranging from GS-0462-03 to GS-0462-08.

The Fire Hire process is used to standardize hiring of permanent wildland firefighter positions to provide consistent practices around the Region and throughout the agency. Fire Hire is currently utilizing a Direct Hire Authority, which has been granted by OPM for the Forest Service to fill critical positions in an accelerated manner. The announcements are open to the public, but many require NWCG qualifications. Each announcement will define what the requirements are.

The vacancy announcements for these positions will be posted on the US Government's official website for employment opportunities at USAJOBS.

All Fire Hire specific announcements can be searched in USAJobs by keyword 23-FIRE. Applicants may also search by City, State (duty location).

Applicants are encouraged to apply to any position and duty station you may be interested in, as those positions may become vacant throughout the Fire Hire process.

The announcements listed in this outreach will not be available in USAJobs until the opening date of September 21, 2022.
