Dear Ms. Converse:

We appreciate your staff's review time on our Biological Assessment for our Forest Plan Revision effort. We are especially grateful for the turnaround time given current staffing challenges and working through the holiday season on this. Enclosed is the final Biological Assessment that our staffs consulted on. Again, we appreciate our productive working relationship and thank you for helping us get closer to a Decision on our Forest Plan Revision Environmental Impact Statement.

Thanks again and we look forward to further communications on other project-level consultations.

Sincerely,

**SUSAN
