Holiday Tree Hunting

Know Before You Go

This Year's Holiday Tree Season Dates:

General Info

Forest Service employees can provide valuable information about road and trail access and permissive cutting areas. Use this information to plan your trip and travel route.

- * No off-road travel is allowed (unless by snowmobile in open-riding areas).
- * Permit must be in possession when cutting and transporting tree(s).
- * Full permit rules details can be found on the permit purchase site or by calling your local Forest Service Office.

No Tree Cutting:

- * Within areas with signs posted that prohibit woodcutting.
- * Within 200 feet of campgrounds, paved roads, and administrative sites.

Selecting a Tree

- * **Tree Height:** 20 feet maximum
- * **Stump height:** 12 inches maximum
- * **Stump diameter:** 6 inches maximum
- * Do not cut isolated trees growing in the open.
- * Take the whole tree of correct size for your home.
- * Do not cut a larger tree and remove the top of the tree.
- * Select Pine, fir, or cedar. Do not cut any hardwood such as aspen or oak.
- * If snow is on the ground, remove it from around the stump so you can accurately measure the stump and tree height.
